

## Radioactive waste centre to be discussed at meeting

A meeting has been called at the Kiwanis Centre, Wednesday, Feb. 2, at 8:00 p.m., to discuss the proposed Mount Moira disposal site for Nuclear Waste.

On January 27, several persons from Cooper, Madoc and Queensboro met at the residence of Monte Dennis to share their concern about the proposal. Many topics were discussed including the concern the people have over the safety factors of this type of storage, the roots of transportation of the radioactive waste, and the effects the

sit might have on the tourist industry and real estate values. One point made by those present was that the issue is not just one of safety or hazard but that the presence of the proposed plant would affect many aspects of life in Centre Hastings and should be of great concern to everyone living in the region.

The organizers hope that as many persons as possible will be able to attend the meeting. A film on nuclear energy will also be shown after the meeting.

## Moose runs over man

By CAROL PARANUIK

Sightings of moose - a rarely seen animal of this district - have been reported in the past year on a few occasions, and one made a surprise appearance at a Madoc Township farm last Friday morning.

Richard Chapman had a frightening experience when he came face to face with a big cow moose in the pit silo at his farm. He said it was just before daylight when he went out to the pit, carrying a large pail in each hand. He looked up as he entered the silo area, and there, less than 30 feet in front of him, stood the big animal looking back. Richard reports that he dropped the pails and realizing that the only way out for this huge intruder was behind him, he turned and fled. In the excitement, he

tripped over one of the pails and fell down. The moose ran right over top of him without slowing down and ran off to the west. When Richard looked up, he saw a big hoof print at arm's reach beside him.

Later, talking to neighbouring farmers, Mr. and Mrs. Lawrence Trotter, he learned that they too had the moose pay them a visit. It was apparently in their front lawn for about a half-hour, where they watched it from the house. Lawrence said he estimated the animal weighed at least 1700 pounds.

Unfortunately, no one had a camera and film available, but Richard reports that if the moose returns to its feeding ground, he'll be ready to 'shoot' its picture the next time.

## M.P. Jack Ellis reports on nuclear disposal near Madoc

Hastings MP Jack Ellis, in a recent report from Parliament Hill in Ottawa, gave his own views on a proposal to locate a nuclear waste disposal site near Madoc.

In the beginning, there had been a number of statements made, most of them erroneous, and the majority of them made out of fear about what might happen. I hope to lessen some of those fears and point out that the problem, if indeed there will be a problem, is not something that one needs to panic about.

First of all, the type of waste that is being discussed is not the type of waste that has caused the problem, for example, in Elliott Lake, Port Hope, Deloro. These instances where the raw material that had been mined, not fully refined, placed back as waste material, and indiscriminately spread around. The kind of nuclear waste that we are talking about is actually two kinds that come from the nuclear generating plants. There is the reactor waste which is a very low level and amounts to perhaps one-tenth of one per cent of the total. This is very short lived and usually is destroyed or stored on the site. The one that is being discussed, however, is the fuel that has been used and is spent beyond further use in the reactor but still has a fair bit of nuclear activity left in it and this is, as I said, 99.9 per cent of the waste that we are talking about. The volume is relatively small; for example, the plant at Pickering which has at times in the past year produced up to 20 per cent of all the power used in Ontario, would produce about 250 tons a year of waste. You can imagine that if this was a cold fire plant there would be thousands and thousands of railway cars full of coal ash.

In order that this material be safely stored away where it can do no harm to anyone, the Atomic Energy of Canada Limited have been looking for some time to find the proper site. There has been some discussion of burying it at the bottom of the ocean; after all it's stored on site at the moment with 12 feet of water over it, and that 12 feet of water provides a satisfactory cover. However, drilling into the floor of the ocean, sometimes many miles down, is a very complex method, and in Canada we have a great deal of hard rock (granite to be exact) which will provide adequate storage for the many thousands of years that this

substance has to be stored.

In order that it be done properly, research has shown that by drilling into the rocks 3,000 feet or over half a mile, into the proper kind of granite the material can be stored safely and in the laboratories in the research areas, they have laid out in this general area (this general part of Canada) some 200 places that would be probably adequate. Further research narrowed that down to about 30 sites, and in fact, about 13 have been set aside as being ones that should be looked at on the site and with test drilling. This test drilling has not yet been authorized. In fact, it probably will be and it is hoped that the drillers would move in sometime this summer.

Among the 13 sites there may be five that will come up as being perfect in every way for the AECL to use. Two of those sites have been looked at in the Mount Moriah area and the Weslemkoon area. To date, there is no proof that these are going to be satisfactory. There are many factors: including the distance away from the generating site, which will lead to a decision. Then the material is handled, to give you some idea of the safety, they put a ton and a half into a container that weighs something like 20 tons of lead, steel and concrete and they put it on a truck to carry it. If the material is carried by rail the material is put into a container that weighs 70 tons.

In any event, before any of this work is done, there needs to be consultation with the people in the area and I have agreed with the people in the County, and the scientists from the Atomic Energy of Canada Limited have agreed to come to the area, at my request, sometime in March, to explain the situation to you.

There will be a general meeting, and I will give you further details at a later date, and a discussion will take place of the possibility only, of there being a site in Hastings County. If indeed it takes place, there is at least two years of study and research yet required to make the decision and each and every citizen in Hastings County will have an ample opportunity to voice their objections or their reservations before that takes place.

I hope that this will, in some way, allay the fear that I know some of you have.

[See 'Ellis' Page 2]

Ross Clarke is shown above. He has been the manager of the Madoc branch of the Toronto Dominion Bank since 1971.

After five years

## Local manager transferred

"For Sale" signs went up at the lovely two-storey home of Mr. and Mrs. Ross Clarke on Russell Street last week, after Mr. Clarke learned of his transfer from the Toronto Dominion Bank here.

Manager of the branch since 1971, Mr. Clarke has been a prominent figure in community activities here. He has served as President and Secretary of the local Kiwanis Club, and was active on the Winter Carnival Committee, where he has been Treasurer for a few years and is Chairman, a position he has held for the past two years. Mr. Clarke is also a member of the Board of Stewards of Trinity United Church and Recording Secretary of the Moira Lake Pastoral Charge.

Mr. Clarke started his banking career in 1948 at Orillia, Ontario. He has worked in several branches throughout the province, including 2 branches in Toronto, and Grantham, Gananoque, Huntsville, Barrie and Port Colborne. His next experience in banking takes him to Yonge and Centre Branch at Richmond Hill, where he will retain his capacity as manager. His wife, Dorothy, who presently is bookkeeper for Sam Danford and Sons Ltd., will be vacating this position as well to move to their new location.

Mr. Ewart J. Reynolds, who is now manager of the Trenton Branch, will be taking Mr. Clarke's place.

## Skate sharpening fees to go to new arena fund

MADOC - Frank Varley of Groves Saddlery here announced this week that he is planning a fund-raising project for the new arena.

The project will be carried out during the first two days of the annual winter carnival, Thurs. and Fri., Feb. 10 and 11.

Mr. Varley reports that he will donate to the arena all money taken in for the sharpening of skates during those two

days.

The price of \$1 per pair will be charged, but if someone wishes to contribute more toward the donation, it will be gratefully accepted as well.

Everyone is urged to support Mr. Varley on this worthwhile project while at the same time getting those dull skates ready for action on the ice.

## County committee meets

The annual meeting of the Hastings County Milk Committee will be held on Thurs., Feb. 3, at 7:30 p.m. at the Huntingdon Township Hall, Ivanhoe.

All milk producers are encouraged to attend this meeting to hear reports of the county committee and the Ontario Milk Marketing Board. Ten milk producers will be recognized for high quality milk they have produced during 1976. Many others

will qualify for this achievement, however, only ten will receive certificates.

The guest speaker will be Dr. M.S. Mills. He is well known through this area through his work with Eastern Breeders on the subject of nutrition. Dr. Mills is now with Via Pax Ltd. of Woodbridge, a firm involved with embryo transplants in dairy cattle. His topic will be embryo transplants and the dairy industry.

## Madoc-Cooper Canucks downed 7-6 in new arena

The Madoc-Cooper Canucks suffered their first loss in the new arena Sunday night in a hard-fought battle against Brighton. The game ended in a 7-6 decision which was closely contested right to the final few seconds.

The opening period started out with Brighton scoring the first goal at the 17:45 minute mark. Then, shortly after, Madoc-Cooper tied it up with a goal from Jerry Chapman, assisted by Bob Chapman and Larry Rollins. Then Brighton scored a goal at the 13:27 mark to go ahead 2-1. But, at the 7:21 mark, Terry Chapman scored, assisted by Glenn Graham, ending the first period in a 2-2 tie.

In the second period the Canucks took the lead on a goal by Jack Smith, assisted by Mike Rollins. Brighton answered shortly after, tying it up. Jerry Chapman put his team in the lead again on an assist of Terry Chapman and Brian Rollins. At the 3:46 mark the visitors replied, but Brian Rollins scored an unassisted goal

with just 22 seconds remaining, making the score 5-4 for the Canucks at the close of this period.

Brighton came out in full force and scored after a few seconds back on the ice in the closing period. Unassisted, Terry Chapman shot a nice one into the visitors' net to answer, and again pulled the score in favor of the Canucks. However, after much hard work, the Brighton group managed two more goals before the final buzzer. The Canucks made several last-minute attempts to pull from behind, but luck just wasn't with them Sunday night.

Rodney Rollins is to be commended for his good work in the net throughout the game. The players worked hard and kept the spectators interested right to the dying seconds.

Come out and support your team Sun. night, Feb. 6, when they play host to BP Oil Kings at 8:00 p.m. The Canucks are getting good support and are playing good hockey in return.

Jerry Chapman of Madoc is shown above. He will be entering in the local snowmobile races at the Madoc Winter Carnival.

## Opening committee finalizing big plans

By CAROL PARANUIK

The New Arena Opening Committee here are finalizing plans for the big event, coming up on the weekend of the Madoc Winter Carnival, Friday evening, Feb. 11.

Grant Ketcheson reports that a representative of the Ministry of Culture and Recreation, possibly the Minister himself, will be on hand to cut the ribbon and officially open the new building.

It has been confirmed that Stan Hawthorne will preside at the organ throughout the evening.

Over 50 oldtimers have been invited to witness the event, some from as far away as Montreal, and many have replied that they wouldn't miss it for anything. Jack Baker of Toronto, who has put Madoc on the map since he started up his own brewery, will be present to give an address on behalf of the oldtimers.

An entertaining program is being

prepared to delight young and old alike. This will include the Cobourg and District Pipe Band; a hockey demonstration by the little Tikes, some of whom started playing at 3½ years of age; the local figure skating club in a routine; and guest artists have been invited to show their figure skating skills as well.

Clarke T. Rollins, MPP Hastings, and local reeves, including Hastings County Warden Cecil Woods of Madoc Township, are all expected to be in attendance.

And, most of all, the committee reports that there will be no admission charged as this is their way of saying "Thanks" to all of the people who supported the project during the planning and construction of the building we all are so proud of.

One hour of free public skating on the new ice surface will wind up the night's activities at the arena.

## Stirling men collide

A two vehicle accident occurred on January 27, on County Road 8, 1 mile east of Highway 62.

One vehicle driven by Harold Thompson of RR2, Stirling, he was pulling out of a driveway when he was struck by a vehicle driven by Kenneth Hewlett of Stirling.

Constable Norman Papi of the Madoc Ontario Provincial Police investigated the accident, and has charged Thompson under section 94-of the Highway Traffic Act with making an improper turn. He also charged Hewlett with Section 63-A-3 of the H.T.A. with not wearing a seat belt.

## Meeting to discuss nuclear wastes to be held March 16

Jack Ellis, M.P. Hastings announced recently that a special meeting, open to the public, will be held on March 16th at 7:30 p.m. in the Centre Hastings Secondary School to discuss the question of Nuclear Wastes. Mr. R.E. Henderson, Principal has agreed to act as Chairman of this very important meeting.

At the meeting will be officials of Atomic Energy of Canada Limited who will explain the nature of Nuclear Energy in the production of electricity, the type of wastes involved, the research involved in disposal of the wastes and how all of this may or

may not affect the County of Hastings. Mr. Ellis stated that with all the misunderstanding and resulting apprehension which has arisen recently, he hoped that everyone who was interested would attend. Provisions will be made for questions from the audience and the meeting will last until all reasonable questions have been answered.

Mr. Ellis said that when a decision is eventually made, the community chosen stands to benefit from the installation and operation of the facility to an amount in the order of \$50 million.

## Five-vehicle accident occurs on Highway 37

A 2:30 p.m., on January 28, on Highway 37, just north of County Road 8, a 5 vehicle accident occurred which tied up traffic for some time.

Two southbound cars were, stopped on account of the traffic and weather conditions, came in collision with a car carrier, which then jack-knifed, closing the road off completely. A short while later, another vehicle which had stopped to render assistance to the drivers in the first accident had his car hit by an oncoming log truck.

Constable Al Borger of the Madoc Ontario Provincial Police investigated, with the assistance of Constable Paul Clement

of the Tweed Police Department.

The drivers: Hennessy, 31 years, of 56 Hoylake Crescent, Orleans, Ontario. (Ottawa area). 2nd driver Juergen Reinecke, 23 years, of RR1, Maberly, Ontario. 3rd driver (car carrier) Joseph H. Bellevue, 40 years, of Oshawa. 4th driver (northbound) Arden C. Dunham, 20 years of 518 Metcalfe St. Tweed. 5th driver (logging truck) Allan Ramsay, 44 years, of RR2, Madoc. The O.P.P.'s didn't leave the scene until after 7 p.m. and it was most fortunate that there were no injuries. The 37 Highway was closed for approximately 2 hours....Then only one lane for a while until all was cleared away.

# Federation of Agriculture holds January meeting

"Keep it simple, keep it orderly, and keep it up to date."

This was the advice about bookkeeping given to area farmers and their wives who attended the meeting of the Hastings County Federation of Agriculture in the Agricultural Board Room in Stirling Thurs., Jan. 20. Special guest speaker, Stewart Cooke, local farmer, chartered accountant, and income tax specialist, addressed the capacity crowd and explained many income tax laws relevant to the farm operation.

Still a thorn in the side of the farmer is the fact that the labor of a farm wife is still not recognized, either in ownership of the farm or in tax concessions. Cooke stated that the only way to pay a farm wife wages and use it as an income tax deduction for the husband is to form a corporation or a father-son partnership. The men pay wages to each others' wives and can then claim these wages as deductions.

In response to a directive sent out from head office, a standing committee for present and future liaison with Ontario Hydro was set up, consisting of Bill Langstaff, Price Morris and Charles Bates.

The land policy of the Ontario Federation of Agriculture was read by president Paul McKeown, which included the guideline that "farmers should not be required to confer a benefit on society without recompense," which would include such things as farm income stabilization programs, an acceptable code of practice to protect farmers from harassment and conflicting land uses, ARDA programs to and to be more flexible and updated, and property tax to relate to value for production, not speculative value.

The meeting approved three resolutions to be sent to the Ontario Federation of Agriculture. These included the topics of the public posting of brucellosis quarantines, the need for speeding up compensation payment for animals lost from brucellosis, and the opposition to the proposed atomic waste dumping in Elizvir and Grimsthorpe Townships.

Bill Langstaff reported on the proposed U.S.-Canada border closing to prevent Canadian farmers from importing such products as Atrazine and Bladex from the U.S. These products are imported to Canada from Europe, packaged in Canada and exported to the U.S., where they can be purchased at 16.6 - 46 per cent less than in Canada. Langstaff called on members to phone Jack Ellis, local MP, to state their views. Also a telegram to Eugene Whalen is to be sent.

Ray Donnan gave a report on the recent annual convention of the Ontario Milk Marketing Board in Toronto. He stated that, at present, the consumption of milk in Ontario is 100 quarts per person per year. The convention was largely taken up with honouring the retiring president, George McLaughan.

The annual banquet and dance of the Hastings County Federation of Agriculture is to be held in the Knights of Columbus Hall, Trenton, Thurs., March 10 at 7 p.m. Tickets will be available soon from executive members. Guest speaker will be Peter Hannam of Guelph, newly-elected president of the Ontario Federation of Agriculture. Hannam will also be a guest of Milt Johnston on his CJBQ open line program Fr., March 11.

The next meeting of the Hastings County Federation of Agriculture will be held in the Agricultural Board Room, Stirling, on Thurs., Feb. 17 at 8 p.m. Special guest speaker will be Jack Wood, from the UCO, Foxboro, will give a slide presentation and discussion on the fertilizer industry. Everyone is invited, with a special invitation to farm wives.

## Madeleine Frost elected president of ACW

Madeleine Frost was elected president of St. Paul's ACW at the recent annual meeting.

She will be assisted by Catherine Lea in the post of vice-president.

Letha Colden will continue as secretary on the new executive, along with new treasurer Ruby McCoy.

A vote of thanks was extended to retiring president Hazel Lavender for her many years of service.

Year-end reports from the various committee chairmen showed a very busy and successful season completed.

It was decided to contribute \$600. towards the finishing of the church hall.

Mrs. Colden volunteered to inquire about acquiring a prayer-partner and agreed to act as secretary in any correspondence with the designated partner.

Tentative plans were discussed for the official opening of the new church hall and the installation of the rector, Rev. Jack Howard, on Sunday, Feb. 13 at 3 p.m.

Minnie Empey agreed to continue as craft committee chairman and asked that members bring suggestions and their crafts to the church hall on Thursday afternoons starting at 1 o'clock.

## Contract let for senior citizen housing

Clarke Rollins announced recently that the contract for the construction of 30 senior citizen units in Marmora has been awarded to Frank Zupet and Sons

Construction Company of Mississauga. The Contractor's Tender was \$477,000.00. It is scheduled to begin early April - or as soon as weather conditions permit.

## Upcoming farm events

Upcoming farm events in Hastings County include:

Monday to Friday, January 31 to February 4 - Canadian farm and industrial equipment show, Toronto.

Wednesday and Thursday, February 2 and 3 - Annual meeting of Ontario soil and crop improvement association, Barrie.

Thursday, February 3 - Annual meeting of Hastings County Milk Committee, Ivanhoe, at 7:30.

Thursday, February 3 - Peterborough park conference -

Tuesday, February 8 - Annual meeting of Madawaska Veterinary Association at Combermere at 2:00 p.m.

Friday, February 10 - Doup Ptolemy, O.M.M.B. Fieldman, at Stirling office at 1:00 p.m.

Friday, February 11 - Hastings County Junior Farmers' Banquet and Dance - At

Gilead Hall 7:00 p.m. Tickets \$5.50 per person or \$10.00 per couple. Available from Garry Lowes, Bruce Thompson, Laurie Sills, Katrina Tummon, Colleen Lott, Janice Morton, Bob Eggleton, Barry Danford, Peggy Morgan and at the Agricultural office.

### EVERYONE WELCOME

Tuesday, February 15 - Annual meeting of Hastings County branch of Eastern Breeders Incorporated. Sidney Township hall at 1:30 p.m.

Tuesday, February 15 - Non-farm investments for the farmer. Details on page 6.

Tuesday, February 15 - Summary day for needlepoint course to be held at Stirling Community Centre at 1:30 p.m. Displays will be set up by the ladies' groups that took part in this course. Each group will do a presentation on the project. Visitors welcome.

## Hastings county junior farmers hold annual meeting

The Hastings County Junior Farmers held their annual meeting on Wed., Jan. 26, at the Stirling Senior Public School. The attendance was excellent, with fifty members present.

President Gary Lowes of RR 2, Stirling, reviewed the events of the past year. Many activities for members were held: a pot luck supper, dances, a car rally, and participation in zone and provincial games. The Junior Farmers hosted a delegate from England for two weeks, held a raffle with the proceeds donated to charity and operated a dairy products booth at local fairs.

The executive for 1977 includes: Past President: Gary Lowes, RR 2, Stirling; Presidents: (Joint) Bruce Thompson, RR 2,

Roslin; Laurie Sills, RR 2, Roslin; Vice-President: Leslie Martin, RR 1, Tweed; Secretary: Louise Lott, RR 2, Roslin; Provincial Director: Ross McCurdy, RR 2, Stirling; Alternate Provincial Director: Kevin Pollock, RR 5, Stirling; Newsletter Editor: Brian McComb, RR 5, Belleville; Directors: Ross Bailey, RR 1, Stirling; Peggy Morgan, RR 2, Stirling; Tom Hassal, RR 2, Stirling; Barry Danford, RR 1, Springbrook; Lynn Kellar, RR 2, Stirling.

The new executive will be installed at the Junior Farmer Banquet and Dance to be held on February 11, 1977, at Gilead Hall at 7:00 p.m. Tickets are \$5.50 a person or \$10.00 a couple and are available from the executive.

## People problems can be serious problems.

## This is what Ontario is doing to help solve them in advance.

Recently arrangements were made for a group of Indian children to attend the public school in a northern Ontario town. The principal of the school in the town was aware that Indian children sometimes had a rough time at the hands of other students, and to try to forestall this kind of situation, he called in a Human Rights Commission counsellor to talk to the other children. The counsellor asked the children if any of them had ever moved to a new school, and what they thought it would feel like if they were the strangers. In this way he helped them understand how the Indian children would be feeling when they arrived, and the integration proceeded relatively smoothly.

Community counselling is one of the major roles of your Ontario Human Rights Commission. We hold seminars and discussions with police in areas where there are communication barriers between them and minority groups, to help relieve tension and promote mutual understanding. We attend meetings of immigrants and native-born minority groups to explain to them both their rights under the legislation and their responsibilities as citizens of this Province.

We also help bring people into contact with local agencies like home-and-school groups, community and government agencies, and churches, which are available to help but which many people don't even know exist. Wherever there's a difficulty based on race, language, colour or creed, the Human Rights Commission is available to generate discussion and motivate people to develop understanding and respect for the other's point of view.

Our job is to help bring people together and encourage healthier relationships among all groups.

If you would like more information or assistance, contact the Human Rights Commission at any of the following addresses:

## Rollins announces Moira grant

A provincial grant has been approved under the Conservation Authorities Act in the amount of \$1,131,000.00, to the Moira River Conservation Authority, Clarke

Rollins announced today. The Grant will be for final engineering, easements, and construction of the Belleville ice control dams.

## Accident claims life

### Madoc man dies in Ottawa

Mr. Eugene F. Meraw of 391 St. Lawrence St. East., Madoc died as the result of an accident in Ottawa on January 26, 1977. He was a native of Belleville, and 27 years of age.

Mr. Meraw is survived by his wife, the former Trudy McFarlane, his son Jamie, and one brother, James, of Madoc.

Funeral services were held from Sacred Heart of Mary Church, Madoc, on January 29, with interment in Sacred Heart of Mary Cemetery. Father Scanlan officiated at the funeral services.

Pall bearers were Wayne Wannamaker, Raymond Cassidy, Danny Nickle, Douglas Pogue, Larry Byrne and Clinton Davidson.

### Mina Fitzgerald dies in Belleville

Mina Fitzgerald of RR3, Madoc died at the Belleville General Hospital. She was in her 87th year, and died on January 26, 1977.

Mrs. Fitzgerald was born in Eliziver township, and is survived by her husband, Frederick M. Fitzgerald, as well as her two children, Lois (Mrs. William Roberts) of Eldorado and Maurice Fitzgerald of Madoc. She is also survived by one sister.

Mrs. Fannie Fitzgerald of Madoc and two grandchildren and two great-grandchildren.

The funeral was held from MacKenzie Funeral Home in Madoc, with Rev. A. Creaser of the Queensboro United Church officiating.

Pall bearers were Allan McCoy, Jack Dudgeon, Carl Fitzgerald, Elmer Chambers, Wayne Roberts and Michael Lunney.

Page 8 - Feb. 7, 1978  
**Baker-Lahey  
wedding held  
in Madoc church**

Sacred Heart Roman Catholic Church, Madoc, was the scene of the autumn coloured wedding of Margaret Rose Lahey and Constable William Robert Baker on Sat., Oct. 16, 1976 at 3 p.m.

The bride is the daughter of Mr. James Lahey and the late Catherine Lahey of RR4, Madoc. The groom is the son of Mr. and Mrs. Harold Baker, Stirling.

Rev. Father P. Murphy, Madoc, and Rev. Father Grainger of Stirling officiated at the service.

Given in marriage by her father and brother Jamie, the bride wore a floor length three-layered white crepe gown with matching shawl. Her headpiece was a wreath of lilies-of-the-valley, attached to a floor length veil of crepe. She carried a basket of autumn-coloured flowers.

Miss Michelle Lahey of Kitchener, Ontario, sister of the bride, was maid of honor. She wore a blue gown with matching multi-coloured jacket, and carried a bouquet of autumn-coloured flowers.

The four bridesmaids, all sisters of the bride, wore gowns in the same style as that of the maid of honor. They were: Mrs. Cathy Oliver of Madoc, in gold; Miss Anne Lahey of Madoc, in peach; Mrs. Teresa Lee of Madoc, in green; and Miss Maureen Lahey of Toronto, in rust. They all carried bouquets of autumn-coloured mums.

The best man was Constable David A. Stitt of Killaloe, Ont. The ushers were Constable Doug Abbott, Killaloe; Constable Dick Likins, Killaloe; Constable Bernie Gaw, Whitney; and Constable Mike Quilty, Killaloe. The groom, best man and ushers were all in complete police uniform.

The wedding music was ably performed by Misses Lana and Sandra La Chapelle of Stirling. The songs included "The Wedding Song," "Turn Around, Look At Me," "Sunrise, Sunset," "You Fill the Day," "Follow Me," "I'll Walk in the Rain," and "Song of Joy."

The reception was held at the Sacred Heart of Mary Parish Hall, Madoc, where the guests were greeted by the groom's mother, wearing a blue metallic polyester dress with matching jacket and a corsage of dried pink and blue mums.

Following the reception a dance was held at the Madoc Kiwanis Centre. Music was supplied by disc jockey, Terry Armstrong of Stirling.

For the wedding trip to Lake Placid, New York, the bride wore brown polyester slacks and a floral silk blouse with matching accessories.

Guests were present from Madoc, Marmora, Stirling, Belleville, Ottawa, Islington, Eganville, Kingston, Whitney, Lindsay, Toronto, Killaloe, Cornwall, Golden Lake, Peterborough, Trenton, Kitchener, Foxboro, Mississauga, Lakefield, Erinsville, Tweed, Sunridge, Lyn, Carleton Place, Barrie and Omeme. The couple are now residing in Killaloe, Ont.

Richard Empey works inside his new repair shop.

## Empey Bros. open shop

"Snowmobile repairs are the big thing right now," says Richard Empey, who very recently opened Empey Motor and Machines, in partnership with his brother Robert.

The repair shop building is located behind Richard's home at 148 Durham St. in Madoc.

"We've just got started and we're really busy," he reports. "There seems to be a tremendous demand for repairs to small motors and recreational vehicles."

Richard is also a skilled welder, and has equipment for both gas and electric arc welding. He was formerly employed in the machine shop at the Stewart-Warner plant in Belleville, and over the years, he has been 'drumming up experience' doing a variety of mechanical repairs.

"Sort of a hobby, fixing things for myself and for friends," he smiles. The 'hobby' helped him decide on the type of work he liked; experience was provided in the machine shop; and further trade training was provided by classes at Loyalist College where he earned an Industrial Maintenance Mechanic certificate.

The Empey shop is also selling snowmobile parts and accessories, such as

the big sleds to attach and take your friends or kids along the snow trails.

Richard is expecting to have a motorcycle dealership by spring, and will also be servicing motorcycles. Since there are not motorcycle dealers within several miles of Madoc, this should be a welcome addition to the village.

Robert will be assisting part-time in the shop, and his specialty is repairing electrical systems on the recreational vehicles. He is a telecommunications employee at the CNR in Belleville.

The Empey brothers are well known in this area. Their father, now deceased, was a farmer at Eldorado where the children attended a local elementary school, then went on to Centre Hastings Secondary School. Robert still lives at the farm home, but rents out the land. Their mother, Mrs. Dorothy Empey is a teacher at the secondary school.

If we have to live with all this snow and cold weather, we might as well make the best of it and one is by having fun with a snowmachine which must be kept in good running condition. And that means that the Empey brothers are going to be up to their necks in repairs and working overtime.

## Winter can be fun!!

## Join in on these events!!

Some of the events occurring in and around Madoc during February include:

- February 4, 5, 6, Cooper Winter Carnival snowmobile poker game;
- 11-12; Coe Hill Highlands of Hastings Snowmobile cup race. At the fairgrounds.
- 11-12-13-Tweed winter carnival.
- 10-11-12-13- Madoc winter carnival. Snowmobile races.
- 19-Bancroft Trappers Carnival-Silent Lake.

20- Bancroft. Motorcycle races at Spurr Beach Park.

24-25-26-27- Stirling Home Coming week.

26-27 - Whitney cross country ski races longest run 50 kilometers.

This Thursday and Friday, February 3 and 4, trail grooming will be done in the Lingham Lake area. After this grooming, all the trails will be in fine condition for the weekend activities.

## St. Peter's Club meet

The January meeting of St. Peter's Presbyterian Women's Club of Madoc was held at the Manse on Mon., Jan. 3.

Mrs. Maude Deline opened the meeting welcoming all present.

The Devotional exercises were conducted by Mrs. Aletha Woods. After the opening prayer the Scripture was read from Acts, chapter 1, verses 1-11. Following this, everyone joined in singing Hymns 697 and 146.

The business carried out pertained to a rummage sale to be held on Apr. 22. Also Mrs. Hawkes thanked the Club for the Christmas gift she had received from them. This part of the meeting was then closed with a prayer by Mrs. Deline.

Mrs. Jeanette Raynsford was in charge of the program and chose as her topic, "Goals for the New Year" and "Alternate

Life Styles". She spoke about people leaving the cities, such as doctors, teachers and all types of people in all walks of life going back to the land, remodelling old buildings to make them livable, also growing their own vegetables organically and saving on electricity, fuel and water. Mrs. Raynsford also stated that some people were going to other countries and living this way. She also mentioned people who live in communes where they share everything. The high cost of rent was also talked about.

At the conclusion of her talk, Miss Loreen Connor thanked Jeanette on behalf of the Club for her interesting program.

A delicious lunch was served by the hostess Mrs. Hawkes assisted by Mrs. Maude Deline and Mrs. Prudence McCoy bringing the meeting to a close.

## Glanmore House displays

The public is invited to visit Glanmore House, the Hastings County Museum to view five new displays on artifacts that are a part of our local heritage.

1. The Hastings Road - which commenced at the northern end of Madoc Township and extended 75 miles was an attempt to fill up the central part of the County with settlers. On display are photos of some of these early settlers and an assortment of the tools they used in settling the road.

2 & 3: This area has always been famous for butter, cheese and garden produce. Some of the wooden implements used to

make butter and cheese are shown, as well as early garden tools and kitchen utensils.

4. Early carpentry tools of various kinds are of real interest to the lover of woodworking.

5. And last, but not least, a fine display of old cameras, photographs, tin types and photographic plates.

Kathy Blaind, the CIP student at the Hastings County Museum has prepared these five new exhibits, each one an interesting aspect of earlier life in Hastings County.

The Hastings County Museum is open Tuesday through Sunday, 1:00 - 5:00 p.m., closed Mondays.

St. Andrew's UCW Unit 2 held their regular meeting on Mon. evening at the home of Mrs. Leslie Holmes.

Mrs. Allan McCoy and Miss Christine Yzereef of Cooper visited Mr. and Mrs. Arthur Holmes on Fri. last.

Mrs. Arthur Holmes, also Mr. and Mrs. Joe Ash of Madoc, visited Mrs. Thos. Ash at Green Acres Nursing Home on last Sat. afternoon.

## Carmel O'Riordan birthday

Mrs. Carmel O'Riordan celebrated her 90th birthday on Sun., Jan. 23.

In the morning, Mrs. O'Riordan and her family attended Mass at the Sacred Heart of Mary Church, where Father Chris Rupert of Toronto was the celebrant. At the end of the Mass, Father Rupert presented her with a special Papal blessing which had come from Rome.

During the afternoon Mrs. O'Riordan was "at home" to her many friends and relatives at her residence in Madoc. Visitors included friends from Sudbury,

Ottawa, Toronto, London, St. Catharines, Kingston and Belleville, as well as the immediate area.

Mr. Clarke Rollins, MPP, and Mrs. Rollins, presented Mrs. O'Riordan with a commemorative plaque from the Provincial Government. Included in the many birthday wishes was a congratulatory message from Prime Minister Trudeau and greetings from Premier William Davis, Mr. John Diefenbaker, Mr. Joe Clark and Governor-General Leger on behalf of the Queen.

## Happy birthday

Congratulations and best wishes from all your friends today.

Yes, everyone is wishing you a happy ninetieth birthday.

We are pleased that you are one of us - Senior Citizens' number four-seven-three Of Madoc, and join with us, in all our activities.

Friendship is something to cherish, and something that will last. Now, let us reminisce a bit, of things about your past.

It was 1887, January 23rd you came to Trifley and Rachel Meraw, and they gave you a lovely name.

You were baptized Mary Carmel, in St. Carthagh's Church in Tweed. The church was not quite completed, but it fulfilled the need.

You were born and raised in Bogart, what happy childhood days, And were faithful in both school and church, for which you should be praised. Remember when you canvassed for the church so long ago?

You collected over four hundred dollars

which, even then, was a lot of dough! And a lovely prize was given, to you who collected most.

A lovely settee and two matching chairs, of which you still can boast.

In 1910 you were married - to Mr. Robert O'Riordan,

And have lived ever since in Madoc, and were blessed with nine children

Now you have eighteen grandchildren and nine great-grandchildren too,

So you have quite a family to look up to you.

You've had your share of sadness, but now happiness prevails, So in the "ups and downs" of life, they sort of balance the scales.

Of Catholic Women's League you're a member, and of Women's Institute too, And Senior Citizens besides, we sure are proud of you.

So Happy, Happy Birthday, and best wishes galore,

On this your 90th Birthday, and may you have many more.

Mrs. Goldie Holmes, Queensboro

Mr. and Mrs. John Fleming spent the weekend in Oshawa visiting Mr. and Mrs. Leonard Holmes.

Miss Hazel Thompson of Belleville visited Mr. and Mrs. John Thompson a few days this week.

Mr. and Mrs. John Howard and Scott, Madoc Twp., visited Mr. and Mrs. Ralph Franklin, Tues. evening.

Mr. Robert Turner Jr. and Miss Heidi McCormick of Frankford visited Mr. and Mrs. Arthur Holmes on Sun.

## Monday bowling

On Monday night Bud Monkman led the men with the high single of 261 and the high triple of 637.

The ladies' high single went to Jean Gooderham with 249. Velma Reid took the ladies' high triple with 627.

Those bowling over 200: Kay Peacock 210, Jane Jones 212, 204, Harry Dennis 222, Velma Reid 242, Jack Smith 206, Phil Young 237, Bud Monkman 207, 261, Paul Francis 256, Jean Gooderham 249, Jim Pigden 216, 206, Dave Forestell 232.

Team Standings: Root Bears tied with the Alley Kats with 67 points, Paul Bunyons 54, D-K's 53, Nite Tripps 40, Luckey 5 - 14 points.

ACWW talk

## held recently

MADOC - A talk on the formation and world-expansion of the ACWW (Associated Country Women of the World) was presented at Wednesday evening's (Jan. 26) meeting of 'Hart's-Riggs' Women's Institute by Mrs. Mary Trotter, Convener of World Affairs.

The meeting took place at the home of Mrs. Stan Moorcroft with a good attendance, including one visitor.

President, Mrs. Pearl Foley, opened the meeting with the Ode and Mary Stewart Collect. The minutes of the last meeting were read by secretary, Mrs. Vera Burnside. Roll call, "Name a world leader and country represented", was answered with a good variety of names.

Mrs. Doris Pigden presented the motto, "Save the Sight Fund and what it means". She told of how a vitamin deficiency can cause poor sightedness and blindness in small children. The presentation showed the value in the pennies collected at every meeting of the Institute that are forwarded to the Save the Sight Fund.

Program convener, Mrs. Trotter closed her portion of the meeting with a contest on countries.

Lunch was served by the hostess and her assistants.

# Weigh It For Yourself

By Bev Browning

Playoffs are here! Can "Spring" be far behind?

On Mon., Jan. 31, the Madoc Legionnaire Pee Wees played their first game of a best two out of three series against Marmora. This Friday the second game of this series will be played in the Madoc and District Recreation Centre at 7 p.m. If a third game is necessary it will be played at 2 o'clock on Saturday afternoon in Madoc.

Madoc and Marmora met twice during the season. Madoc won in Marmora 3-2, while Marmora defeated Madoc in Madoc 6-5. All signs indicate a good, close series. The winner of this series enters the second round against Deseronto.

The playoffs will also match Madoc and Marmora in the Bantam and Juvenile series. Playoff dates are not available but I believe the Bantams will be playing in Marmora this Friday night.

The Saturday Morning Hockey scheduling has been revised. All the seven to ten year olds have been placed on two teams. Eight-thirty until 9 a.m. will be a warm-up time. From 9 a.m. until 9:45 the two teams will play two periods of hockey. The six and under group will have the ice from 9:45 until 10:10. The two teams will play their third period of hockey from 10:10 until

10:30. From 10:30 until 11 o'clock skating and stick handling skills will be offered for all boys 10 years old and under.

Parents should note that there will be no hockey from 4 to 6 p.m. on Fridays (with the exception of Fri. Feb. 11). There will be no Saturday morning hockey on Sat., Feb. 12, as there will be a Bantam Hockey Tournament held in the Madoc and District Recreation Centre. On this weekend ice time will be available from 4 to 6 p.m. on Fri., Feb. 11. Another "possibility" are games in Marmora for the 10 and under groups on Sat., Feb. 12.

The Pee Wee "B" time is changed to 11 o'clock on Sat. mornings while the Bantam "B" time is changed to 12:30 p.m.

We are still looking forward to seeing more boys six and under out on Saturday mornings. We now have ten boys in this category and hope there are more out this Saturday.

Girls, we haven't forgotten you. On Sat., Feb. 19, at 1 p.m., two girls' teams from the city of Ottawa will be here to teach you how to play "Ringette" (a game on ice exclusively for girls). The girls (30 of them) will accompany Ray Broadworth, formerly from Madoc. Their ages range from 11 to 13 years. More on this next week. Until next week, you can "Weigh It For Yourself".

## Legion snooker teams compete

The Marmora Legion Branch 237 were represented by two teams of four at Deseronto Jan. 22 for the zone F-3 snooker play-offs. Those from Marmora were: Percy Gray, J. Darrah, V. King, D. Mintie, C. Woods, D. Bedore, J. Nobes and E. Bedore.

A local mixed dart tournament was held at the branch Fri., Jan. 21., with about eight teams in competition. Teams were picked by drawing for partners. Mrs. Joe Darrah and Percy Gray were the evening winners.

## St. Andrews mixed bowling

The results of the St. Andrew's Mixed Bowling League for January 27 were: Ladies High Single - Marilyn Richardson 233; Ladies High Triple - Bernie Donaldson 577; Men's High Single - Jim Turner 269; Men's High Triple - Leo Auger 664. Team Standing - Hot Shots 54; Try Hards 71; Crazy Six 78; Coming Through 59; Anythings 54; Trouble Shooters 62. Games bowled over 200 - Manley Lavender 250; Jim Turner 269 (633); Barb McCoy 208; Carl McCoy 241 (613); Tom Bedore 212; Myrtle McCaw 219; Bernie Donaldson 224; Leo Auger 226, 240 (664); Nick Price 208, 208 (610); Audrey Bateman 204; Doug Richardson 208; Charlie Cronkright 216.

## Juveniles bring home trophy

By JIM AIRHART

The Marmora Juveniles took part in the Colborne Juvenile Hockey tournament and came home with the "B" trophy.

In the first game Marmora lost 3-2 to Colborne Midgets who had their lineup bolstered by several Junior "C" players. Scoring for Marmora was Paul Armstrong and Carey Johnson.

In their second game they defeated Trenton 3-0. Scoring the Marmora goals were Justin Hanley with two and Carey Johnson. Dave Fluke picked up the shut-out.

In the "B" championship game, Randy Trumble was the sparkplug in Marmora's 7-4 over Lakefield. Trumble, who was named MVP in the "B" section, scored five goals and Steve Lawrence and Carey Johnson scored Marmora's other goal.

## Madoc and Marmora hockey teams in finals

# Come See Woodmore Fireplaces Ltd.

## 313 Front St. Downtown Belleville

Complete range of zero clearance and free standing fireplaces now available for the home handyman - or installation by Qualified Contractor

## Build your dream...together!

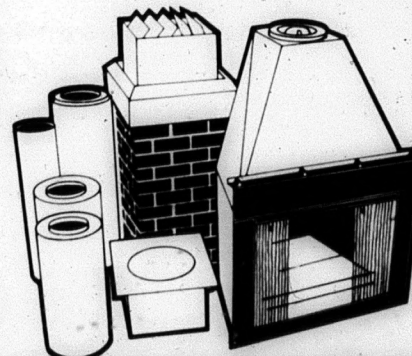

"We built it ourselves as a weekend project..."

"...and it cost less than we expected!"

Whatever a real wood-burning fireplace means to you...it shouldn't mean expensive! Not only is a Heatilator Fireplace far less than an old-fashioned masonry fireplace to buy and install, but it has many other advantages. A 20-year warranty, plus a smoke-free guarantee. Flexibility of installation almost anywhere. Capability for an almost endless variety of decorative treatment. Why not stop in and see for yourself? All built-in wood-burning Heatilator Fireplaces are U.L. listed.

## **Eldorado team strong contender in Madoc race**

To Don McEwen of Eldorado, winning isn't everything. Nor indeed is racing. But at this time of the year it is a very important part of his family's life. For Don raises Siberian Huskies, and will be entering his dogs in the competitions at the Madoc Winter Carnival.

Don has been raising and using huskies on his trap lines for several years. But within the last three years he has gotten involved in racing the dogs, taking them to Minnesota, Winnipeg and Thunder Bay for competitions.

Only a few points separate the top contenders in the Madoc competition. Don is entering three events: his son Stewart, who is sixteen, will race a five dog team; his daughter Glenda, 17, will race a three dog team, and his daughter Gloria, who is thirteen, will enter the single dog race. Don himself will not be racing, feeling that the competition is really for his children. He will, however, be on hand in case he must step in to cover for one of his children.

When not racing, Don uses his 10 dogs to cover his trap lines. Indeed, his take from the bush last year included 100 beaver pelts, 50 muskrat and one wolf pelt. He ships the pelts to the Ontario Trappers Association in North Bay.

Koola, which will lead the five-dog team, Don will be entering at Madoc, is his pride

husky. During the trapping season, which extends from December to March, Koola acts as his lead dog, often leading the trapping team on journeys of up to 30 miles per day. The conditions on the trap line are often bad, but under ideal conditions the dogs can go anywhere from 70 to 80 miles in one day.

Don said that discipline is very necessary in raising Siberian huskies. The dogs themselves seem to live solely for pulling the sled, and are happiest when doing so. Don points out that this happiness could be due in part to the fact that he gives them the meat from the beavers he finds in his traps. He feels that the dogs think that his only purpose in trapping is to give them food. Sometimes they will stop when they see a beaver lodge, expecting him to set up a trap so as to provide them with beaver meat.

The Dog Sled Races, part of the Madoc Winter Carnival, will be held on Feb., 12 and 13, starting at 12 o'clock noon. The locale for the event will be Campkin's Camp Inn, which is approximately two and a half miles south of Madoc, just off of Highway 62.

The event will include twelve three-dog teams, eight five-dog teams, and ten single dog races. The trails are eight miles, four miles and one mile respectively. The winners of each class will get trophies, with the runners-up receiving ribbons.

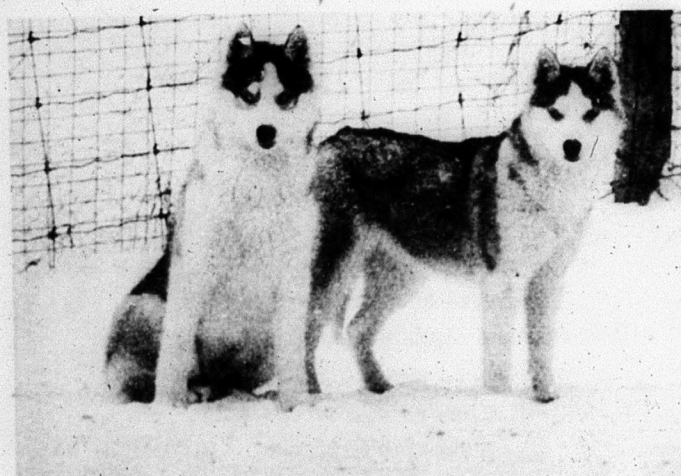

**'Koola' most important dog ...but Don plays no favorites**

**(Story and photos by Michael Labossiere)**

## Loyalist host to Eastern Snow meet

Loyalist College will be hosting the international Eastern Snow Conference on Feb. 2, 3 and 4. The conference is an annual gathering of professional engineers, meteorologists, foresters, scientists, educators and businessmen, mainly from the eastern United States and Canada.

The purpose of these meetings is the interchange of information related to snow, ice, frost, hail, snowmelt runoff and other phenomena associated with the winter season and the measurement and transmission of these factors.

There is generally representation from the U.S. National Weather Service, U.S. Corps of Engineers, National Environmental Satellite Service, Environment Canada, National Research Council, Ontario Ministry of the Environment, universities, colleges and private industries.

Donald Pysklywec, a member of the Loyalist College faculty and a member of the local organizing committee, expects more than 100 participants for this year's conference.

# Farm woodlots on the verge of a big comeback

After decades of neglect and abuse many farm woodlots are on the verge of a big comeback, according to Ontario Natural Resources extension foresters.

Hundreds of rural families concerned about rumors of fuel shortages and the high cost of heating bills are again using fuelwood for heating. While most are merely supplementing their heat, some are reverting to wood entirely.

"This winter has been the turning point", said Clarence Coons, Regional Forestry Specialist in Eastern Ontario. He estimates that three to four times the amount of fuelwood is being burned in the rural areas this year, as compared to last.

Bill Gourlay, head of Ontario's private land forestry service, said "city people won't be switching to wood to the same extent as rural folk since they're locked into oil, gas and electrical heating systems in most instances.

He also predicted many developers in rural areas would design home with wood as the principal heating source. This would involve the use of modern efficient wood stoves and furnaces as well as combination

furnaces which burn both wood and oil. Mr. Coons also believes that the real action will be in the rural areas.

Many rural people have woodlots and are already equipped to handle wood. They have a chain saw, a tractor and wagon for hauling wood, and lots of room for piling and storing. Some have either purchased or built a hydraulic woodsplitter to reduce the work involved in splitting.

It is a fact that many owners have almost ignored thinning in their woodlots in the past few decades. Since electricity, fuel oil and natural gas were cheap, there was little incentive to burn fuelwood.

The rapidly rising cost of heating over the last three years has caused many to examine alternate energy sources. Of these, fuelwood is the most reliable, safest and most readily available at reasonable cost. Woodlot owners now have an economic incentive for thinning and improving their forests.

Most woodlots must be thinned to maintain good growth and quality. Thinnings will often make good fuelwood. As Mr. Coons points out, "why should country people worry about turning down

the thermostat and bundling up in sweaters to conserve energy, when trees are dying and falling down every year in their woodlots."

Could increases in fuel consumption eventually destroy woodlots or create shortage of wood for other purposes? It won't happen if the resources are managed properly. "There's a limit to what we can use without conflicting with wood requirements for industrial uses," said Mr. Coons.

In southern Ontario there are large quantities of hardwood not suitable for industrial uses which could be used for fuelwood. This waste wood could heat thousands of homes every year. Furthermore, wood is a renewable resource. That's what differentiates it from oil and natural gas. It's our own home grown fuel, said Mr. Coons.

How much could one save by burning wood? This depends on many factors such as size of home, insulation, exposure and the severity of the winter.

Many old farmhouses will consume between 1200 and 1600 gallons of fuel oil in an average winter. At today's prices for oil that represents a savings of \$600 to \$800 if wood alone is burned. Of course, you must take into account some costs for producing and handling fuelwood even though the wood itself does not involve an out of pocket expense, if you have a woodlot.

To heat a modern well insulated dwelling, five standard cords of wood should be sufficient, but an older farmhouse may require from 8 to 12 standard cords.

The economics of burning wood and the security of having an independent heating system has not only raised the status of woodlots but is putting new demands on provincial extension foresters.

Landowners wishing information on

fuelwood cutting should contact their local office of the Ministry.

A reprint of an article by C.F. Coons, entitled, "Supplement Your Heat With Wood" is available by writing to the address below.

## Ontario Safety League says:

### Ice can be treacherous

Ice is a major source of winter recreation. Skating, sledding, fishing, and just plain tomfoolery are commonplace activities on frozen farm ponds, small lakes and streams. But ice can be treacherous and care must be taken to select ice strong

enough to support such activities. Ice strength depends on thickness, daily temperature, snow cover, depth of water under the ice, and local factors of water fluctuations and currents. Falls through ice often result in drownings and always result in lots of misery.

If you fall through ice, the initial shock will probably take your breath away, but you must force yourself to remain calm, says the Ontario Safety League. Extend your arms over the edge of the ice. Getting a grip may be difficult with numb fingers, so use a sharp object such as a knife, belt buckle, or even car keys to help you. Pull yourself up and kick your feet hard. Roll away from the break. Don't stand up until you are well away from the hole.

In attempting to rescue someone, don't walk right up to the break because you could very quickly join the victim in the chilly water. Approach it carefully and slowly. Lie flat to distribute your weight over the ice. If possible, use a reaching aid such as a board, tree branch, rope, pole, sled, long scarf or jacket. This will keep you back from the weak ice surrounding the break. If others are available, you could form a human chain with each person lying flat on the ice holding the heels of the person in front of him or her.

Keep the victim warm and seek immediate medical attention.

## Financial support from council

TORONTO - The du Maurier Council for the Performing Arts has announced that applications are still being accepted from Canadian performing arts companies wishing to apply for financial support during the 1977-78 performing season.

The second week in February has been set as the deadline for receipt of applications from organizations which have been in operation for more than two years. Briefs outlining the proposed project for which a du Maurier grant is requested should be sent to The Executive Director, du Maurier Council for the Performing Arts, 3810 St. Antoine Street, Montreal.

## Writing contest for high school

The journalism department at Loyalist College in Belleville has announced the establishment of a journalism writing contest for grade 12 and grade 13 high school students. Prizes include cash, plus guaranteed publication of the best articles in area newspapers.

High school students wishing to enter the contest must write an article suitable for publication by a newspaper, no less than 500 words in length, no more than 800 words. Deadline for receipt of the articles

at Loyalist College is Fri., March 18, 1977.

The subject of the submitted article can be anything that would be considered appropriate for publication in the applicant's local paper. It should preferably involve the student in interviewing as well as writing. Some suggested subjects are: (1) Profile of a well known local person; (2) Interview with an elderly person about the early days of the community; (3) Report on a sports event, e.g. winter carnival; (4) Report on a local industry.

# Arthritis sufferers most exploited of the sick

Arthritis sufferers are frequently referred to as the most exploited of all sick people, reports The Arthritis Society.

"Because arthritis is a chronic disease which waxes and wanes with intermittent periods or remission, and one for which there is no cure, arthritis lends itself to the deception of quacks," the Society points out. "Quackery thrives on ignorance and fear."

Frauds and rackets robbed arthritis sufferers in Canada of nearly \$50 million last year alone. Much of this money was spent by sufferers of rheumatoid arthritis, the most common and serious form of the disease. While long-term medical treatment can control the pain and help prevent disability due to rheumatoid arthritis, investigators have not yet found the cure.

"It is natural for people with a chronic painful disease to clutch at anything that might offer them hope of relief. In the absence of a cure people are apt to turn to quackery which prays on the natural

inclination of people to want to get well," says the Society. And quacks are only too ready to exchange their dollars for worthless "cures". The quack is interested in money, not disease.

Wearing copper bracelets or gold coins, using vibrators, and other mechanical or electronic devices are among the most popular gadgets offered to arthritis sufferers. Many are also taken in by the promises that special diets or health foods, such as eating garlic or taking alfalfa tablets, will help their arthritis. This directly contradicts medical research proving that foods play no role in causing arthritis and that foods cannot possibly cure the disease.

Sometimes, "cures" are offered by well-meaning friends and relatives whose ideas are based on traditional folklore. Carrying buckeyes, potatoes, horse chestnuts, and ingesting certain elixirs are examples of such quackery.

But more often these phoney nostrums - as well as more modern ones such as

"moondust" - are marketed by quacks who know full well that their products or treatments are useless. They count on gullibility and desperation of those in pain for their profit.

"Another factor which helps the quack survive is the unique nature of the disease," according to the Society. "The painful symptoms of rheumatoid arthritis may suddenly vanish for days, weeks, or months. So the quack knows that the disease may possibly seem to disappear whatever he does for the victim. He can then claim the 'cure' was due to his product."

While most of the "remedies" may be harmless, the Society warns that using them may be dangerous in the long-run if

the patient does not receive proper treatment before irreversible damage is done to the joints.

The Society stresses that early diagnosis and prompt treatment by a qualified physician can prevent disability in a majority of patients and emphasized that research to find a real cure for the disease is under way. Until a cure is found, The Arthritis Society warns against believing any one who claims to have a cure for the disease.

"Yet, for every dollar spent by responsible organizations this year in legitimate research for the cause and cure of arthritis, more than \$25 will be spent on useless quack remedies," said a Society spokesman.

## Umbrella plant indoors

The Schefflera, or umbrella plant, which used to be seen only in hotel lobbies and large exhibition halls is now becoming a popular houseplant.

R.A. Fleming, Ontario Ministry of Agriculture and Food horticulturist, says Schefflera will grow from eight to 10 feet in height with good indoor conditions.

Also known as the octopus plant, Schefflera features a five-leaflet leaf to give full, dark green foliage.

The plant should be kept in a cool, dry place from late November until early March. It does not require a great deal of

light during the winter unless new growth is desired.

Schefflera will grow well in a moderately-lighted hallway. Despite its size, a large container is not necessary. Mr. Fleming suggests a 12 to 15 inch container for a plant up to five feet.

If the plant does require potting, Mr. Fleming advises taking the plant out of the pot, pruning the roots, and repotting into the same container instead of using a larger one.

# Secondary schools doing good job after all

Ontario government-sponsored research studies released last week showed that Ontario's secondary schools are doing a better job than they are generally given credit for and that the universities and community colleges are highly rated by students, teachers and the general public.

The four volumes of research, commissioned by the Ministry of Education

## Something for cats

The Co-Op people have something new for kitty cats and kitty owners: the purr-fect solution to kitty's need for indoor bathroom facilities.

It's a low cost product, free of odor, dust and kitty's allergy problems. They call it Co-Op Cat Box Filler, but that does not mean 'fill the box'. In fact, it's so absorbent that you need only put in half the usual amount of kitty litter.

For those who haven't been able to teach Felix or Tabby to use a flush toilet, don't worry about it; because this new product has several other uses which make it handy to have around. For example, it's great stuff for cleaning up greasy spots and spills on garage or basement floors; or just put some in the garbage pail to absorb odors and moisture.

The new Co-Op has a clean aroma, and, joy of joys, it can be simply flushed out the toilet! And kitty won't be sneezing from clay dust and chlorophyll; in fact, he (or she) will be purring!! There's no staining on rugs, either, if kitty happens to 'track' some into the living room.

And come spring time, kitty cat may prefer this 'very modern product for indoor facilities' to digging holes in your flower beds!!

and the Ministry of Colleges and Universities, included a public opinion survey on the effectiveness of the secondary schools and the colleges and universities, the level of achievement of senior secondary school students, the course content of the two senior years of secondary school and the first two years of college and university programs, and an analysis of the finds of the three.

Education Minister Thomas Wells and College and Universities Minister Harry Parrott said the research results will be distributed to all members of the educational community for comment and recommendations.

Mr. Wells said that the "exaggerated charges of illiteracy" among secondary

school students are not borne out by the studies. With respect to the strengths and weaknesses of the secondary school system the report contained few surprises for the Ministry of Education. In fact the Ministry, through the introduction of a mandatory core of basic subjects and the formation of a work group to study better methods of pupil evaluation and testing, has already responded to some of the questions raised in the studies, Mr. Wells said.

Colleges and Universities Minister Harry Parrott said that he was pleased to note that both the public and students felt that the quality of post secondary education was good. The studies raised some areas of concern for his ministry he said.

Of concern to both Ministers was some evidence of inflated grades in both secondary schools and universities and a variation in marking standards among secondary schools and among universities.

Dr. Parrott said there was also some evidence of the same material being taught at both the secondary and post secondary levels.

On the question of admission of students to university, Dr. Parrott said his Ministry had been assisting the universities for the last two years in financing an experimental testing program. He emphasized that the universities are responsible for admissions and that if admission test are introduced, it will be at the initiative of the universities, not of the government.

## Public discusses proposed site

More than four hundred people attended a public meeting last Wednesday night, February 2, called to discuss the possible dumping of nuclear waste by Atomic Energy of Canada Limited (AECL) in the Mount Moira region north of Madoc. The meeting, which was held at the Kiwanis Centre in Madoc, was chaired by Bob Bancroft of Madoc.

During the course of the evening fourteen residents of the area addressed the audience. The main theme expressed by these speakers was one of concern for the environmental damage which could result from accidental spillage of nuclear waste material into the extensive watershed area near the proposed dump site.

Ron Vostokas gave a brief history of the actions taken to date by AECL in coming to select the Hastings county region as one of six possible sites for the nuclear dump. He also read from various publications concerning the viability of using subterranean storage of nuclear waste, and emphasized that should a leak in the storage facilities occur, it would mean the ruination of the tourist trade in the area and would cause a major health threat to the entire region. He summed up his address by posing the question: "the issue before us is not only is it (the storage site) safe, but do we want it?"

Clarke Rollins, the Provincial M.P.P. for Hastings-Peterborough, pointed out to the meeting that the land which the A.E.C.L. is proposing as a possible site for the nuclear waste dump is on provincial crown land. He emphasized what he felt was a need to be united in strength against attempts by the federal government to "try to buy the people acceptance" in the

matter, and he pledged his continued efforts to oppose the proposed site in Hastings County.

Dave Hobson, the Liberal Candidate for Hastings-Peterborough saw no real benefits accruing to the area if the project went ahead. Instead, he saw a diminution in the tourist trade for the area, the cutting off of possible mineral exploration - due to the inherent dangers of underground blasting, dangers in the fact that approximately one truckload of nuclear waste would have to travel the local highways per day to bring the waste to the site, and the creation of only one or two janitorial jobs for local residents if the site was located here.

Mr. Hobson went on to say that there is, even now, a threat to the tourist trade, and that real estate values are in jeopardy as a result of the possible location of the dump at Mount Moira. He recounted a conversation which he recently had with a local real estate agent who lost a possible sale amounting to \$200,000 because the prospective buyer was afraid of the possibility of the site being located in the same area as the property he wanted to purchase.

In summing up, Mr. Hobson stated that "the province could refuse to sell the crown land to the A.E.C.L.", and thereby effectively stop the project.

The New Democratic Party representative for the area, Elmer Buchanan gave statistics relating to the incidence of death among people working with uranium to explain that if a leak occurred at the proposed site the people would face a very real danger. He felt that it was "time we stopped thinking of jobs and money, and started thinking of people", in making

decisions relating to the environment.

Among the others to address the meeting was Jennifer Sprague, a student at Central Hastings High School. Miss Sprague, in speaking for those under twenty years of age, emphasized the need to protect the area's resources, which she described as "finite and precious". She went on to say, on the matter of the proposed nuclear waste disposal site "we have no right to subject our environment or people to this." Her final comment, that the people of Hastings county tell the Government of Canada, "Not Candu, Can. Don't" brought strong applause from the audience.

One of the last speakers of the evening was Leo Simpson, a Canadian author who makes his home in the Madoc area. He saw the need for a referendum amongst the people of the Madoc area on whether or not the site should be allowed. He also spoke of the need for the same people who worked to build the new arena for the good of the people of Madoc to come forward and work equally hard in opposing the waste site, which he felt would more than erase the benefits arising from the new arena.

Mr. Simpson, in talking about the meeting scheduled for March 16 during which Federal representatives will meet with the people of the area to discuss the nuclear waste disposal site, called for a strong voice by the local people to oppose the arguments which he felt the government would use in trying to support the proposed site. He did not see any need for such a meeting to explain the dangers of the project, for as he said: "I don't want to have dangers explained to me, I'd just as soon not have the garbage."

Following the fourteen scheduled speeches on the subject of the proposed waste site, an opportunity was given for those in the audience to address the meeting. Among the seven people who rose to speak was a man from Port Hope, Ontario, Mr. John Veldhuis, who warned the people of Madoc to beware of the promises made by the A.E.C.L., as well as the Atomic Energy Control Board, which is set up to interface with the public on matters relating to atomic energy in Canada. He spoke of the experiences which the people in Port Hope encountered when it was found that some of their homes were contaminated by radon gas which was leaking from nuclear waste used as land fill in the area some twenty years ago. He said that he felt that "Gillespie and his group" (in reference to the Honorable Allister Gillespie, Minister responsible for Atomic Energy of Canada Ltd., as well as the Atomic Energy Control Board) would promise anything to gain the acceptance of the local population, but would then not act in accordance with those promises.

The meeting wound up with an appeal by Craig Shank, a local high school teacher, that the people support the ongoing resistance to the proposed situation of the nuclear waste dump in the Madoc area. He described how a committee would be set up to organize the people's response to the Federal representatives when they come to meet with area residents on March 16.

Following the meeting a film, "More Nuclear Power Stations", was shown. It described the problems which have been encountered by some European countries in underground disposal of nuclear waste.

## Senior Citizens Club 473 holds meeting

By MRS. WALTER WANNAMAKER  
The Sr. Citizens Club 473 met Feb. 2 at 2 o'clock in the church parlour with 42 members present. The president, Mrs. Grace O'Rourke, welcomed all, then asked about the sick members. We are sorry to hear that Mrs. Mel Johnson is in intensive care.

The meeting opened with "The Lord's Prayer" repeated in unison. A poem "Down on the farm - real down", was read by Mrs. O'Rourke.

The Sr. Citizens will have a bake table of home cooking and a white elephant table at the Madoc Carnival the 12th of February. It will start at 1 o'clock at the Kiwanis

Centre, with the men working the first hour.

The meeting closed with God Save the Queen, with Mrs. Emma Reid at the piano. The hostesses for the next meeting, the 16th of Feb. are as follows: Miss Ada Adams; Mrs. Gladys Bandy; Mrs. Frankie Donaldson; Mrs. Elizabeth Empey; Mrs.

Emma Reid; Mrs. Hilda Declair; Mrs. Frankie Cassidy; Mrs. Evelyn Rollins.

The door prize was won by Mrs. Emma Reid. The remainder of the afternoon was spend playing games. Lunch and a social half hour was enjoyed by all.

## The Way I See It

By Vincent Durant

### LET'S NOT KID OURSELVES

During last Wednesday night's meeting, which dealt with the proposed nuclear waste site for the Madoc area, I heard comments such as: "the Ontario Government could stop it by refusing to sell the crown land to the Federal Government," or, "Ontario Hydro could refuse to co-operate with Atomic Energy of Canada Ltd., and thereby negate their attempts to put the site in this area." As well meant and sincere as were these comments, and others like them, the fact remains that the Ontario Government, along with Ontario Hydro, is hand-in-glove with the A.E.C.L. in matters relating to the development of nuclear energy in Canada.

One has only to read the Report of the Auditor General of Canada to the House of Commons for the year ended March 31, 1976 to learn of the long-standing relationship between the Federal and Provincial governments when it comes to matters of nuclear energy. That report, in giving background to the development of AECL, states: "Atomic Energy of Canada Limited began as a relatively modest nuclear research and development activity, largely funded by government (federal) appropriations. In the mid 1960's, annual expenditures were about \$70 million with principal activities at its primary research site in Chalk River and the construction of a prototype nuclear power station at Douglas Point."

The Report then goes on to talk of the growth of AECL and the involvement which the Ontario government has had in that growth: "As the potential for nuclear power as an energy source in the production of electricity grew so too did the interest of Ontario's major electric utility.

Atomic Energy of Canada acting as a nuclear engineering consultant, together with Ontario Hydro as its principal client, worked closely, as they do today, in the design and development of nuclear power plants."

The Auditor General then speaks of the cost-sharing arrangement between AECL and Ontario Hydro, whereby Ontario Hydro would only have to pay for direct costs on work done for them by AECL, with the overhead and indirect costs (which would normally be paid by the party having the work done; i.e. Ontario Hydro) being borne by AECL.

It may be possible that the Ontario Government and Ontario Hydro will see reason to torpedo the wishes of Atomic Energy of Canada Limited, despite the close connections which they have enjoyed in the past and which continue in the present. However, I feel that the people of this area should be adequately apprised of the political pressures inherent in any such move on the part of the provincial government or its crown agency.

So, let's not kid ourselves! What the people of this area are dealing with is a highly political situation involving on the one hand a federal Crown Corporation which has grown, in sixteen years, from having expenditures of seventy million to over four hundred million dollars; with assets of over one billion dollars; and on the other hand the Ontario Government, which is completely committed to the development of nuclear energy and the subsequent waste disposal which goes along with that development. Keeping this in mind may not resolve the problem for the people of Madoc, but at least it will keep them in the ball park when the game is played on March 16.

## Letters to the editor

Dear Sir:

I would like to comment on the recent meeting in Madoc concerning the proposal of a nuclear waste dump at Mount Moriah near Cooper, Ontario.

All who spoke were very sincere and, as one speaker stated, it is not just a local problem but a world problem and in my opinion a Universal problem. Earth is a planet within a solar system as inter-dependent as all the cells are in a human body system. Disposal of nuclear wastes not only have the potential to destroy physical life on earth, includes the added danger of littering the Universal landscape as well, which will inadvertently affect earth over a period of time.

But the nuclear waste question is only another manifestation of the real problem. Every action man does has a corresponding reaction on himself, his neighbour and the environment. We are in the process of reaping terrible consequences where man, lacking in empathy, makes decisions adversely affecting all life on the planet. Many of these decisions have upset the fragile balance of nature, killing off species and polluting our soil through the over-use of chemicals. A recent problem too is allowing sub-standard rules for ships hauling oil, thus causing spills that are

literally turning our seas to blood as fish, mammals and birds perish. The excess underground nuclear explosion tests could have as much to do with earthquakes as mother nature herself. And speaking of the old girl, we would be wise to note that she has her own forms of "kickback", and judging from the recent weather reports, she is in the process of paying them back.

After watching the film at the meeting on Nuclear Power Plants it seems to me we are trying to deal with the horse after it's already escaped from the barn. Sure, we can move the dump elsewhere, to someone else's back door, but the inevitable is just a matter of time. Man's technology has created a substance, plutonium, that is contrary to the existence of physical life as we know it. He just keeps passing it around like a hot potato, except this potato remains hot for a quarter million years! We, the people of earth, need a miracle. As one man at the meeting said, "Let's take it above politics". I agree. A long time ago a man called Abraham went to Mount Moriah with a cause he believed was Right. Because of his sincerity and his passion that was followed by action, he experienced a miracle through Divine Intervention.

To me the Mount Moriah of the Madoc

area, is a symbol for our time. If we the people have enough sincerity and passion to care about all life on the planet and speak and act collectively towards spiritual and physical evolution, we too can be as fortunate as the "fathers of old" in gaining help from the "miracle department". And the only Being I know that takes care of that department is "I AM" - Master of the Universe.

Sincerely,

Norma Hunt - Lyonnais  
 R.R.3  
 Tweed, Ontario

Dear Sir:

After reading that Mr. Lome Gray openly admitted he had no desire to know who had received millions of dollars of taxpayers money, or what services the money changed hands for, I can only hope that his further statement that "Sales abroad of Canadian nuclear reactors are finished" holds some truth. It is remarkable that the president (at the time) of a Crown corporation dealing in billions of dollars can have such a criminal outlook of government business and not end in jail.

Having touched on the lack of honesty in the financial sector of A.E.C.L. one can only assume some dubiousness at its P.R.O. releases including those referring to dump sites scattered around Canada's rural communities, providing copious quantities of lethal pollution for thousands of years. Needless to say, those responsible will not be here to reap the benefits of this program.

No one can deny an energy crisis, that is to say at the present rate the same corporate institutions waste and squander our resources we have insufficient to heat our homes, (thermostats in offices and government buildings seldom if ever get turned down, likewise air conditioners in the summer, the recent spate of flights in government aircraft by cabinet ministers when there are seats already paid for on commercial crafts; office and ministry towers lit day and night whether used or not). This paper has insufficient pages to list all the obvious abuses.

I note one glowing example on the horizon in the P.E.I. energy problem, they did not for whatever reason fall victim to the A.E.C.L., and instead show many promising, examples of alternate non-polluting energy sources in different types of wind and solar power. One omission being wave power used by the Dutch for years and now being built on the coast of Britain.

I suspect agitation in the board rooms over these alternate forms of energy, for corporate control has its difficulties when a household or town could set up a windmill, or solar cells etc; their continuous flow of revenues is in jeopardy. I believe it is for this reason that a token fraction of the billions spent on nuclear development and oil exploration has been diverted to more deserving renewable non polluting projects.

One last item the lack of any reference in the Tudor Cashel township minutes to this horrendous hazard on our boundaries possibly reflects the feelings of many taxpayers who, having been run over roughshod by big business and big government for so long, expect the worst regardless how strong or how long the opposition. Maybe this letter along with others will prompt a succession of mail to MP's and MPP's to let them know!

Yours, Paul Whittaker.

To the Editor:

There is a solution to the dumping of nuclear wastes in this area. Practically speaking, it is a simple solution requiring little outside influence. It's a permanent solution which is quite simply that we begin to take our own responsibility for our actions and for the actions of the politicians that we collectively place in office. The method used to solve this problem is to look at ourselves and question why we continue to blame others for our own choices of action in this world that we create around us. Look at the Scenario:

Our heroes are those who, motivated by greed, chase the golden calf most efficiently and "economically"; those who have created God in their own image and have taken that image into their churches once a week and have taken that image into their hearts; those who have become so pessimistic, so negative towards life, that they cannot see any other alternative to life but to continue to devour and destroy. But we are indeed part of that play. We have passed our personal responsibility into the hands of the few who have promised us petty jobs, as if jobs were the motivating factor of the universe. We have substituted "right employment", a harmonious activity which serves as food for the soul" for day to day servitude, serfdom, drudgery, and exploitation. We have done this. We have erected an idol of technology which, accompanied by another idol - money - promises more comfort, more satisfaction, more external exploitation, yet brings little

internal gratification of our greater sense of Universe, pouring into our society more intense criminality, mental illness, physical and bodily degradation, destitution and despair. We have done this, not the pornographers. We have done this through our own choices. We have screamed obscenities at those symbols we have chosen to represent our fears, yet refuse to turn out our lights, continue to support the greedy, continue to consume packaged garbage which is sold as food, continue to offer our children the same dead-end pursuits that we ourselves choose to represent our reality.

It is our own choice. We do not only write the script, but we direct it and act in it as well. But the solution is in hand: if we have written the script, then we can re-write it as well. Rather than continue to alienate ourselves from our true nature of living harmoniously within the Universe we can re-establish our dignity in a quiet yet active fashion. We can begin to observe those basic laws of nature once again. We can get a grip on ourselves, stop whining about all that displeases us, begin to act in a positive way. It doesn't happen out there - it starts inside our hearts and minds. It is not one politician or another that is to blame, not one system as opposed to another, for we are that system, any system. We can begin to develop the Kingdom within, and there isn't much difficulty in that, for that Kingdom already exists. All we need to do is to allow it to emerge, for, as it says in Genesis, I 26, "Let us make man in our own image, in the likeness of ourselves..." and, in the second account of Creation, Genesis 2:6, "...God fashioned man of dust from the soil, then he breathed into his nostrils a breath of life..." So, you see, we have an advantage. We are both spirit and matter. We have unfettered dominion over our own actions and therefore are not victims of anything outside our own choices. We can alter our progression towards our material destruction. All we need to do is act. All we need to do is stand up and quietly say to those around us, "No, I will not aid those forces of despair any longer, for I myself have helped to create them." And, if we want to, we can quote one basic law of physics: for every action there is an equal and an opposite reaction. This means, I suppose, that both positive and negative actions are taken into consideration. It seems to me, being one of the actors, that it is high time that we got our mutual act together.

Richard Pierce  
 RRS, Madoc

Dear Sir:

In reply to Mr. Jack Ellis' letter in the Madoc Review last Wednesday, Feb. 2, regarding nuclear disposal.

Mr. Ellis states that "The type of waste that is being discussed is not the type of waste that has caused the problem.... in Elliott Lake, Port Hope, Deloro." That is true since the type of waste that we are confronted with is much more potentially hazardous than the Port Hope-Deloro problem. The waste that we are confronted with, to date, has no proven safe method of disposal, only experimental theories.

Mr. Ellis goes on to say that the reactor waste "is very short lived and usually is destroyed or stored on the site". Radioactivity emitted from a product cannot be destroyed. It has to decay on its own time. Each fission product, emitting radiation, have their own distinctive decay and half-life. The half-life of these products range from a few seconds (short lived) to many decades (long lived).

Without getting into extensive technical detail it is sufficient to say that:

1. A product still emits radiation at the end of its half-life.  
 2. The reason we speak of half-lives is that a radioactive product emits radiation forever and therefore we cannot speak of a total life. However there comes a point in time when the emitted radiation is considered safe.

3. In this area we are confronted with the long lived radiation (ie.) considered safe after 250,000 years.

Mr. Ellis goes on to say that the volume we are dealing with is small. There is absolutely no connection with the volume of the waste and the potential hazard.

Next Mr. Ellis states "in Canada we have a great deal of hard rock (granite to be exact) which will provide adequate storage for the many thousands of years that this substance has to be stored". According to the AECL this method of storage had not been proven and would in fact be an experiment. Other countries are investigating plutons. Sweden and Germany think that the results to date on pluton storage is not encouraging and are not convinced it warrants further investigation.

Mr. Ellis then refers to a study that investigated 200 sites and ultimately narrowed down to 13. There are many criteria, technical and economic, to consider in the selection. One of the criteria used is "sparsely populated". So I suppose that we are considered "sparse"

See 'Letters' Page 5

They're a pain in the eye and the pocketbook -- rusting hulks are being put to good use in Environment Ontario's derelict vehicle recovery program. Each year, in co-operation with more than 30 municipalities, more than 5,000 are brought to Ontario sites like this one in Sault Ste Marie destined for reclamation. Getting on top of the problem here are Ed Bil, right, from the Ministry's Sault Ste. Marie district office explaining licensing stipulations to site owner G.A. Campbell.

## Winter has its hazards

There's no need to remind you to dress properly for both the temperature and the activity. But you'd be surprised how many people don't - or fail to anticipate a change in conditions. In many areas, frigid winds or precipitation can blow up suddenly. Do make sure children are properly dressed when they go out to play. If you are planning an outing, pay attention to the weather forecast. The wind-chill index is probably a better guide to what to wear than the temperature alone. If you are going away from home, taking along extra clothing just in case there's a change in the weather. New fabrics have made it possible to be warm without the agility - hampering weight of clothing we used to have to put up with. This is a real asset to both the fun and safety of active children and winter sports enthusiasts.

The Ontario Safety League reminds you that winter recreation equipment must be of good quality and properly maintained. Equipment such as skis and skates must fit correctly.

Never wear any but correctly fitted skates. Kids sometimes put on skates belonging to bigger children and perhaps end up with unnecessary falls and maybe twisted ankles. Don't skate by yourself. Watch where you are going to avoid other skaters, obstacles, and thin ice. Don't try fancy stuff or speed skating unless you are an accomplished skater and the ice is not crowded and clear of debris, rocks and logs.

Sledding and tobogganning should be done in places free from stumps, rocks, trees and other obstructions and away from road traffic. Check out equipment for cracked or broken runners and other defects. Never let kids hook onto the back of a vehicle for a fast ride. Keep enough distance between sleds and toboggans to avoid collisions.

Above all, warns the Ontario Safety League, small children should be supervised by an adult when tobogganning or skating.

## Marmora Juveniles defeat Madoc 7-5

Playing before a full house here on Saturday, the Marmora Juveniles defeated the Madoc Juveniles 8-6 to even the best of five series at one games each. On Tuesday the Madoc Juveniles won 7-5 in Madoc.

Marmora jumped into a 3-0 first period lead on goals by Chris Doyle, assisted by Randy Trumble and Barry Bell. Trumble on a pass from Justin Hanley and Carey Johnson assisted by Mark Hanley made it 3-0 for Marmora after one period of play.

Early in the second period Madoc scored two goals with Dean Lough scoring an unassisted goal. Then Tim McCann, assisted by Wayne Willemsen and Rick Brown made it 3-2. But Johnson with his second goal from Hanley and Kim Hughes made it 4-2, and Tim Fox scored a fluky goal to make it 5-2 after two. Chris Doyle picked up the assist on the Fox goal.

Rick Brown made it 5-3, but Fox with his

second goal of the night made it 6-3 for Marmora.

Less than a minute later Tom Sutton from Glenn Brown and Terry Snider made it 6-4. Andy Roy scored the next goal making 6-5, but Justin Hanley restored Marmora's two goal lead.

Madoc was not finished yet. Andy Roy scored his second goal of the game to make it 7-6. Then Madoc pulled the goalie but a Steve Lawrence shot deflected off Glenn Brown's stick to make the final 8-6 for Marmora.

Juvenile Jive: Madoc's inability to score on the power play cost them the game. They were caught twice on power play's and it cost them, with Randy Trumble and Tim Fox each scoring short handed markers. Game four will be played in Madoc Thursday night.

## Seventeen accidents total \$36,750 in property damage

During the past week, officers from the Madoc Detachment investigated seventeen accidents. Four persons were charged and three persons were injured. Total amount of damage was \$36,750.00.

There were four reports of break, enter and theft.

Four thefts were investigated during the past week.

Five persons were reported missing but have been located.

There was one complaint of assault. One report of a disturbance in the Marmora area.

There were two persons charged with have liquor under the Liquor Control Act. Four persons were charged with impaired driving.

There were approximately 38 other occurrences investigated such as: lost driver's licence, abandoned vehicles; suspicious vehicles and lost markers.

Dennis Beech, Proprietor

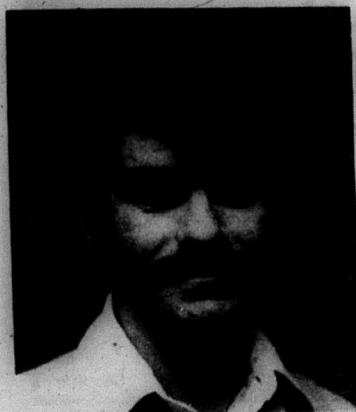

and potentially "expendable".  
The safety aspects are considered next. That explanation of safety shows one how uncertain they are in handling this material by shipping in 20 ton lead-steel-concrete containers, and therefore the potential hazard. Keep in mind the radioactive material is removed from these shipping containers for the storage.

In conclusion I would like to point out that the Nuclear Generation of Power, in the world today, is having a difficult time to keep its costs to a minimum and therefore economically competitive. Any plutonic rock structure that would be central, close and convenient would reduce transportation costs. That's small potatoes when one considers the long term implications.

Sincerely,  
M.C. Dennis, B.A.Sc., P.Eng.,

## Local firm expands into Toronto area

The Eldorado Cheese and Butter Co-op is expanding. Beginning today, they will be retailing their cheddar cheese in the Toronto area through a sales outlet in Whitby. This marks the first expansion outside this region for the twenty-seven year old cooperative.

### Started in 1950

The Eldorado Cheese and Butter Co-op was organized in 1950 when four individual cheese factories united to gain the economies of size which would accrue through amalgamation. In those early days the farmers sold their milk to the co-op, which in turn produced and retailed the cheese.

Now, however, the Milk Marketing Board of Ontario buys the milk from the farmers, and then sells it to the Eldorado Co-Op for processing into cheese. The co-op then sells seventy-five per cent of the

cheese back to the Milk Marketing Board for distribution. The other twenty-five per cent of the cheese is sold directly to the public by co-operative. Besides the retail outlet at the factory and the new store opening in Whitby, the co-op sells its cheese in Kaladar and Bowe Lake.

### Over one million pounds produced

Each year, one and a half million pounds of cheddar cheese is produced by the Eldorado Cheese and Butter Co-op. Cheddar is the only type of cheese they produce, and it is available in new, medium and old grades.

Francis and Kathleen Tobin operate the retail outlet at the factory in Eldorado, and their daughter Agnes will operate the new store in Whitby. Mr. Tobin is also the secretary-treasurer of the Eldorado Co-operative.

The factory in Eldorado has a full-time

In the above photo Mrs. Francis Tobin (left), Mr. Tobin, and Mrs. Mel Johnson stand behind the counter at the cheese

shop located on the premises of the Eldorado Cheese and Butter Co-operative.

Judy Smith, part-time cheese cutter at the Eldorado Cheese and Butter Co-operative is shown here sealing the cut cheese in plastic. The cheese will then be sold in one of the four retail outlets handling the co-op's products.

staff of three; Paul Smith (plant manager), Robert Boyle and Morris Hale. In addition to the three full-time employees, Mr. Smith's wife Judy works part-time as a cheese cutter. Mr. Smith recently took over from the retiring plant manager, Mr. Ivan

Sine, who had held the position for more than twenty-five years. During the summer, when production is at its peak because of the popularity of the cheese

among the numerous tourists who visit the region, more part-time help is hired by the factory.

Kenneth Peacock Jr. of Toronto spent the weekend with his parents Ken and Kay Peacock the past weekend.

Diane Falladown of Burlington spent Sunday visiting her parents Mr. and Mrs. Wray Falladown.

Mr. and Mrs. Dan Jones and Mr. and Mrs. Gardener Stevenson arrived home on Sunday after a two week vacation in Florida, spending time at Hollywood Beach, Disney World and other points of interest.

Douglas and Katrina McKinnon spent Friday night with Mrs. Leroy Rollins at Ivanhoe.

Sunday visitors at the home of Mr. and Mrs. Gordon Chapman were Mr. and Mrs. Ted Fox, Jill, Cindy and Greg, Terrior of Marmora. Also, Mr. and Mrs. Lloyd Sedore, Kevin, Kim and Kelly of Springbrook.

Final arrangements are being made to start the Madoc Winter Carnival off on the right foot.

The Rev. Dr. and Mrs. Peter Newberry and family of Carlisle, Ontario, spent the weekend recently at the home of Mrs. Newberry's sister and family Elvie and Roy Brownson, while there they spent some time doing some cross country skiing which they enjoyed very much. Rev. Newberry is a United Church Minister as well as a graduate medical doctor in May of last year, he is now serving his internship in Hamilton, Ontario.

Jan. 13 at the regular meeting of the Oakdale Rebekah Lodge 134 Madoc, the draw for the handmade quilt was made. The winner was Miss Brenda Keller, Niagara Falls, granddaughter of Mrs. Edith Keller RRS, Madoc.

Mr. and Mrs. Doug Broadworth of Bancroft accompanied by Mrs. Nina Storrington are spending the next two weeks in Arizona.

Mr. and Mrs. Joe Rollins of Thomasburgh and family called on Mr. Leroy Rollins at Madoc Manor on Sunday.

## Campkins' Camp Inn goes to the dogs

Campkins' Camp Inn is going to the dogs, during the Madoc Winter Carnival, that is!

The 350 acre trailer camp with its 75 acre private lake (Bass Lake) is an ideal area for the Siberian Husky dog sled races, and the course has been charted through the snowy trails by Jamie Campkin and race co-ordinator Bob Burrell.

Many of the drivers and their families will bunk in the recreation hall at Campkins' during the Carnival weekend, and meals will be supplied in the camp's restaurant.

Spectators will be able to park along the roads in the trailer park and have a good view of the races. The restaurant will be

open to the public for hot drinks and snacks, and there is a full set of washrooms.

Campkins' Camp Inn, located on the Quin-Mo-Lac road, about 2 1/2 miles south of Madoc (Hwy. 62) is operated by Jamie and Betty Campkin; son Scott; and son Steve with wife Eileen.

They have formerly opened the camp in winter to cross-country skiing and snowmobile races, but the Husky dog sled races are a first at the private camp.

During the summer months Campkins' Camp Inn operates as a campground. Started four years ago, the Camp Inn can accommodate up to 150 tents and trailers.

## Erratum

Through an error in the last issue of the Madoc Review, the group playing at the Cooper Winter Carnival was listed as "Clarence Fobert and the Sounds of

Tyme". In fact, the music at the carnival was supplied by a disc jockey. We apologize for any inconvenience this error may have caused our readers.

## ONTARIO GOVERNMENT TENDER

Services

## Plans finalized for opening of Community Centre

Plans have been finalized for the official opening of the Madoc District Community Centre to be held in conjunction with the Winter Carnival on Fri., Feb. 11. Clarke Rollins, our local MLA will officially open the new centre.

The feature figure skating attraction will be in the Minto Skating Club of Ottawa, considered to be the leading amateur skating club in Canada.

Their members have recently competed in the Canadian Figure Skating Championships in Calgary. Lynn Nightengale, the current ladies senior champion is a member of this club. Kim Alletson who placed third at Calgary in the All Canadian Amateur Championships last week will be the featured skater of the evening.

Our local skating club will also participate in the program. The 87 members of this active group look forward to more programs of this nature in the new centre.

The tiny tot hockey players of the area will stage a short exhibition game.

A committee has invited over 50 former Madoc area hockey players to attend the opening function. Some of these attending will be: Mel Caverley, Cam Wallbridge (1930 era); Percy Embury (1940's); John Hewgill (1950's). John Hewgill coached the Madoc team in 1952-53. John is coming from Montreal for the festivities. Jack Baker, former Madocer and booster of Madoc will speak on behalf of the oldtimers.

The opening ceremonies will begin at 8:15 p.m. following the Carnival parade. After the program everyone is invited to attend the carnival dance in the Kiwanis Centre. For those not planning to dance, bring your skates and try out the new ice surface.

It takes a unique type of versatility to type illegibly — and we know just the gal who can do it.

## MADOC AGRICULTURAL SOCIETY ANNUAL MEETING

at Council Chambers, Madoc, Ont.

Secretary

## Beautena Loves New Purina Calf Growena

PURINA CHOWS

Beautena, our bouncing baby calf, is growing like a weed. Looks like she'll be a big, growthy heifer. Should weigh enough to breed before she's 15 months old.

Beautena started fast on Purina Nursing Chow and Purina Calf Startena. She hasn't received a drop of whole milk since arriving at our store when four days old. Now she's celebrating her two month birthday by switching to new Purina Calf Growena.

Purina Calf Growena is a great, new, economical growing ration that calves love. It's high in protein (16 per cent) and packed with body building vitamins and minerals.

Follow the Purina Calf Program. Watch your calves grow fast like Beautena.

	Total Feed cost to date	Gain to date	Feed cost per lb. of gain	Lbs. Feed per lb. of gain
Dec 3.	18.10	51lbs.	.35	1.7
Jan. 3	39.21	123 lbs.	.31	1.9
Feb. 3	63.31	213 lbs.	.29	2.2

Proudly displaying their broomball trophies are, left to right: Larry Wood, Bannockburn; Division B runner up;

Doug Gordon, Queensboro, B Champ; Bob Chapman, Canucks, A champs; and Lloyd Watson, Wildcats, A runners up

By CAROL PARANUIK

MADOC - It was a weekend packed full of competition and fun in Cooper on Friday, Saturday and Sunday when they hosted their annual winter carnival at the small community 12 miles north of here.

A country-style supper in the community centre pleased the appetites of all, when the ladies served up hot baked beans, sliced ham, scalloped potatoes, homemade buns and pies. This was the warm-up for the events to come. Skating at the arena afterwards provided a good exercise to wear off the supper. Prizes awarded at the skating party were as follows: Best couple, Brent Baumhour and Debbie Foster; youngest skater, Angela Paraniuk (just under two years old); oldest skater, Art McCann (age not given).

A broomball tournament by area hockey teams took place all day long in the arena on Saturday. The Cooper-Madoc Canucks took the A trophy; the Queensboro team took the B trophy. Runners-up trophies went to the Cooper Wildcats in the A competition and to Bannockburn in the B competition.

That afternoon, all those who preferred to remain indoors participated in a euchre and cribbage tournament in the community centre. Winners were presented with trophies for their efforts. These were as follows: Cribbage winners, 1, Bonnie Parks and Brian Campbell, 2, Lorne Irwin and Gerald Graham. Euchre winners: 1, Glenn Briggs and Bob Watson; 2, Joe Courneyea and Margaret Chapman.

Saturday night a good crowd came out to watch the little Tykes play hockey. Marmora downed the Madoc boys 3-1, taking home a trophy for their efforts. The Madoc team also received a trophy as runners-up.

Ladies broomball exhibition followed the Tykes game, in which the Cooper gals emerged with the trophy after one period of play with the Queensboro team.

Many were without a place to sit during the dance in Lingham Lake Lodge Saturday night, where Robin Stone entertained.

A massive array of snowmobiles emerged on the Cooper Community Centre parking area Sunday morning for the Snowmobile Poker Rally. A total of 89 machines participated in the rally, making stops at various hunting camps enroute. First prize for the best poker hand went to Harry Dennis, who received \$70. Second prize of \$40 went to Dave Gordon and third prize, \$30, went to Gordon Pigden. The draws for the Glass Turkey went to the

following: 1st, Mac Wilson; 2nd, Wayne Arbuckle of Batawa; 3rd, Debbie Meeks of Northbrook.

All in all, a highly successful weekend, with the weatherman providing bright sunny days, only slightly hampered with cold temperatures.

Captain of the Madoc Tykes, three and one half year old Shawn Chapman, accepts the second place trophy after the game.

## Celebrate 56th anniversary

Mr. and Mrs. Arthur Fleming celebrated their 56th wedding anniversary on January

23rd. A lovely smorgasbord supper was enjoyed at the Madoc Hotel. Those present included: Mr. and Mrs. Ken Adams, Danny, Scott, and Shawn; Mr. and Mrs. Jerry Mann and Heather; Mr. and Mrs. Don Fleming and Stephanie; Mr. and Mrs. Jim Fleming; Paul Fleming and Diane. Their grandchildren presented Mr. and Mrs. Fleming with a china horse, and flowers. The family gave them a patchwork chair, 2 wine goblets, and horse book ends.

A provincial grant has been approved under the Conservation Authorities Act in the amount of \$1,131,000.00 to the Moira River Conservation Authority, Clarke Rollins the Hastings-Peterborough MPP announced recently.

The grant will be for final engineering, easements, and construction of the Belleville ice control dams.

# Come to Church this Sunday

The February meeting of St. John the Baptist Anglican Church Women, Madoc, was held at the home of Mrs. Helene Reid on Tues., Feb. 1.

Mrs. Kay Thompson opened the meeting with prayer. A Script on the Ascension of Lent was read by Mrs. Katie Thompson. The secretary Mrs. Barton read some correspondence concerning their foster child and her family. It was discovered she was born April 24, 1970 and her dream is to become a pianist when she grows up. Mrs. Gwen Danford and Lou Philips seconded the motion to send the child \$10.00 for her birthday. Mrs. Annette Taylor, pres., read some cards and letters from Lou Philips and Mrs. Gladys Naylor. A letter was also

read from Mrs. Jean Green of Hastings County concerning the contributions, cards and letters received by the people. Capt. Thompson told the ladies to buy 4 new tables to help with banquets, etc.

The next ACW meeting will be held at Mrs. Gwen Danford's home on March 1.

The men's pancake supper will be held Feb. 22. On Ash Wednesday Holy Communion will be held in the evening after the service everyone will meet in the hall for coffee.

The men's pancake supper will be held Feb. 22. On Ash Wednesday, Holy Communion will be held in the evening. After the service, everyone will meet in the hall for coffee.

# Banker sees modest growth for 1977 Canadian economy

The Canadian economy should continue a modest growth pattern during 1977, according to Rowland C. Frazee, president of the Canadian Bankers' Association (CBA).

He suggests in a year-end forecast that inflation should moderate slightly but that unemployment levels will be a major problem facing the country.

Mr. Frazee, executive vice-president and chief general manager of The Royal Bank of Canada, predicts that gross national product should increase by about four to 4.5 per cent during the year compared to five per cent during 1976.

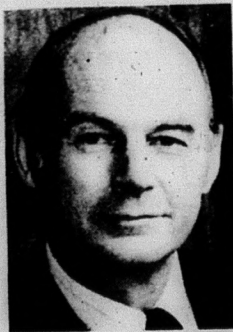

"One of the brighter aspects is the outlook for Canadian exports, especially those to the United States, which should be a major source of economic strength for the year,"

Mr. Frazee says. He also adds that any further economic strength in other foreign markets would benefit Canadian exports.

At home, Mr. Frazee says there are few signs of strength in domestic demand.

"Consumers are responding cautiously to the economic upturn, and coupled with continuing and more stringent income guidelines in 1977, appear reticent to boost expenditures substantially or to support a major increase in imports.

"Housing starts are es-

Rowland C. Frazee

timated at lower levels in 1977 than in 1976. One factor in this lower forecast is the current large

unsold inventory of homes."

The CBA president says there should be some easing of monetary policy during 1977 and that slightly lower interest rates could be in effect during the year.

## Bowling Roundup

Scott Reid was on the beam last week and led the Junior bowlers with a 550 (193) total. Other good scores were by Heather Clark 527 (206) Debbie Perrie 521 (221) Nancy Kirkpatrick 451 (187) Bonnie Perrie 408 (151) Patti Dunford 405 (137) Kevin Lowry 390 (136) Tracey Moriarity 389 (139) Keith Moriarity 382 (146) and Kathy Bronson 371 (140).

Honorable mention in the ten and under group went to Judy Finlay with a 111 single game.

The Sat. morning PeeWees reported in with Shawn Adams showing the way with a neat 135 single and Barbie Stevens breaking the hundred mark for the 3rd week in a row with a 118 game.

The Monday night bowling league results as follows: Bud Monkman led the men to get the high single with 252, the high triple going to Ross Gooderham with 641.

The ladies high single went to Jean Asselstine with 252 and the high triple to Kay Peacock with 595.

Those bowling over 200: Kay Peacock 219, Ken Peacock 203, Joe Mallia 218, Ross Gooderham 226, 203, 212, Marg Ringlemann 225, Jim Pigden 212, Bud Monkman 252, 211, Cathie Oliver 208, Paul Francis 211, Stan Asselstine 202, Jean Asselstine 252, Shirley Donly, 225, Velma Reid 214, Audrey Townson 208. Team standings: Root Bears 74, Alley Kats 69, D-K's 60, Paul Bunyons 59, Nite Tripps 40, Lucky Five 14.

The Tuesday night bowling league results were: Enie Mahoney led the ladies on Tuesday night taking the high single of 219, the high triple of 545 and holding the high average for the women with 172.

Scoring high for the men Robert Taylor took the high single with 298, the high triple of 760, also holding the score for the highest average with 210.

Team standings: Regulars 110, Dusters 67, 762's 63, Sliders 61, Tailenders 45, Baycity Bowlers 32.

Over 200: Stan Freeman 240, Frances Bosley 213, Anita Kehoe 216, Robert Taylor 230, 232, 298, Enie Mahoney 219, 203, Fred Mahoney 204, 211, Kelly Taylor 200, Dave Genereaux 203.

By Bev Browning

Last week I briefly mentioned "Ringette a game exclusively for girls on ice. Two teams of girls ages 11 to 13 years old will be coming to Madoc on Sat., Feb. 19. They will play a game between 1 p.m. and 2 p.m. From 2 p.m. to 3 p.m. they will instruct any girls interested in taking up the sport. All girls and interested parents are invited to attend this session. The girls from Ottawa will also play another game between 7 and 8 p.m. the same Saturday night.

Again I request some help. I need twenty-five girls (I have five already) who would like to entertain a girl from Ottawa between 3 p.m. and 6:30 p.m. This means taking the girl home for supper and returning her to the arena by 6:30. Again, you can give me your name if you can help.

Ringette is similar to hockey in a way but not quite. I have never seen the game played but on reading the rule book and newsletter it looks like a fascinating game. So girls, if you are curious about the game plan on being at the arena at 1 p.m., Sat. Feb. 19. If you can help with the supper bit let me know.

A final note to parents of Saturday morning hockey players: the Madoc crew has been invited to Marmora this Saturday. The boys who are seven and younger play at 10 o'clock while the boys who are over seven play at 11 o'clock. Bantam B's and PeeWee B's sorry but this Saturday is out as far as hockey is concerned.

To the readers who wish I would start writing about other things other than hockey, cheer-up, the hockey season will soon be over. Until next week when I'll have the PeeWee play-off and Bantam tournament results I'll let you "Weight It For Yourself".

The Bantam Tournament held this Saturday in the Madoc and District Recreation Centre will attract teams as far away as Oshawa. Jim Bird, who used to live in Madoc Township coaches the Oshawa Canadiens. Also competing will be teams from Tweed, ZMarmora, Bancroft, Frankford, Belleville, Peterborough and last but not least, Madoc.

The tournament will run from 8:15 a.m. to approximately 7:30 p.m. One admission price will allow you to watch as many of the ten games as you wish.

The schedule for the first four games is as follows:

8:15 a.m. - Marmora vs Tweed  
9:15 a.m. - Bancroft vs Madoc  
10:30 a.m. - Peterborough vs Belleville  
11:30 a.m. - Oshawa vs Frankford

The losers of the first round will enter the consolation series while the winners of the first round will enter Championship series. The consolation final will begin at 5:15 p.m. while the championship final should start at 6:30 p.m.

## Singers

MALACHI CHOIR

MOUNT ZION QUARTET

Shown above are the Mt. Zion Quartet of Gilmour and the Malachi Choir of Peterborough. These two choirs will present a Gospel Sing during the Madoc Winter Carnival.

The Gospel Sing, for which there will be no admission price, will take place Saturday, February 12, at the Centre Hastings Secondary School at eight o'clock in the evening.

I am still looking for two contact men to work with two of our teams entered in the tournament. Goal judges are also needed. If you can give us some help on Saturday please give me a call at 473-2440.

## Cooper-Madoc Canucks defeat BP Oil Kings

MADOC - Playing on home ice before a good crowd, the Cooper-Madoc Canucks downed the Tweed BP Oil Kings, 5-4 Sunday night. Rodney Rollins in the net shut out the Oil Kings for the first two periods, which gave the Canucks a 3-0 lead.

The locals' only goal in the opening period was scored by Bob Chapman, unassisted, at the half-way mark. The first goal of the second period was again at the half-way mark. This was scored by Terry Chapman, assisted by Bob Bancroft. And then two minutes later, Bob Willemsen, whipped one in past Tweed's goalie. James Clark picked up an assist here.

Tweed opened the scoring early in the third period and added three more to take a 4-3 lead before Brian Rollins tied it up on assist by Jerry Chapman and Larry Rollins. Terry Chapman scored the winning goal with four minutes to play left. He was assisted by Bob Chapman and Larry Rollins.

On Thursday night, Feb. 10, the Canucks travel to Brighton for a game at 8:15 and then on Sun., Feb. 13, they play host to Stirling at 8:00 p.m. The players respond to the support of the spectators. So, come out and help them keep their first place in the Trent Valley League.

## Thursday night bowling results

The Thursday night bowling league results are: the ladies high single for the evening was Hilda Anderson with 246. The ladies high triple went to Alice Bernier with 604; Joe Bossio scored high for the men with high single of 297, and high triple of 745.

Scores over 200 were bowled by: John Fewster 201; Ken Adams 229 and 213; Neal Reid 207; Debbie Van Heukelom 221; Joe Bossio 241, 297, 207; Joe Mallia 208, 213, 223; Jim Pigden 211; Hilda Anderson 246; Fred Mahoney 213; Gordon Holmes 216; Dave Forestell 200; Alice Bernier 238; Leon Bernier 231; Ruth Holmes 202; Mary Jo Wannamaker 202; Mable Taplay 205; David Wannamaker 200.

Team standings are: Young at Heart 73; the Go Getters 70; Six Braves 70; Ups and Downs 67; The Monkey's 66; Happy Rollers 53.

## Annual Marmora Women's Bonspiel

By MIKE LABOSSIERE

The Annual Women's Bonspiel, sponsored by Stirling Motors Ltd., proved to be a good day of curling, despite deteriorating ice surface. The first draw started at 9 a.m. and the second at 11:30. Ice conditions were excellent for the start of the first draw, but worsened toward the end of the morning.

Drops of water falling from the roof caused bumps and ripples in the surface, and at one point the curling was halted to resurface the ice. Due to delay the bonspiel was over much later than anticipated.

Winners of the Stirling Motors trophy were Leona Twiddy's rink from Madoc, finishing with 37 points total. Winner of second draw was Elsi Tedford's rink from Warsaw with 34 points. Runner up of the first draw was a Madoc rink skipped by Mary Barton with 33 points.

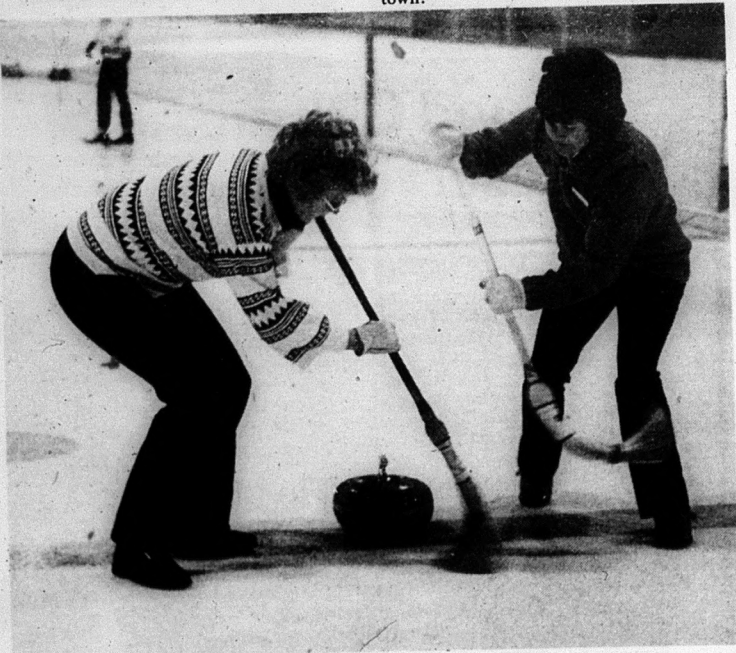

The Marmora rink, consisting of Eleanor

Wells, Ena Lunau, Enid Fluke and Leona Armstrong had the only five ender of the day. They were runners up in the second draw and finished with 31 points.

About 16 teams were on hand to take the bonspiel an enjoyable day of curling. Jean McGarvey, social convener of the Marmora Women's Curling club, must be credited for the lovely hot dinner served to the girls after their 10 end games.

Bonspiel conveners, Marietta Kotulski and Ena Lunau did an outstanding job of coordinating the event. They kept track of the day's results and presented the winner with trophies and prizes later in the evening.

The teams that attended were from Bancroft, Norwood, Stirling, Madoc, Tweed and Warsaw. The visiting teams commented on the hospitality extended by the Marmora Club and said they hope to reciprocate when Marmora competes out of town.

*An enjoyable day but at times "Hard work"*

*Marmora Womens Bonspiel winners  
Leona Twiddy's rink from Madoc with 37 points*

*Mrs. Tedford's rink of Warsaw  
2nd draw winner with 34½ points*

*Runner up of the first draw was Mrs. Barton's rink  
from Madoc with 33¾ points*

*Runner up of the second draw was a Marmora rink  
skipped by Eleanor Wells*

*Marmora rink above was tied with Tweed rink for fifth  
place but gave the visitors the point*

*Marion Aikins skipped the Tweed rink  
to a fifth place finish*

## One foot in the furrow' by Bob Trotter

Letters are appreciated by Bob Trotter, Eldale Rd. Elmira, Ont. N3B 2C7

The first time I met him was at a meeting of milk producers in Perth County. And Perth County is well-known for dairy products.

He was asked to speak in the middle of a controversial topic: establishing milk pooling whereby all milk produced was pooled and actually belonged to the Ontario Milk Marketing Board when it left the farm gate.

It was in 1965 and the milk business in Ontario was in a shambles. He entered that meeting hall when the tension in the air made it crackle. We displayed an incredible amount of patience and understanding among dozens of irate farmers.

Through it all, with an air of calm deliberation and persistence, he stuck to his guns.

As a result, the dairy producers in Ontario were on their way to almost a decade of prosperity.

His name is George McLaughlin, the articulate dairy farmer from Beaverton who retired in January as chairman of the Ontario Milk Marketing Board.

Because he is articulate, he made his points coolly and calmly with a quiet recital of the facts as he saw them.

I watched him on a number of occasions come through various battles. Most of them he won. Some, he lost. But there is no doubt about it: he won the war to bring order out of chaos for the milk business in Ontario.

He was appointed by the province in 1965. He established the pooling of milk, the rationalization of farm-to-dairy transportation and offered industrial milk producers a program of graduated entry into fluid milk markets.

He served three years as the appointed chairman and then was elected by his peers to serve two additional four-year terms. Which is an indication of the esteem he won in the early years.

He is known as an honorable man. As far as I know, he has never broken a promise. In addition, he has never been a vengeful man although, in the early years, he had good reasons to carry a grudge.

I was unable to attend the annual meeting of the OMMB in January although Haynes Davies, the man in charge of press relations for the board, sent me an invitation. I would like to have been there to listen to George McLaughlin's last speech as chairman of the board. He said a few things with which I heartily agree. He suggested that dairy producers should get down to seriously thinking about allowing other ingredients to be mixed with dairy products.

The industry has stubbornly refused to allow any mixing except for an experimental case where vegetable and animal oils were mixed to produce a "butter" that was part margarine.

But no mixing in other products has been allowed by the industry. As a result, Mr. McLaughlin maintains that the dairy industry has lost about half of the table spread market, the cream market and the topping market. Other products — substitutes — have taken over so that today you can buy a coffee whitener or a topping that looks like real whipped cream but certainly doesn't taste like it.

Mr. McLaughlin suggests that dairymen take a look at combining the best features of both the real thing and the substitutes to provide consumers with a product they can afford that will taste as good as the real thing.

"The dairy industry should be prepared for an aggressive approach to new products, new blends and new uses for dairy products," he told the producers at the annual meeting in his final speech.

"Let us make some aggressive decisions for a change. Decisions imply leadership and leadership implies risk. But let us risk the leadership which will assure that the dairy industry does not really become as obsolete as some try to convince us it is already."

Strong words they are.

But that is exactly what farm organizations need today: strong words from strong leaders such as George McLaughlin.

The milk board will miss him and so will all farmers in Ontario.

## Student employment programs announced

Health and Welfare Minister Marc Lalonde has announced that his department will spend \$1,348,000 towards funding of two student employment programs this summer.

The programs are part of the federal government's Student Summer Employment and Activities Program -- SSEAP '77. It is expected that 510 students will be hired by the Health and Welfare Department alone.

The first program "Health Activities Summer Employment program for students" (HASEPS) will provide funds to assist voluntary health and health-related organizations in hiring students of the health professions and other students who represent resources which are needed by the health field. Main objectives of this program, run by the Health Programs Branch, are:

1. provide students with a positive summer work experience in the health field;
2. assist voluntary health and health-related organizations with the gathering of new knowledge that relates to substantive improvements in the health of Canadians.

This \$748,000 program will create approximately 300 jobs for post-secondary students for up to 15 weeks work for each student. The program will be administered by the Health Programs Branch through the Canadian Public Health

Association.

Voluntary health and health-related organizations should submit applications to the Canadian Public Health Association, 1335 Carling Avenue, Ottawa, Ontario, K1Z 8N8, before March 15, 1977. Students should apply through the Canada Manpower Centres.

The second program, called "Non-Medical Use of Drugs Summer Resources Fund" is designed to involve students in the development and testing of more relevant community responses to problems associated with the use of alcohol, tobacco and drugs and to encourage research into specific problems surrounding the use of these substances.

The funds will provide employment for approximately 210 students at a total cost of \$600,000. All projects must be sponsored by an academic institution or social services agency, or by a recognized community group. Applications and awards are normally filed through the sponsor, although students who wish to do research may apply directly, indicating their sponsor(s).

The program is administered through the regional offices of the Non-Medical Use of Drugs Directorate located in Halifax, Montreal, Toronto, Winnipeg and Vancouver. Applications should be made to these offices by March 15, 1977.

## Good Citizenship deserves a medal

Do you know anyone here in Ontario who—through selflessness, humanity and kindness without expecting anything in return—has made this a better province in which to live?

That's the kind of person for whom the Ontario Medal for Good Citizenship was established.

Recipients are selected by an independent Advisory Council of Ontario citizens whose honorary chairman is the Lieutenant-Governor of the Province.

Anyone may nominate a person for the Ontario Medal, and nomination forms are available by writing:

Executive Secretary  
Advisory Council  
Ontario Medal for Good Citizenship  
Queen's Park  
Toronto, Ontario M7A 1A1

Making a nomination is itself an act of appreciation for good citizenship. All nominations should be received by April 15, 1977.

ONTARIO MEDAL FOR GOOD CITIZENSHIP

## Is your bank account below average?

Canadians continue to have a love affair with their bank books.

Latest figures from the Canadian Bankers' Association (CBA) show that there are 22 million personal savings accounts at the banks. The total in these accounts has almost quadrupled during the last 10 years, but the average account still holds less than \$1,700.

Also interesting is that close to 70 per cent of the accounts are for less than \$1,000. And a surprising 40 per cent hold less than \$100.

According to the CBA's just-issued Factbook, Canadians also write cheques in ever-increasing volume.

There are now four million payment items—cheques, money orders and so on—handled by the banks every business day, or 1.3 billion for a year. And even these figures aren't complete since they do not include the millions of federal government items and those drawn on other financial institutions using the banks' clearing facilities.

Factbook includes a wide range of information on the banking system, including such items as:

—The banks now have a branch for every 3,255 Canadians.

—Payment of interest on deposits and debentures is the largest single expense item for the banks, topping \$5.52 billion in 1975.

## Smoke detectors can save lives

Smoke detectors now being marketed in Ontario can save lives, but some salesmen are using high pressure "scare" tactics to sell the units at excessive prices.

"Conscientious parents are easy prey for unscrupulous door-to-door salesmen painting grim pictures of tragedy to sell detectors at inflated prices," says Sidney Handleman, minister of consumer and commercial relations, warning consumers to shop carefully before they buy.

Fire claimed the lives of nearly 300 Ontarians last year, many of whom could have been saved had detection been made earlier.

Smoke detectors fall into two categories: ionization type and photoelectric. Ionization type detectors sense "products of combustion", often before there is any visible indication of fire. Photoelectric detectors trigger an alarm when smoke interferes with the flow of light in the unit.

Both types indicate fire danger much more quickly than heat-activated units now installed in commercial and industrial buildings.

The Ontario Building Code, enacted by the Ontario government in 1976, stipulates that all new residential dwellings must have ionization detectors wired into the electrical system, the minister said.

Units available for existing houses include battery operated and plug-in units as well as the electrically-connected types. Prices range from about \$40 to \$80 for the units.

The Ontario Ministry of Consumer and Commercial Relations has produced an information sheet about smoke detectors, their installation, operation and maintenance.

For a copy of this information sheet, write: Ontario Consumer, Queen's Park, Toronto, Ontario M7A 2H6.

## PUBLIC UNDER

## Handicapped people are individuals

What is the response to handicapped people? More often than not, the response from most Ontarians is negative. They are not able to accept individuals for what they are. Because of this inherent inability not to "see" the disabled as people, they remain unaware of the complexity of problems faced daily by these citizens.

If, for a moment, they would try to see the person and not the disability, they would find someone very similar to themselves. Someone perhaps, like Jim Smith.

Jim Smith is married, has one child, a house, and drives his own car. Jim also drives his own wheelchair.

As a result of a lacrosse accident some 12 years ago, Jim has had to make several changes in his life. The first one was to learn to become independent. "After the accident, I was in the Toronto Western Hospital for 4 months, then another 10 months in Lyndhurst Lodge. It wasn't until I was in Lyndhurst that it really hit me. I would never walk again".

At the age of 20, the task of learning to

live again was a formidable one. "The biggest problem was to regain the control of my bodily functions", Jim recalls. "Some of the other patients at Lyndhurst, with more severe handicaps than I weren't able to manage without help. I vowed I would regain my independence. I had a lot of help from my family, old friends, and some new friends that I met as a result of this whole thing".

Jim was studying to become a chartered accountant and the fourteen months interruption did nothing to lessen his will to succeed. "It was difficult for me to get back and forth to school", he said. "In those days I didn't drive my own car and had to take taxis to my classes. Fortunately, I knew how to obtain financial assistance for my education, and by 1972 I became a full-fledged chartered accountant."

Of the numerous obstacles facing the disabled, Jim cites financial instability as a major one. "There's enough to worry about, getting back into the working world and making necessary adjustments that

## Samantha READS YOUR STARS

**If you were born this week:** You probably enjoy mental activity more than the physical. You're always interested in learning anything new and your mind is both quick and flexible. You excel in group endeavors and, indeed, usually do best working in partnerships.

**ARIES (3/21-4/19):** A bit of a tricky week comin' your way, Aries. Keep your eyes open and your wits about you. Several opportunities are offered; take one and leave the other. Later, arrange something special for one you love on this week's special day for lovers. Have a happy!

**TAURUS (4/20-5/20):** Startling information about a certain person starts your week. Be diplomatic and tactful; let others do the foot in mouth act! Later, a frothy, lacy valentine awaits just for you, Taurus baby. Enjoy!!!

**GEMINI (5/21-6/20):** You may find yourself in the middle of a sticky situation, Gem. Only your refusal to take sides will keep you out of the goo! Then, romance provides a scintillating change of pace. Yippee! Finally, new data causes you to re-evaluate your checkbook. Ouch!

**MOONCHILD (6/21-7/22):** Week ahead is chock full of sugar and spice for you, Moon-

baby. Cupid definitely has your number and sets your heart to ringing! Later, watch your associates or that spice could become an overdose of chile powder! And with your delicate tummy, you don't need that!

**LEO (7/23-8/22):** You excel at games, Leo. You're willing, competitive, and have a touch of the dramatic. Just remember that SOME games are played for keeps, and some are better lost than won. One of the week's delightful games is post office. You'll find a whole box full of valentines!

**VIRGO (8/23-9/22):** Gold brick looks like the real 24 karat thing, Virgo. Don't be fooled — it's just a good plate job! Later, family matters keep you busy, and company arrives. Hearts

and flowers set the stage for lovers' idyll!

**LIBRA (9/23-10/23):** Romantic possibilities abound this week, Libra, including fascinating newcomer. Be prepared for competition, though. Sam knows that you'd usually rather switch than fight, but isn't it about time you fought?

**SCORPIO (10/24-11/22):** You often tend to operate more on the emotional level than on the cerebral, Scorpio; but this week's domestic situation should definitely be handled on the intellectual plane. In other words, use your head; don't lose it! Scratchy week gets good news to quiet it!

**SAGITTARIUS (11/23-12/21):** You may hear two versions of the same story this week, Sag. They'll be so different that you may not think it's the same situation at all! Don't trust or act upon either version. Turn your mind to love instead!

**CAPRICORN (12/22-1/19):** Temptation to extravagance should be ignored as week begins. Keep those long-term goals in sight and save for them! Later, Venus knocks your normal reserve for a lovely loop, and wild affair commences, Cappy!

**AQUARIUS (1/20-2/19):** You're in the ole spotlight this week, Aquarius. One responds to your good vibes as to a magnet! Sweet harmonies set Cupid clapping! Later, type an S, for secrets, spangles, and stars!

**PISCES (2/20-3/20):** This may be a good time to sit back and let others take the initiative, Pisces. And, believe Sam, they will! Steer clear of hidden involvements; keep actions in the open. Message clears as week progresses.

(c) Suburban Features

could be lengthy, without working bill payments. Being a paraplegic I am naturally interested in the needs of the handicapped", he says. "The company I work for, Everest & Jennings, manufactures wheelchairs and is in the health and rehabilitation business". Jim holds the position of Comptroller with the firm.

In 1975, he was approached by the Ontario March of Dimes to become a member of the Board of Directors. Jim accepted and is now part of a team that concerns itself with the total rehabilitation of disabled adults.

The more one talks to Jim, the more one forgets the wheelchair. It's the person, not the chair that is important. For a number of people the wheelchair is what they see and not the person, automatically creating a barrier to normal communication. The able-bodied have to help eradicate these barriers. The Ontario March of Dimes, with people like Jim Smith, are doing their part.

Are you?

## Marsh World

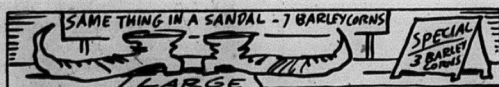

**FAIRY SHRIMP** — The Fairy Shrimps are inhabitants of most freshwater ponds and small marshes. One of their characteristics is that they usually appear immediately after the ice melts in the spring and disappear as rapidly in midsummer. The adults glide slowly through the water, swimming upside-down, with wavelike undulations of the broad appendages creating a minute current of water over the body. Minute plants and animals carried in this current are trapped and eaten.

Ducks Unlimited (Canada)

Edward II originated shoe sizes in 1324. He decreed that three barleycorns, placed end to end, equaled one inch!

## Vegetable Medley

A favorite ... for sure!

Fresh for Flavour

If individually cooked, nicely seasoned vegetables look and taste great, you can imagine how a selected mixture of various colors, textures and flavors of vegetables look and taste. "Sensational" says food specialists at the Ontario Food Council, Ministry of Agriculture and Food.

During the winter months, you'll buy most of these vegetables, perhaps every shopping trip. One day, put them all together in this combination. Cook them in groups. Since potatoes, squash and rutabagas need the most cooking, you start off with those, then add the other vegetables - finishing with tomatoes and green peppers. This dish will become a favorite ... for sure!

**Vegetable Medley**  
1/2 cup diced potato (1 med.)  
1/2 small yellow squash,

(cut in half, remove seeds, slice very thinly)

1-1/2 cups rutabaga (3/4" cubes)

1 cup carrot coins, 1/4" thick (2 to 3 medium)

1/2 cup fresh green beans, sliced into 1" diagonals

1/2 cup celery, sliced about 1/4" thick on the diagonal (1 stalk)

1 onion, thinly sliced, separated into rings

1/2 cup parsnips, peeled, cut into coins

1 medium tomato, cored and cut into eighths

1/2 cup julienne strips green pepper

2 cups beef bouillon (use 1 beef flavored bouillon cube in 2 cups water)

1/3 cup olive oil

2 small cloves garlic, crushed

1-1/2 teaspoons salt

1/2 bay leaf, crumbled

1/4 teaspoon tarragon

1 tablespoon chopped parsley

A day ahead, (if desired) wash and prepare all the vegetables, cutting them into the sizes and shapes given above. Bag the vegetables in groups. (Keep the potato in water).

Put the bouillon cube dissolved in water; oil, garlic, salt, bay leaf, tarragon and parsley in electric frypan.

Heat to boiling. Add drained potato, squash and rutabaga. Cover; cook 10 minutes only. Add carrots, green beans, celery, onion and parsnip. Toss lightly. Cover and cook another 10 minutes. Toss lightly. Add tomatoes and green pepper. Cover. Cook 5 minutes only. Serve immediately.

Makes 6 - 8 servings.

## Me and my car

By BILL SMILEY

BOY, am I glad I'm not rich! There is nothing wrong with money in itself, though the love of it is reputed to be the root of all evil. It's what money brings in its wake that can make life a nightmare.

For the past four days we've been a two-car family, and it's been a real brute. We need two cars about as much as we need two houses, and I still don't know how I got into this fandango, but I'm in it, and I wish I weren't.

There wasn't a thing wrong with our old car, except that it was getting a bit long in the tooth. Or so everybody said. I didn't think a 1967 Dodge, with only 48,000 miles on it, that ran like a bomb, was something to be ashamed of.

Dogs are said to age about seven to one, in comparison with humans. Thus, a nine-year-old dog would be like a 63-year-old man. That seems fair enough: missing some teeth, missing some hair, and getting a bit stiff and arthritic. But there are old dogs and old dogs, of both species.

I don't know the ratio for cars and humans, but I'd guess it would be about eight to one. So, my 10-year-old car would be about 80 in human terms.

To some of you young people, 80 might seem a great age. But to my personal knowledge, for some people life begins at 80. And many an

old girl in a home for the aged will back me up. They know, from personal experience, that some of the guys, at 80, 82, 84 are among the most dangerous men they've ever met in their lives, socially and sexually.

We've all been reading lately about the Male Menopause. At least I have. I think I came through it all right, but you never really know. Only last Sunday afternoon I was giving my wife a big blast because she didn't want me to join the poker club and go to the Legion Hall and play shuffleboard with the boys after work on Friday.

She was a bit taken aback for about one minute. Then she snapped that she didn't care what I did. I could go and stand on my head in a snowbank. I could go out and play poker six nights a week, as long as I didn't take more than a dollar with me, and didn't expect me to serve lunch to a lot of men who'd leave a dirty mess to clean up and burn holes in the rug.

I don't know how I got away over here behind the barn when I started out talking about the horrors of being a two-car family. Anyway,

People made disparaging remarks about my old Dodge. A mechanic wanted to buy it. Cheap. When I suggested \$1,300 as a fair price, he laughed so hard he had a mild

heart attack. "Smiley, you've run that old wreck into every tree in Blank County."

This was a gross canard. That car has hit only one tree. I'll admit that it has hit the same tree — the one at the end of my driveway — three times, once by my wife, once by my daughter, once by my son-in-law, but never by me. That shows you how rumors spread.

It did have a wow in the front bumper from the time I hit a light standard. The back bumper was somewhat like a boomerang, because I bombed through two feet of snow in my driveway last winter, skidded across the street, and hit a telephone pole, backwards. But only one tree.

On one side, the chrome was stripped off and the door caved in, when the Old Lady had an argument with the side of the garage. But the other side, until today, looked like a new car, except for the rust, which had eaten a bare 12 inches up into the fenders.

Key words there are "Until today." After today I have matching doors, both without chrome, both looking as though Paul Bunyan had taken a grievance and a kick at the door, in that order.

Inside, the car is like new, if you don't mind a bit of foam spilling out of the seats. You can tell it has been a one-owner car. The two inches of

cigarette ashes on the floor are all of the same brand.

You can understand how sentimental a chap could get about such a car. Like an 80-year-old uncle with a few scars and wrinkles but a lot of zip still in the old bawd.

People have made love in that car. People have been taken to hospital in that car. Babies have been brought home from hospital on their fifth or sixth day in the world, in that car.

I loved that car. But it was too handy for me. It was Male Menopause No. 2, the one that comes at 80.

So I bought a new one. Not really new. Anybody who buys a new car today is either rich or ripped-off. Jumped all the way up to a '72.

But I still have the old one. My wife loves it now, too, after asking me for five years if I expected her to be seen in public in "That old wreck."

So I have two cars. I juggle them in and out of a one-car garage and a one-car driveway. Today I had the new one off to work.

Although I have told her 700 times that she can't back the car out of the garage, she tried it. I don't know what her technique is. I think she looks over her left shoulder and twists the wheel to the right. Or vice versa.

Anyway, she creamed it right up against the post of the garage, could neither forward go nor back, and I now have matching dented doors. Sans chrome. At least it wasn't the new five-year-old one.

## Mom's Stew

### The Great Winter Warm-Up

Most of us remember - particularly during the winter months - how fantastic tasting mom's stew was. What made it so good? "She probably made it with all the vegetables she had on hand" say food specialists at the Ontario Food Council, Ministry of Agriculture and Food.

In those days, it was customary to stock up on vegetables, "just in case." In case bad weather kept you in - in case friends dropped in and stayed. It was a good idea! It's still a good idea!

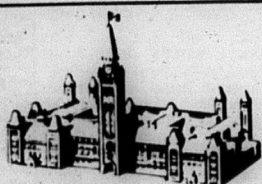

Think about it ... the vegetables suggested in this recipe all keep very well, in a cold cellar, or a refrigerator. You can do as mom did. Stock up on vegetables and make her stew ... often! You'll like it.

#### Winter Warm-Up Stew

- 1/4 cup flour
- 1 teaspoon salt
- 1/4 teaspoon pepper
- 1/2 teaspoon paprika
- 2 pounds stewing beef, cubed
- 3 tablespoons cooking oil
- 2 medium onions, peeled and quartered
- 1 cup apple juice
- 2 med. apples, cored, peeled, thickly sliced
- 3 med. potatoes peeled, halved
- 1 cup sliced celery
- 3 cups carrot sticks
- 5 cups rutabaga sticks (1 med.)
- 1 green pepper seeded, cut in strips
- 2 parsnips, peeled, cut into coins
- 1 bay leaf
- 1/4 teaspoon oregano
- 1 teaspoon salt
- 1/4 teaspoon pepper
- 1/4 cup chopped fresh parsley

Combine flour, salt, pepper and paprika in a plastic bag. Shake cubes of meat, a few at a time, in the seasoned flour until the cubes are well coated. Heat the oil in a large, heavy Dutch oven. Add the meat and brown well. Add the onion and apple juice, bring to a boil. Reduce heat, cover tightly and simmer for about an hour. Add the remaining ingredients. Cover tightly and continue simmering for 50 to 60 minutes, until meat and vegetables are tender. Add more apple juice or water if necessary. Makes 6 servings.

## OTTAWA and Small Business

Nuclear power is synonymous with large-scale, centralized, heavily guarded technology. Individual generating stations are so fantas-

tically expensive that only the biggest of private corporations or government will be able to finance them. Only the most advanced technocrats can operate these gene-

## Solar Opportunities

rators. And, since the consequences of political sabotage of a nuclear station would be disastrous, tight security is always required.

Solar power is much different. It can be scaled down to the point where even a single house or a community can have its own generating station. And because the cost of individual installations would be relatively small,

we could finally wrest control of energy distribution out of the hands of massive public utilities and international oil companies.

According to the Canadian Federation of Independent Business, a solar energy industry owned and controlled by Canadians could provide opportunities for tens of thousands of small firms in manufacturing, installation

and service.

Nuclear power, in a country like Canada which has rich uranium deposits, is inevitable. But the key to a healthy society in the future is a mix of solar and nuclear power. Too much emphasis on nuclear power would be destructive of communities and tie us into a model of big cities and big corporations for generations to come.

The OPEC petroleum boycotts and our own dwindling reserves have ensured that oil will not be our primary source of energy in the future. Electricity, because it can be created by technologies as varied as burning coal to harnessing the tides, is the energy of tomorrow.

					<b>CARDS OF THANKS</b> <b>I WISH TO EXPRESS</b> my sincere thanks for the gifts, flowers and many, many cards I received from neighbours and friends while a patient in St. Joseph's Hospital, Peterborough, and Princess Margaret's Lodge, Toronto. A very special thanks to the Senior Citizens' Club, the Senior Citizens' Bowling Team and Norwood Ladies' Wednesday Afternoon League; also many thanks for the cards and inquiries about my husband, Walter, who is still a patient in Campbellford Hospital. Vi McCulloch. 5 <b>I WOULD LIKE</b> to thank friends, neighbours and relatives for their cards, prayers, gifts, visits and the many deeds of kindness during my recent illness. A special thank you to Rev. Gerald Kemp, Dr. Parkin, Drs. Douglas, Loudon and Grant, to the nurses in "Intensive Care", at BGH and to the OPP for their prompt delivery of needed medication from Toronto. Everett Barrons. 5 <b>I WOULD LIKE</b> to thank Rev. E. and Mrs. Hawkes for calls and prayers, also friends, neighbours and relatives for flowers, treats, cards, calls and other acts of kindness during my stay in Belleville General Hospital. Also a sincere thank you to Dr. Douglas, Belleville, also Drs. Adam, Derry and Dosaj of Madoc Medical Centre. Pearl Blakely. 5 <b>WE WOULD LIKE</b> to express our sincere thanks to friends and neighbours, Madoc Fire Fighters and special thanks to Keith and Jean Heyworth for the use of their home while our home is being repaired as a result of our recent fire. Donna and Art. 5 <b>WE WOULD LIKE</b> to express our sincere thanks to all who assisted us after the fire. Special thanks to Havelock Orange and Black Lodges, all area lodges and Havelock Fire Department. Frank and Iva Cole. 5

## MEMORIALS

JENKINS - In loving memory of a dear mother and grandmother, Evelyn Amelia, who passed away Feb. 5, 1966.

There is a picture we tenderly hold, Wonderful memories woven in gold, Deep in our memory her picture is kept, To love and cherish and never forget. Sadly missed by son Bill, daughter-in-law Joyce and grandchildren Paul and Joanne. 11

YOUNG - In loving memory of a dear son-in-law and brother-in-law, Bruce, who quietly left us February 14, 1974.

As we gaze across the highway, We glimpse a vacant chair, Pipe and slippers lay forgotten, For you are no longer there. It's so lonely here without you. Three long years have passed away, But we have our Father's promise, That we'll meet again someday. Sadly missed and fondly remembered by Ken, Ada, Connie and Jim. 11

McQUIGGE - In loving memory of a dear mother and grandmother, Hilda, who passed away February 10, 1967.

Time may heal the broken-hearted, Time may make the wound less sore, But it cannot fill the longing, For the loved one gone before. Who shall say the grief is lessened, Though smiles may hide the tears, Memories keep the wound still open, With the passing of the years. Sadly missed by daughter Shirley, son-in-law Ken and granddaughter Christine. 11

EASON - In loving memory of a dear husband, father and grandfather, Harold, who passed away Feb. 14, 1976.

This month comes back with sad regret, It brings back a day we will never forget. You fell asleep without a goodbye, But our memories of you will never die. We miss you more than anyone knows, As each day passes the emptiness grows. The tears we shed we can wipe away, But the ache in our hearts will always stay. No one knows the grief we bear, When the family meets and you're not there, But you left us memories we are proud to own. Ever remembered by wife Luella and family. 11

## MEMORIALS

**LAMBERT** - In loving memory of a dear grandmother, Della, who passed away Feb. 8, 1963; dear grandfather, Harry, who passed away Feb. 6, 1975. I had two grandparents, with hearts of gold, who were more to me than wealth untold. Oh what I would give if I could say, "Hello, Grampa and Gramma", in the same old way. To hear your voices, To see your smiles, To sit with you and chat awhile. If you still have your grandparents, Cherish them with love and care. For you will never know the heartache, Till you see their vacant chairs. Fondly missed and always remembered by Granddaughter Lois. 11

**ROBSON**, Jane Belle - In loving memory of our dear Mother, who passed away February 10, 1976. Sadly missed and lovingly remembered by her family. 11

**GRAHAM** - In loving memory of a dear Mother and Father, Annie Margaret and William Albert, who passed away Feb. 9, 1976, and March 4, 1946. Nothing can ever take away The love a heart holds dear, Fond memories linger every day, Remembrance keeps them near. Always remembered by son, Leonard, Gladys and family. 11

**MCCANN** - In loving memory of a dear father, grandfather and great-grandfather, George, who passed away Feb. 11, 1970. It only takes a little space, To write how much we miss you, But it will take the rest of our lives To forget the day we lost you. Forever remembered by sons, daughters and families. 11

## Brownouts possible

TORONTO—Motors may not go on and lights may flicker out by 1980 unless Ontario Hydro can drive home its conservation message.

That's what H. K. Wright, Hydro's director of energy conservation, told businessmen at a one-day seminar sponsored jointly by Hydro and the Building Owners Management Association here last week.

Hydro's problem is a lack of money. When the provincial Government imposed spending restraints in 1975, the corporation was forced to cut \$6.5-billion from its spending program. That figure translates into a shortfall of four million kilowatts of power — the difference

between estimated demand and supply. And four million kilowatts, Mr. Wright says, is equal to twice the power currently generated by the Pickering nuclear plant.

What can be done to prevent brownouts all over Ontario by the 1980s? According to Mr. Wright, the answer's simple: practice conservation. If growth in demand can be cut to a six per cent climb this year from the traditional seven per cent,

then there will be ample power for all users.

He also warned that rates would continue to rise: 30 per cent in 1977 followed by 12 per cent hikes in 1978 and 1979.

"Any levelling off of electricity increases to those low levels experienced in the Sixties is not foreseen for quite a few years unless there is a substantial lowering of interest rates and fossil fuel costs stabilize."

## BATEMAN

REAL ESTATE INC.

## MADOC

## Dave Hobson predicts employment shift

Since my re-nomination last spring, I have been in constant contact with all parts of our riding. Our organization has enlarged in every township. We have more people, more enthusiasm, more experience and a more complete approach to winning the next election. We did very well in the 1975 election but, just to refresh your memory, our Liberal vote increased by over 4,000 - the Conservative vote by less than 1,500. We now need just eight switched votes per poll to win. More significantly, and indeed shockingly, 9,200 people stayed at home and did not vote. If we delivered just one-quarter of these people to the polls, we would win in a landslide and that will be our target. That target must be your target. On election day, if we are to win, you must help me to get out those voters. I ask for just one day's work and the riding is ours.

While I ask for one day from you, every day I work for a victory. I not only do party and organization work, but I help people each week to get their pensions, either federal or provincial, usually with the aid of Hugh O'Neill, MPP, or Hugh Faulkner, MPP. I get people employment, family benefits, information, help in any form. Special interest groups approach me often - loggers for a better deal in timber contracts, farmers who need advice in guiding the County land plans, township councils, petitioning to the provincial government, native peoples who need a spokesman. Every day is a new challenge.

One of my most satisfying projects has been working with Marg Spencley, Tom Cole and Hugh Faulkner, and Julien Reed, MPP to get the deed to the land on which the Burleigh Falls Indian and Metis have their homes - trips to Ottawa, phone calls, government meetings, and it's all going to end in justice for 17 native families.

More recently, I have just attended three meetings in the last week with residents of the Madoc area who are concerned with the development of a nuclear dump in their beautiful countryside. In one short week I have contacted the president of Atomic Energy, the federal ministers involved, and I have discovered the tremendous pressure that the citizens of Madoc will be able to bear on the issue, and more specifically for me, how important the role of the province is in determining whether or not the dump will go ahead.

This fall, we did a survey of the issues about which the people of Hastings-Peterborough were most concerned. In every interview, we discovered that people were concerned with bread and butter issues, government costs, inflation, high taxes, jobs, the cost of living.

I then compared these issues with the record of the Conservative government and found them wanting.

Maxwell Henderson, the old scourge of Ottawa, has now turned his talents into Ontario. He has roundly condemned the Ontario government for its lack of monetary control and its bookkeeping measures. Darcy McKeough told Henderson to leave these matters to the managers,

mainly himself.

Changes in policy by Davis and his strategy makers have cost us a bundle; his third mind changes on the Spadina Expressway; continued financing of an experimental rapid transit system with no buyers; a total reversal of educational standards proving that we, you and I, and the teachers were right all along. The result is 10 years of educational experiments down the drain. We saw home ownership loans given out to thousands of well-to-do people for homes costing up to \$200,000, and all with our tax money.

We saw McKeough try to balance his budget. He has cut a lot this year, but regardless, we in Ontario will this year again be in the red by \$1,000 million. Since 1975, our debt has increased from approximately \$450 to \$650 for every man, woman and child - an increase of 50 per cent. All the time McKeough says he is doing well. In the same time period poor old P.E.I. has increased its debt by a mere 10 per cent and Alberta runs consistently in the black.

I believe McKeough's most brutal move was to limit the provincial contribution towards public education while at the same time forcing the municipalities to fill the money gap on the backs of the property owners. Whether they liked it or not, the municipal governments had to pay for the Davis educational system when they never wanted it in the first place. Attempts by the municipal governments to stick to the A.I.B. guidelines in raising educational taxes were merely vetoed by McKeough while he bragged that he had cut the educational budget. In point of fact he merely made a different group pay. This charade further reduced the significance of local governments, and is certainly not the action of a government cooperating with the municipalities.

The question really is: "What can we do about all this?" What I envision in Hastings, Peterborough and Eastern Ontario is a New Deal. Instead of unemployment in excess of 10 per cent, worse than Quebec, I see a gradual shift of employment opportunity here for our young people and those heads of families unable to find work. I see businesses with a year-around demand for their services instead of a two-month rush and a 10-month starve. Instead of dictatorship by technocrats from Toronto, I see our local government making a meaningful and independent contribution to our democratic system. Instead of expensive red tape and restriction, I see a meaningful streamlined system of housing development so that affordable realistic housing can be built for all who desire it and want to work for this attainable goal. Instead of forced migration to Toronto and area, I see prosperous and efficient villages which will be healthy, casual, and peaceful secure places in which to bring up our families, all across eastern Ontario.

What we want, you and I, and the Ontario Liberals, is a chance to make this concept come true.

## Today's Health

### Glaucoma - a complex matter

The word "glaucoma" comes from the Greek glaukos which means bluish-green or gray. The disease is one marked by a haze of that color over the pupil of the eye.

Sounds simple enough; but actually, says Dr. John Speakman, a professor of Ophthalmology at the University of Toronto, glaucoma is quite a complex matter.

To begin with, glaucoma isn't one thing, but several. The name, says Dr. Speakman, refers to any condition - regardless of cause, or speed of onset - in which the pressure of fluid in the eye is elevated. Untreated, glaucoma can lead to progressive loss of vision.

Glaucoma is mainly a disease of middle age, and it affects an estimated one in 100 Canadians over age 50. People whose parents, or brothers and sisters, have had glaucoma tend to be at higher risk for developing the disease than those without a family history of it.

Unlike many of the topics discussed in the Today's Health columns, glaucoma isn't something that can be prevented. But it's important that it be detected and treated as early as possible.

What this means, says Dr. Speakman, is that people in their late 40s and older should have their eyes tested every three to five years by a doctor. Checking for glaucoma is a simple matter using a technique known as tonometry - measuring the pressure in the eye. Anyone with relatives who have had glaucoma should consider tonometry earlier, and perhaps more frequently.

Sometimes the onset of glaucoma may be quite sudden and characterized by blurred vision and discomfort in the eye. In other cases, glaucoma is apparent only upon investigation. The symptoms, says Dr. Speakman, are usually loss of vision to the side, and tendency on the part of the patient to bump into things.

The acute or sudden-onset glaucoma

may require surgery to create a new pathway for the eye fluid. In milder cases, eye drops may lower ocular pressure. A steady pressure of liquid, Dr. Speakman explains, is what keeps the eye in its proper shape - in much the same way as air does for a car tire.

So glaucoma is eminently treatable in whatever guise it shows up. The important thing is early detection and treatment. And, of course, regular eye testing from middle age on to preserve the precious gift of sight.

# February is the time to plan your spring garden

Just because it's winter, there is no reason to neglect your plants, and-or garden. Follow this handy check list for key February gardening activities.

Resist the temptation to shake snow off bushes and branches in this month. Let Mother Nature handle this herself, or you run the risk of permanent damage to brittle boughs. And remember to keep driveways and paths near the garden as free of ice-melting salt as possible. The less you use, the less risk to trees and water supply.

Now's the time to order any permanent garden fencing materials you have in mind and fix a date for delivery and installation, to avoid the late spring rush.

Mid-February is the time to bring your clivias into a warm room with plenty of light. Water them more when you see light-green growth in the centre of the leaf fan. Look for buds in 6 weeks or less.

For a dramatic new lease on life with large accent plants, give them a special spotlight of their own, rigged up with a timer set for a period from four in the

afternoon till 11 p.m. each day.

Early February is the time to plan your vegetable and flower seed orders, preferably from nurseries that know growing conditions in your area. It's also wise to reserve your stakes, nettings and other garden materials from your local garden centre, at the same time you place an advance order for seasonal delivery of seed potatoes, caladiums, onion sets, dahlias and all summer bulbs.

Check your shrubs in late February for pruning. Cut out any rubbing or criss-crossing branches. In cold areas, simply mark where you're going to cut with brightly-coloured wool and postpone the actual cutting until the weather warms up.

Now's also the time to circle April 7 through 11 on your gardening calendar and make plans to attend the continent's biggest indoor plant and garden show. The Plant Show is at Toronto's International Centre and advance tickets and information can be had from show headquarters: 80 Charles Street West, Toronto, Ontario M5S 1K8.

## Guinness Record Book

### Canada has largest ice rinks

Canada possesses the largest indoor ice skating rink in the world and the world's longest outdoor rink. Both are in the Guinness Book of Records.

There are only two reasons skating has experienced such an increase in popularity in recent years in a country where skating has always been popular.

Early Canadians skated on frozen ponds or rivers near their homes and later on the outdoor rink at the local school.

With the advent of artificial ice, more rinks were opened and skating season was extended from the fall well into spring with certain rinks remaining open all year.

Some rinks are even open day and night with young children practising hockey before 6 a.m. and working men playing their game often after midnight.

Despite the ever-increasing number of modern, indoor skating rinks across the country, the world's No. 1 rink has to be Ottawa's Rideau Canal Skating Rink.

Imagine having 14 million square feet of ice on which more than 50,000 people can skate with lots of room to spare.

In 1971, when the canal rink was opened, 338,000 skaters made use of it. Last season, that number had grown to 723,000 for 67 skating days.

Not bad for old-fashioned, open-air, natural ice skating.

It takes 50 maintenance men to keep the 5.3-mile-long rink in tip-top shape plus a dozen students trained in first aid acting as patrollers.

There are six activity centres along the canal. They include change rooms, skate sharpening and other commodities.

The canal rink has changed downtown Ottawa in the winter from a relatively quiet area in the evening and on weekends to a hive of activity with thousands of skaters filling restaurants or just adding color to the streets.

Families can now enjoy winter outings close to their homes, especially on weekends when mom and dad have more free time.

During the week, visitors to Ottawa look with amazement as they see well-dressed public servants skate to work carrying their briefcases.

It's this rink that put the nation's capital into the Guinness Book of Records.

Another entry in the Book of Records is Columbian Four Rinks of Burnaby, British Columbia, in the Greater Vancouver area.

The largest indoor artificial rink complex in the world, on an eight-acre site, was opened in January, 1973.

This \$2 million facility houses four National Hockey League size rinks under a single roof along with 16 changing rooms and related facilities.

More than 1.2 million people a year have used the giant rink - for hockey, skating parties, training camps, public skating, hockey schools, conditioning classes, casual hockey, figure skating, speedskating, businessmen's luncheon hockey and many other reasons.

## Wood waste is to be used as energy source by Ontario Hydro

A detailed engineering study for an energy facility which would use wood waste and municipal refuse to generate electricity and steam was announced today by the Ontario Government.

The study stems from initial research which indicated that use of wood and municipal wastes in the Hearst area for energy generation is both economically and technically feasible.

According to the earlier feasibility study of the proposed Hearst energy complex, 180,000 tons of wood waste produced each year by the six area sawmills and plywood plants could provide enough electricity for all the town's 5,000 residents with an equivalent surplus capacity available to Ontario Hydro.

Environment Minister, George Kerr, said that the town's wood waste and municipal refuse now posing disposal problems could also generate steam for local industry currently using natural gas.

"The proposed waste-powered boiler would eliminate the odor and smoke problems caused by the uncontrolled burning of wood waste, the current disposal method", he said.

The \$130,000 study, expected to be completed this fall, will be funded jointly by the Ontario Ministries of the Environment, Natural Resources, Energy, and Treasury, Economics and Intergovernmental Affairs, the Town of Hearst and the Hearst Lumbermen's Association. The study which will be undertaken by Acres Shawinigan Ltd. and managed by the Resource Recovery Branch of the Ministry of the Environment will examine optimum plant siting and design capacity.

"The forest products industry is particularly susceptible to possible fuel

scarcities and the use of wood residues as proposed in this study could provide the type of solution particularly suited to the needs of north Ontario", said the Honourable Rene Brunelle, Chairman of the Cabinet and MPP for Cochrane North which encompasses the Hearst area.

The Hearst study is one of 95 research and demonstration projects being carried out under Ontario's Energy Management Program, which is aimed at reducing the total demand for energy in all sectors of the province's economy.

Energy Minister Dennis Timbrell says that his Ministry is looking for a \$1 billion reduction per year in energy expenditures in the province by 1980, and that the information being provided by the EMP projects will be invaluable in assisting to meet this goal.

## Ewart Reynolds returns to Madoc as bank manager

By VINCENT DURANT

Ewart Reynolds, manager of the Toronto-Dominion Bank in Madoc, recently recounted in an interview some of his adventures as a boy growing up in Madoc. One cannot help but realize that here is a man who has come home again.

For several years Mr. Reynolds has had it in mind that he would like to retire to the Madoc area. Here he finds the best of all worlds; a quiet friendly community, with short travelling time to the larger centres of Ontario. Also, as he points out, he is closer to his elderly mother, who lives in Perth, Ontario.

Born in 1923 in Amherst, Nova Scotia, where his father was the pastor of the Anglican Church, Ewart Reynolds spent most of his formative years moving from town to town, mainly in Ontario, wherever his father was required to serve the Church. It was during these years, upon which he looks with very fond memories, that he lived in Madoc. Between 1928 and 1932 his father was pastor of the Madoc Queensboro Anglican Church.

During those years in Madoc, he said, that gave him some of the best memories of his childhood. Like the Sunday morning he loosened the pins in the organ so that the organist went crashing to the floor in the middle of a hymn, needless to say amidst much suppressed mirth from the choir, where, as he puts it, "My halo was spinning."

None of his zest for living seems to have diminished over the ensuing 45 years. I noticed, as we talked in his comfortable manager's office at the Toronto-Dominion Bank. Nor has he become defeated by the continuing battle he has waged with blindness through the years.

Obstacles such as seven retina-attaching operations in the last eleven years, the loss of one eye, virtually total blindness for a nine month period in 1976 - none of these trials have prevented him from pursuing a colorful and successful 36 year career with the T.D. Bank. And now, towards the end of that career, during which he has relocated 17 times, he has chosen to come back to Madoc.

Currently Mr. Reynolds is commuting from his home in Trenton, Ontario, where he and his wife Mattie have lived since he transferred there from Ottawa in 1968.

While manager of the bank in Trenton, Mr. Reynolds was quite active in community work, and was president of the Trenton Rotary Club.

Mr. and Mrs. Reynolds have one son, Frank, who also works for the Toronto-Dominion Bank. Frank, who has been with the bank for one year, is with their Penetanguishine, Ontario Branch.

The Reynolds' daughter, Heather, is married and living in Calgary, where her husband works for Trans Canada Pipeline, Limited.

And so, to Ewart and Mattie Reynolds, welcome to Madoc, your 'new' home.

## Arena opening highlight of Carnival

A capacity crowd turned out Friday evening to mark the opening of the Madoc Arena, as well as the turning over of the keys to the site by the contractor, Mr. Suedbeck, president of Hugh Murray (1974) Ltd. of Belleville, to the treasurer of the Arena Board, Mr. Joe Ash.

The evening's ceremonies, which included an organ recital by Mr. Stan Hawthorne, a concert by the Cobourg Legion Pipe Band, as well as skating by the Madoc Figure Skating Club and the Minto (Ottawa) Figure Skating Club, showed the community effort which has gone into the conception, design and construction of Madoc's newest landmark. Following the official ceremonies, which included speeches by the members of the Huntingdon Township Council, Madoc Township Council, and the Village of

Madoc, minor hockey was played in the new arena.

After receiving the keys to the Arena from the contractor, Mr. Ash spoke of the true owners of the building - the people. "This new Recreation Centre does not belong to the Arena Board," he said, "it belongs to you, the people of the three communities. Therefore, it gives me great pleasure and satisfaction to ask the three Reeves; Mr. Tom Barton of Madoc Village; Mr. Cecil Woods, of Madoc Township; and Mr. George Wood of Huntingdon Township to step up and accept the keys on behalf of the people."

In the absence of Mr. Woods, due to illness, Mr. John Erwin accepted the key

## Madoc Village Council holds monthly meeting

The following is an extract taken from the official record of the regular meeting of Madoc Village Council, held in the Council Chambers on February 7, 1977, beginning at 7:00 p.m., with all Council members present.

A delegation was heard by Council from the Lesage Brothers Limited with regard to a request for permission to install a self serve gas bar in Madoc. They explained the strict rulings that would apply to the operation of such a business through the different government ministries. A resulting motion, that the Council of the Village of Madoc has no objection to the installation of a self serve gas bar by LeSage Bros. on Hagerman's Sports Shop property in the Village of Madoc was carried.

Mr. Lyn Empey, Village Foreman, attended Council to outline work or problems being encountered. The severe winter has caused many water freeze-ups, many of which are occurring on private property e.g. under private driveways which have been plowed allowing frost to penetrate ground to water pipes. Council suggested the possible hiring of someone to work under Mr. Empey and learn the intricacies of the position.

Mr. Frank Bossio attended Council to discuss a report made by the Madoc Fire Department in conjunction with the Ontario Fire Marshal's representative regarding the unsafe condition of the Bossio Block on Durham Street. The letter listed several unsafe conditions on this property and recommendations in order to correct the situation. Copy of this report was given to Mr. Bossio who will reply in writing, stating that he intends to gradually correct the situation. Mr. Deline advised that such inspections are being made of all buildings on Durham Street with upstairs apartments due to the extreme hazards and dangers involved should a fire occur in this area.

Mr. Tom Burnside appeared before Council to give a report on the Moira River Conservation Authority. Work is planned in 1977 to complete the picnic area which would include fire places and picnic tables. The possibility of selling off lots on the southwest corner of the Whytock property to finance further work on the property was discussed.

A motion was carried that Council of the Village of Madoc recommends that the Moira River Conservation Authority consider the possibility of selling the lots in the southwest corner of the Whytock Conservation Area; and that the Conservation Authority take a serious look at the Whytock property and house for their

administrative offices.

Delegate Harry McGuire addressed Council regarding his desire to establish a Half Way House for men just leaving prison. Mr. McGuire wishes to put an addition on his home for this purpose. The residents would spend a period of from two weeks to two months at the McGuire home and receive assistance in re-adapting to home life and finding employment. There would be three or four men in the home at a time, none of whom would have been convicted of any crimes of violence. This type of operation has been done in Toronto by the McGuires with excellent success and recommendations. Council advised Mr. McGuire to check with the Planning Board in Belleville regarding the zoning for this type of operation in this area.

A letter from the Ontario Provincial Police regarding the crossing guard was received by Council. It was agreed by Council that, in the best interests of the Community, Mr. Johnson should be requested to take the instruction offered by the OPP in order to continue in his position.

## Meet Martha

Shown above is Martha the Turtle, the entry for Grades four and five in the Snow Sculpture Contest. Shown with Martha are Connie Prest and Connie Taylor, both grade five students at the Madoc Public School.

## Krushers cream cops in competition

Shown above are the members of the O.P.P. tug of war team during the pulling competition on Saturday.

## The facts: Nuclear waste disposal

Facts about the nuclear waste disposal site proposed for the Mount Moriah area may be clouded by fear of possible problems involved in the production of nuclear energy. Just what are the facts about the proposed dumping site?

The Department of Energy, Mines and Resources and Atomic Energy of Canada Limited, have jointly undertaken a long-term program for the storage of spent reactor fuel and other radio-active wastes. These wastes would be produced at nuclear reactors operating in Canada, such as at Pickering, Ontario.

The method proposed for the Mount Moriah area is geological disposal of the waste. The theory is that radioactive waste can be stored in underground caverns excavated in rock formations or rock bodies that will prevent escape of the radioactive material into the environment.

Hastings MP Jack Ellis said in a report from Ottawa that the Pickering plant, which has in the past year produced up to 20 per cent of Ontario's power, would produce about 250 tons of this waste per year.

"In order that it (storage) be done properly, research has shown that by drilling into the rocks 3,000 feet or over half a mile into the proper kind of granite, the material can be stored safely. In the laboratories in the research areas, they have laid out in this general area (this general part of Canada) some 200 places that would be probably adequate", said Mr. Ellis.

Further research harrowed that down to about 30 sites, and in fact, about 13 have been set aside as being ones that should be looked at on the site and with test drilling. This test drilling has not yet been authorized. In fact, it probably will be and it is hoped that the drillers would move in sometime this summer," Mr. Ellis added.

Mr. Ellis said that among the 13 sites, there may be five that will be considered perfect for the AECL to utilize. Two of those sites are the one mentioned at Mount Moriah and another in the Weslmskoon area.

The waste material would have to be transported by truck or railway car from Pickering to the storage site in heavy lead, steel and concrete containers.

There are alternatives to this method of storage. At present, the wastes are stored under 12 feet of water at the Pickering plant, and it is feasible that nuclear wastes could be stored on the ocean bottom.

"However, drilling into the floor of the ocean, sometimes many miles down, is a very complex method, and in Canada we have a great deal of hard rock (granite to be exact) which will provide adequate storage for the many thousands of years that this substance has to be stored," said Mr. Ellis.

The nuclear wastes to be stored in underground caverns of granite would be

radioactive for hundreds of thousands of years. It would naturally be important to situate a disposal site in an area unlikely to shift along fault lines. The area should also not be disturbed by underground blasting, which naturally precludes any mining activity involving blasting in the surrounding area.

The waste under discussion is not to be confused with the type of waste which caused the radon gas problems in Port Hope, Deloro and Elliot Lake.

"These instances occurred where the raw material had been mined, not fully refined, placed back as waste material and indiscriminately spread around", says Mr. Ellis.

"The kind of nuclear waste that we are talking about is actually two kinds that come from nuclear generating plants. There is the reactor waste which is very low level and amounts to perhaps one-tenth of one per cent of the total. This is very short-lived and usually is destroyed or stored on the site", he added.

"The one that is being discussed, however, is the fuel that has been used and is spent beyond further use in the reactor, but still has a fair bit of nuclear activity left in it, and this is ... 99.9 per cent of the waste that we are talking about," he said.

According to a government publication "Canada Weekly", the geological disposal of waste is the method favored by all Western countries. Studies are being carried out in the United States and Germany on this method of disposal.

Prof. Edward Wilson of Queen's University Mining Engineering Department in Kingston, Ontario, says there should be no problems with underground storage of nuclear wastes.

Asked if the waste might escape into the watershed area, he said, "I doubt very much if it would, especially in the granite setting."

Prof. Wilson explained that natural uranium is composed primarily of U-238 and a small part of U-235. Plutonium is produced when Uranium 238 is bombarded with neutrons.

Uranium can be enriched by adding plutonium. If the plutonium is "stored" it may be tapped later to use in making enriched uranium. Enriched uranium is used in some of the nuclear reactors for making energy.

Fission products like plutonium are highly radioactive, and give off Beta particles and Gamma rays. Prof. Wilson says Gamma rays are quite penetrating; storing the plutonium in a granite surrounding means that people will be protected from the harmful Gamma rays.

Some people have mentioned in letters to the editor a fear of terrorism - that someone might blackmail the government for stolen plutonium.

The winners in the tug of war contest on Saturday, Kramp's Drushers, are shown

above during the competition with the O.P.P. team.

In a reenactment of the "Shootout at the O.K. Corral", minus Butch Cassidy and the Sundance Kid, the OPP faced at high noon plus two hours - Kramp's Krushers in a battle to the finish on Saturday. Representing the upholders of law and order, were: Walt Sawkins, Derrick Travis, Bill Haggerdy, Bill Reid, Carl Campbell, John Mitchell, Dave DeWolfe and Don Creelman.

Kramps Krushers, striving to unseat the incumbent tug-of-war champion OPP men, included; Harry Dennis, Daryl Kramp, Wayne Martin, Doug Keller, Bill Lebow, Fred Lee, Bob Ash, and Steve Bruce.

Well, you can forget whatever you heard about the good guys always winning! In a straight double-defeat, the Krushers took the two out of three competition handily.

## Women's Institute holds February meeting

Mrs. Harold Tokley was hostess for the Feb. meeting of the Queensboro Branch of the Women's Institute, which was held in the W.I. Hall on Wed. evening Feb. 9.

The President, Mrs. Mervil Lees opened the meeting with the Ode and Mary Stewart Collect. There were 12 members and 2 visitors present. The roll call was, "Name an article I threw in the dump but now wish I hadn't."

A decision was made to send Mrs. Tokley to the Waterloo conference in May if possible.

Plans for the North Hastings District Annual to be held here in May were discussed.

Mrs. Arthur Holmes, Tweedsmuir Curator was in charge of the program. She read a poem that she had composed. "The January 1977 Snowstorm."

The guest speaker was Mrs. Max Burnside, District president for North Hastings, who chose as her subject. Three essentials "Something to do. Something to love. Something to hope for." Mrs. Roy Rollins thanked the speaker and presented her with a gift. Mrs. Holmes read the topic, "although they haven't a leg to stand on rumors really get around."

Mrs. Rollins read an article from the Harrowsmith magazine "The Art of Quilting." Mrs. Holmes showed several pot holders that she had made from Quilt pattern. She also conducted a contest "Homonyms" (words that sound alike) which was won by Mrs. Burnside.

The meeting closed with the singing of "O Canada" after which a lunch was served.

## Tweed residents to hold meeting on site

In response to the many demands for information by concerned people in the Tweed area, Citizens Opposing Radioactive Pollution (CORN) has scheduled a public meeting at the Stoco Parish Hall for Fri., Feb. 18 at 8 p.m.

The meeting is intended to provide all available information about Atomic Energy of Canada's plan to build a dump for radioactive waste near Cooper, in the Stoco Lake and Moira watershed.

CORN was formed following a similar public meeting Feb. 2 in Madoc, which was attended by more than 500 people.

At the Tweed meeting the main speaker will be Mr. Barry Spinner, Professor of Engineering and Nuclear Energy Specialist, who is a member of Energy Probe, Toronto. He will also answer questions from the floor.

A colour film will also be shown on part of the meeting, for which no admission will be charged.

## Ladies tug of war results

In the ladies' tug-of-war competition held on Durham Street as part of the Madoc Winter Carnival, Theresa's Terrors defeated Carol Anne's Pullers to take the trophy.

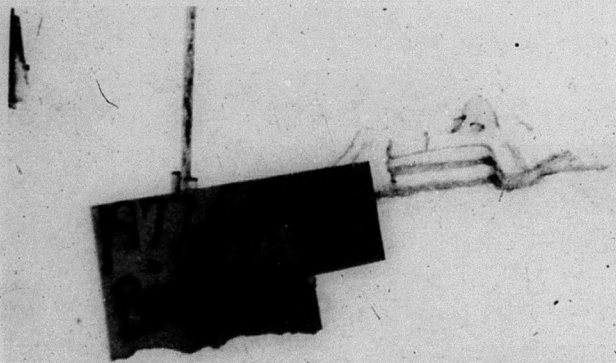

Theresa's Terrors included; Theresa Lee, Brenda Gable, Wanda Carl, Judy

Chapman, Emma Bossio, Cathy Bancroft, Kathy Oliver and Karen Jones.

The members of the losing team Carol Anne's Pullers, were: Carol Anne Kramp, Jane Carswell, Ann Barton, Audrey Genereau, Kathy Roberts and Karen Keller.

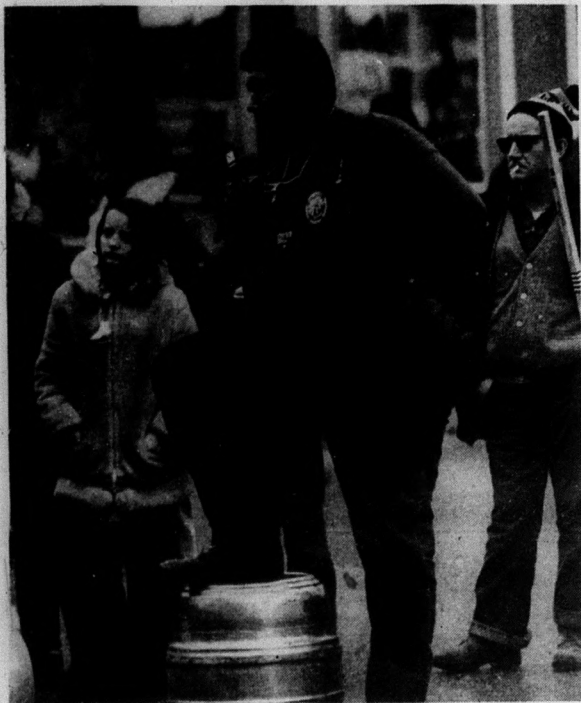

## Bridgewater School enters prize winner in Sculpturer contest

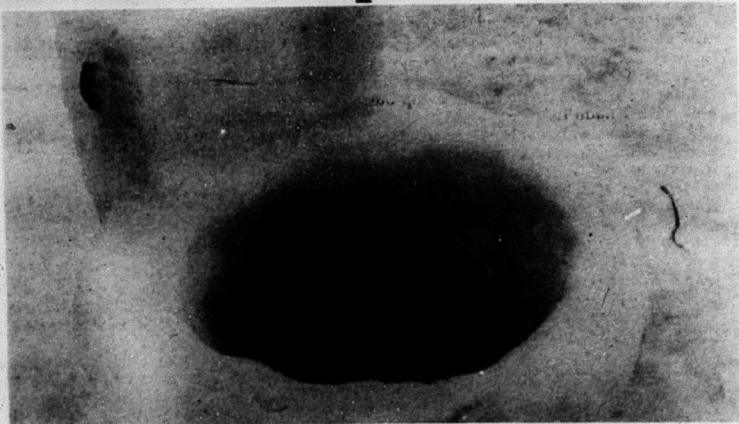

The above photo was taken of the snowmobile entered in the Snow Sculpture contest by the Bridgewater School for the

Mentally Retarded, Actinolite. The exhibit was judged best in the individual category.

Shown above is Daryl Kramp, who was the master of ceremonies for the barrel rolling competition which was held as part of the Madoc Winter Carnival Saturday.

## C.H.S.S. takes school prize in Snow Sculpture contest

"Goodbye cruel world" seems to be the theme of this entry in the Snow Sculpture Contest. The entry, which shows two feet

Centre Hastings Secondary School came first in the Snow Sculpture Contest held last Friday as part of the Madoc Winter Carnival.

This year a second prize, for the best entry in the overall competition, was offered. This prize went to the snowmobile sculpture which was created by the students at the Bridgewater School for the

going down a toilet bowl, was entered by the students at Centre Hastings Secondary School.

Mentally Retarded in Actinolite.

Judging the entries this year were Jim Rollins, a long time resident of Madoc, and Ewart Reynolds, the new manager of the Toronto Dominion Bank in Madoc.

Honorable mention went to the students of the Madoc Public School, who made up the third group of entrants in the competition.

Sonia Bertram (centre in photo) is shown at the opening of the Madoc Recreation on Friday evening. Shown with Miss Bertram, Snow Queen for the 1977

Carnival, is one of her princesses, Joyce Brownson. Seated on Miss Bertram's left is the Honorable Jack Ellis, the liberal representative for Peterborough-Hastings in the Federal House of Commons.

Dave Henderson, well-known folk singer, is shown above during his rendition of Kris Kristofferson's song "Me and Bobby McGee". Mr. Henderson was a guest performer prior to the talent contest portion of the evening's program.

Shown above is Juliette Stitt of Madoc during her performance of Chopin's Valse. Miss Stitt was one of the many performers during Thursday evening's talent contest, held as part of the Madoc Winter Carnival.

## Large crowd attends Queen, Talent Contests

Last Thursday's crowning of the Carnival Queen and Talent Contest marked the opening of the largest, and some say best, Winter Carnival held in Madoc.

Each of the Queen contestants represented a local business or organization, which sponsored them in the pageant.

The winner of the contest, for which each of the girls had to give a prepared talk on a subject of interest to the local community, was Sonia Bertram, 16, of Madoc. Runners up in the competition were Joyce Brownson, 18, and Lori Love, 16, both also from Madoc.

Miss Bertram spoke of the significance of the Madoc Winter Carnival and the necessity of such an annual event for the people of the area.

Judges for the Snow Queen contest were: Mrs. Bev Rollins, wife of Clarke

Rollins, of Bancroft; Mrs. Bernice Hall of Belleville; and Mrs. Welsley Farrel of Roslin.

During the talent contest portion of Thursday evening's program, which was held to a capacity crowd at the Kiwanis Centre, numerous singers, musicians and actors from the local area took part.

Winner of the talent contest was a trio of girls, Robyn Lashen, Jill Taylor and Karen Whiteman. The second place in the contest also went to a trio of singers. This trio consisted of Robyn Lashen, Kim Wickens, and Veronica Francis.

Third place in the talent contest went to Terry Whiteman, who performed a comedy routine and sang a song.

Master of Ceremonies for the evening was Mr. Jim Daniels, and Miss Lamoine West played the piano for the event.

## Fertilizer

Plan for and book your fertilizer orders now for spring delivery.

Co-op fertilizers in bag or bulk load are the farmer's best friend for top yields in the field.

## FORAGE SEED OATS—CORN

Order now - be assured of sufficient stock and variety.

## Aluminum and Copper wiring should be recognized

Aluminum and copper wiring should both be recognized for household wiring according to the Canadian Standards Association (CSA) Consumer Advisory Panel. The consumer group met in Toronto on January 18, to discuss household wiring and generally agreed with CSA's standards which recognize both aluminum and copper wire.

Aluminum wire has been a controversial issue over the past three years with many groups calling for a ban. It has been used for over 12 years in houses and there are about a half million Canadian homes wired with aluminum.

"Although many of the panel members were not satisfied with aluminum wire for various reasons, the majority agreed with the means chosen by CSA's committees, to accommodate aluminum wire," explains Peter James, CSA spokesman. "They also felt there should be more information and instructions on electrical devices being sold in stores."

The Consumer Panel recommended that all homes be furnished with a wiring diagram along with information on the use of the wiring system. The Panel thought all homes should contain instruction manuals on the safe use of the electrical system. The group passed a resolution endorsing enforcement that adequate information be printed on fuse panels and circuit breakers.

This information should tell consumers what circuits the fuses or circuit breakers pertain to. Although this is a requirement in the Canadian Electrical Code, the

Consumer Panel felt that it is not being strictly enforced.

"The Panel also thought that the public should become more aware of CO-ALR (copper and aluminum revised) receptacles and unanimously passed a motion calling on CSA, Ontario Hydro and other utilities and the federal Department of Consumer and Corporate Affairs to carry out a national publicity campaign to promote the use of CO-ALR with aluminum wire," says Mr. James.

Two years ago, CSA required that only CO-ALR receptacles be used with aluminum. The Consumer Advisory Panel is a group of 50 consumers, from all walks of life, that meet regularly and comment on CSA standards. Their recommendations are referred to CSA technical committees for consideration.

# Viceroy

Canada's most completely insulated homes

**Announces the greatest home building advance of the decade**

**STEEL WEBBED ROOF TRUSSES**

Viceroy has engineered a powerful steel webbed truss that enables us to provide a cathedral ceiling with 8" of batt insulation (R-28) and a 6" air space. This compares with Ontario Hydro requirements of 4" (R-12).

If you are building in a heavy snow area then these steel webbed trusses are for you. Their load bearing capacity is unprecedented -- OVER 100 POUNDS PER SQ. FT.

**TRIPLE SEALED WINDOWS**

Every window and sliding door in every Viceroy home is triple sealed, with three panes of glass and two air spaces. Tests by an independent research laboratory indicate a heat loss factor 40% less than conventional thermal pane windows.

**SUPER 6" WALLS**

The Viceroy superhome is framed with 2" x 6" at 16" O.C. on the outside walls, instead of the traditional 2" x 4" studding. We can thus install 6" of batt insulation (R-12). The increase in strength of this heavier construction is tremendous. Engineering studies show the load bearing capacity of these walls is 315% greater than conventional 2" x 4" framing.

Shown above is the damage caused in a fire at Arthur Robinson's farm on Feb. 8. At the left in the photo is the shed where

the two horses (small photo) were housed. They were led to safety by Mr. Robinson's son-in-law, Mr. Ronald Way, who discovered the fire and sounded the alarm.

## Damage heavy in Robinson farm fire

Fire completely destroyed the machine barn belonging to Arthur Robinson the night of Tuesday, February 8. The fire, which was first noticed by Mr. Robinson's son-in-law, Ronald Way, who called the Tweed Volunteer Fire Brigade, started at approximately 8:30 in the evening.

Mr. and Mrs. Robinson were out for the evening when the fire started. Two horses, which were stabled in a shed adjacent to the machinery barn,

were led to safety by Mr. Way.

Damage in the fire, which is estimated by Mr. Robinson at more than twenty thousand dollars, included a new hay baler, a late model pickup truck, a tractor, two snowmobiles, and assorted tools as well as three thousand board feet of cedar wood.

The seven man Tweed Fire Department, on the scene for several hours, managed to save the house and another,

Central Hastings Secondary School during  
the judging of the Snow Sculptures on  
Friday afternoon.

## Bancroft takes Bantam tournament

By BEV BROWNING

At the completion of the 1976 Winter Carnival Bantam Tournament the tournament committee felt that it was so successful it couldn't be topped.

Well, we were wrong!

It was topped by this year's Winter Carnival Bantam Tournament.

Out of ten games played in the Madoc and District Recreation Centre, five games ended in 2-1 scores, two games ended in 3-2 scores and one game ended 2-0. Two of the above games went into sudden-death overtime in order to decide a winner.

In the "A" series, Bancroft skated away with a 7-1 win over Frankford. Bancroft earlier had defeated Madoc 3-2 in overtime and eked out a hard fought 2-1 win over Marmora.

Frankford meanwhile had defeated Oshawa 2-1 and Belleville Broadloom Minor Selects 2-0.

The Nickle's Electric Trophy was awarded to the captain of the Bancroft squad as "A" winners while the captain of the Frankford Bantams received the Johnston Plumbing and Heating Trophy as the "A" Runners-up.

In the "B" series, the Oshawa Canadians and the Madoc Bantams squared off with Oshawa, winning 2-1 in sudden-death overtime.

Oshawa earlier had lost to Frankford 2-1 before rebounding to defeat the Peterborough Minor Selects 3-2 and the Madoc squad 2-1.

Madoc lost 3-2 to Bancroft in overtime and defeated Tweed 2-1 to reach the "B" finals. The Oshawa captain accepted the Madoc Dairy Trophy as "B" champions, while the Madoc captain accepted the Madoc Frigid Locker Trophy as the "B" runner-up.

Individual trophies were also awarded. Cameron Clark from the Madoc Bantams received the trophy for best goalie of the day, Scott Hayton from Bancroft received the trophy for the best defenceman and Jeff Rupnow from Bancroft received the trophy for the best forward of the tournament.

The Tournament Committee received many compliments during the day on how smooth the tournament operated. It ran well because of the tremendous help we received. A special thank you to all the contact men, goal judges, time-keepers, score-keepers, the ticket-sellers, the ladies who graciously gave up their time to make signs and do some typing for us, to Ron Reid who scrapped and flooded after each game, you kept us on schedule all day. Finally, a thank you to the people who graciously donated trophies and pennants towards our tournament and the Women's Auxiliary of the Anglican Church who again fed a group of hungry hockey players at a minimal cost.

Many hands were needed to make this tournament a huge success. Madoc is known for its excellent tournaments and this is due to the excellent help and response we received.

As Tournament Director this year I wish to extend a special thank you to "all" who helped. This includes our hockey fans.

### Tournament Results

#### First Round

Marmora 5	Tweed 1
Bancroft 3	Madoc 2 (out)
Belleville 2	Peterborough 1
Frankford 2	Oshawa 1

#### B-Series

# Weigh it for yourself

By BEV BROWNING

Madoc Legionnaire PeeWees got off to a slow start in Deseronto last Tuesday night (Feb. 8). Deseronto scored three goals in the first four minutes of the first period, and it was an uphill battle all the way.

Final score in this disaster was 7-2 for Deseronto.

Scoring for Madoc were Randy Gray from Billy Bateman and Darcy Kirkwood, and Robert Henderson from Jeff Nickle and Darryl Wood.

Well, after a loss of this sort in play-offs a team is supposed to give up and call it quits.

The PeeWees, however, are not the type of team that gives up easily.

On Thursday night in the Madoc and District Recreation Centre, before their home fans, the local squad threw away their nervousness and skated away with a 4-1 win.

Four Madoc players figured in the goal scoring. Billy Bateman from Andy Ringleman and Darryl Wood, and David Anthony from Craig Rosnuk gave Madoc a 2-0 lead in the first period.

The teams played a scoreless second period. In the final stanza Chris Brant scored Deseronto's lone goal with seven minutes left in the period to bring the score to 2-1.

At the 4:26 mark, while Madoc was playing short-handed, Darryl Wood's pass set up Randy Gray's breakaway goal as Randy upped the score to 3-1. With less

then twenty seconds to go Darryl Wood stole the puck at his own blueline and beat Shaw Doyle in the Deseronto nets to give Madoc their 4-1 win.

Dale Benson and Paul Gurney, who share the Madoc goal-tending duties, came up with a superb game.

Next game is Tuesday (Feb. 15) in the Madoc and District Recreation Centre at 7 p.m.

The fourth game is scheduled for Thursday night in Deseronto. If a fifth game is necessary it will be played at 7 p.m. in Madoc on Fri., Feb. 18. The winner of this series will go on to the next round against the winner of the Norwood-Millbrook-Havelock-Keene series.

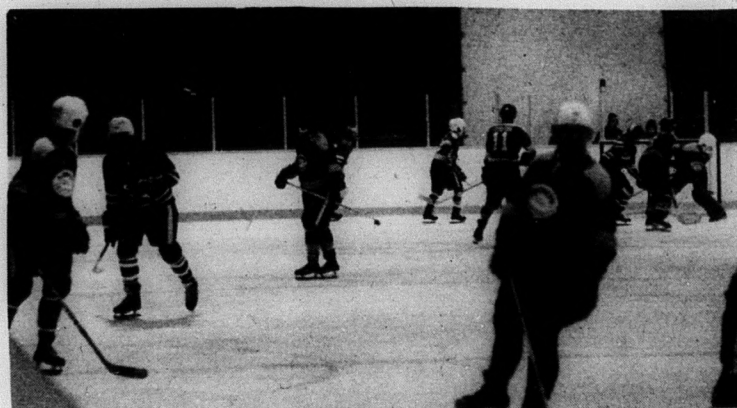

Sat., Feb. 19, the two "Ringette" teams from Ottawa will be here. A reminder is given to all girls 10 years old and over to come out and observe, then try the game of ringette. There is no cost to you. Bring your skates and the Ottawa officials will be holding a clinic on the ice after the two teams have played a short game.

This invitation goes out to girls outside the Madoc and District area as well.

I am still looking for girls who can take one of the Ottawa girls home for supper this Saturday and have her back at the arena for a 7 o'clock game.

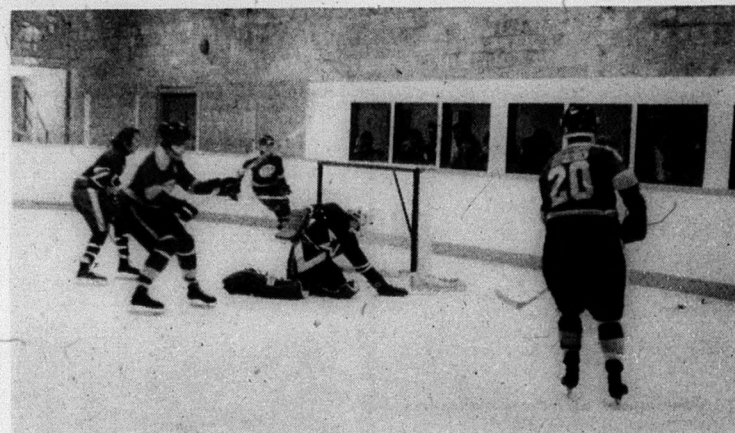

Until next week I'll let you "Weigh" this column for yourself.

# Old Timers beat No Stars 5-3

If the ice looks crowded to you, you're right! During the last minute of the Old Timer's game, held Saturday night as part of the Madoc Winter Carnival, all of the players from both teams managed to

'sneak' onto the ice when the referees weren't looking. But that was O.K., because with the five pucks dropped into play, there was enough action for everyone.

Action takes place around the Kingston No-Stars goal during the Saturday night

competition which saw them defeated 5-3 by the Marmora Old Timers.

## Around Huntingdon

Mrs. Alice Bronson and Mrs. Edith Keller and Mrs. Keitha Parks, Mrs. Irene Gordon have returned home after a two week holiday in Florida.

The 4-H girls have started their new club at the home of Mrs. Don Blackburn.

Mr. and Mrs. Wilt Armerod and girls of Belleville spent last week at the home of Mr. and Mrs. Eric Ormerod.

Sunday visitors at the home of Mr. and Mrs. John Tebworth were Mr. and Mrs. Floyd Weagant, Mr. and Mrs. Leslie Weagant, Theresa and Ricky, Belleville, Mr. and Mrs. David Tebworth, Deloro, Mr. and Mrs. Glen Reynolds and girls, Frankford, Mr. and Mrs. Garfield Williams and family, Mr. and Mrs. Harry Keller, Thomasburgh and Mr. Ernie Underwood and Rickey, Castletown, Mrs. Edith Keller, Madoc.

Members of the Cobourg Legion Pipe Band lead the procession into the Arena Friday night for the opening of the Madoc Arena.

## Queensboro News

Congratulations to Clarence Earl Ram-ay and Patricia Geraldine Stewart who were married at the United Church Manse Queensboro on Friday evening.

Mr. G.A. Creaser was a guest at a Dinner Party held on Monday for Mr. J.B. Hagerman, RR 1, Stirling, who was celebrating his 88th birthday.

On Thursday Mrs. Frank O'Rourke and Mrs. Alex Clark attended the Belleville Presbyterian UCW Rally at Grace United Church, Napanee, Ont.

On Thursday evening Mr. and Mrs. Creaser attended the Induction Service for Rev. Clifford Parks at Holloway United Church Belleville.

On Wednesday Mr. G.A. Creaser attended the funerals of Mr. Maurice Nelson and Master Robbie Prince at Barrie, Ont. Returning home by way of Peterborough Mr. Creaser and Dana spent the evening at the home of Rev. and Mrs. H.H. Lackey.

## Two car accident

A two-car accident on the O'Hara Mill Road, about one mile north of Madoc, resulted in light damage to two vehicles on February 8.

The accident, which involved a 1967 Buick driven by William Young of Madoc and a 1976 Ford driven by Patrick Fitzgerald of Greenview, resulted in a total of \$300 damage to both vehicles.

Constable Glen Fowler of the Madoc Ontario Provincial Police has charged Mr. Young with driving to the left of the centre line in the road.

In Alcoholics Anonymous, members follow a program that could help with another problem such as smoking or gambling. A person must admit he is powerless over alcohol, believe that a Power greater than himself could restore him to sanity and decide to turn his will and life over to the care of God.

Many reformed alcoholics have been brought back to health by the model of Jesus Christ who, as a true Friend and Higher Power, lived with us here on earth for 33 years.

## Peconi takes overall snowmobile trophy

Clarke Rollins, M.L.A. for Peterborough-Hastings, is shown above

awarding the prize for first place in the overall snowmobile competition to Rick Peconi of Peterborough.

## Bowling

## Heather Clark leads junior bowlers

Heather Clark led the Junior Bowlers last week with a season high 581 (210) total and has taken a real hold on top of the High Average race with a 155 average. Other good scores were by Nancy Kirkpatrick 521 (181) Bonnie Perrie 499 (171) Scott Reid 438 (166) Kathy Bronson 426 (154) Debbie Perrie 413 (168) Patti Dunford 410 (173) Kevin Lowry 364 (133) and Lynn Stevenson 364 (147). In the 10 and under group Judy Tisdale led the way with

a nice 385 (137) with Todd Carrol close behind at 380 (172).

The Sat. morning PeeWee group are improving every week. Last week five of them rolled over the 100 mark with Barbie Stevens at 118, Kathy Morgan 117, Lesley Morgan 104, Lisa Stevens 104 and Lorraine Genereaux 101. When these tykes start using two hands to bowl they might just be showing a few mothers and dads how the

## March 31 deadline

OTTAWA - Health and Welfare Minister Marc Lalonde today reminded the more than one million Old Age Security pensioners who receive Guaranteed Income Supplement benefits of the March 31 renewal deadline. If pensioners fail to re-apply by then, their benefits may be interrupted.

Application for the federal government's Guaranteed Income Supplement, paid to pensioners with limited incomes, must be made each year.

The Department of National Health and Welfare sent application kits containing informative booklets and application forms to all Supplement recipients in late December or early January. Two reminders will also be sent before the March 31 deadline.

As a further way of ensuring that pensioners continue to receive their Supplement regularly, the department will operate 76 satellite offices in small towns across the country between now and March 31. The dates, hours of operation and locations of these offices will be announced locally.

During the 1975-76 fiscal year, pensioners received \$923 million in supplementary benefits. This was almost one-quarter of the total \$3.9 billion paid to Old Age Security pensioners receive some additional payment through the Guaranteed Income Supplement program.

The amount of supplement paid depends on a pensioner's income. For example, a single pensioner, receiving the basic pension of \$141.34 a month, would also receive the maximum supplement of \$99.13 a month if his yearly income, including the Old Age Security pension, was less than \$1,720.

A married couple, both pensioners and receiving the maximum supplement, would be paid a total of \$458.74 a month in pension and supplement if their combined yearly income, including the OAS pension, was less than \$3,440.

## Student wins coin contest

Anne Hegadoren, a grade 12 Arts student at Centre Hastings Secondary School, has won first prize in the Madoc Centennial Coin Contest.

The contest, which was sponsored by Madoc Centennial Committee and open to all area students, was initiated two months ago as a vehicle for creating a suitably designed medallion to reflect the history of Madoc. The main criterion for submissions was that they reflect the agriculture, mining and forestry upon which this village has thrived during its first one hundred

years.

Miss Hegadoren, who won \$25 as first prize in the contest, is a student in Mrs. Tuilikki Bence - Bruckler's Art class at C.H.S.S. The twelve students in the class took on the design contest as a class project, and since January of this year each student submitted their own work to the contest judges.

# HELP FEED THE POOR—DONATE A MEAL

PINTO BEANS are going to the hungry poor of Africa, courtesy of Operation Rice Bowl.

Many people live on the brink of starvation. Some of them will be fortunate enough to receive help from Operation Rice Bowl, an integral part of the 1977 American Catholic Overseas Aid Appeal.

Last year, 5 million dollars was collected in Catholic churches in the United States to support Operation Rice Bowl, with 75% going to help Catholic Relief Services' expanded worldwide feeding program. The other 25% was used to ameliorate local poverty problems. Here's how CRS accounted

for the first 2.5 million dollars collected: \$1 million was spent directly to support emergency food programs in 10 countries. Another \$1.5 million will go to increase food production in developing countries around the world. Additional funds later will be used to broaden other projects and food programs. The funds have been targeted to support some 30 food and food-related developmental activities in 24 countries in Asia, Africa, the Middle East and Latin America.

What can you and your

Here's a sample menu:

- 1st Week - Potato soup, a slice of bread.
- 2nd Week - Macaroni and cheese, vanilla pudding.
- 3rd Week - Egg Salad Sandwich, rice pudding.
- 4th Week - Tuna fish salad, chocolate pudding.
- 5th Week - Spaghetti with tomato sauce, jello.
- 6th Week - Creamed peas on toast, pound cake.
- 7th Week - Tomato soup, crackers.

family do to help feed starving families all over the world? You can eat a little less this Lenten season. Plan to hold one sacrificial meal a week for the seven weeks of Lent and donate the money saved to "Operation Rice Bowl."

You'll be helping Catholic Relief Services to sponsor food-support and related food-support projects in countries including Angola, Bangladesh, Chile, Haiti, India, Indonesia, Kenya, Tanzania, Mexico and Lebanon.

These projects "vary according to the specific needs of each country," said Bishop Edwin B. Broderick, newly appointed Executive Director of Catholic Relief Services. For instance, Angola has only recently emerged from colonial status. The local Caritas-Angola—the Catholic counterpart of CRS—is working to serve the needy victims of civil strife. To help out, CRS has allocated \$50,000 to buy food on the local market.

In Haiti, CRS has been at work for some time but thanks to Operation Rice Bowl it can now add to this

program with an allocation of \$50,000 to buy food for the nation's poorest children.

From Rice Bowl comes also \$200,000 which is being used in Lebanon to provide for the needs of tens of thousands of victims of the bloody strife which has almost torn that country apart. Other countries will benefit from the additional \$1.5 million set aside for ongoing projects already in existence but in need of back-up support.

Bishop Broderick is optimistic that the 1977 Operation Rice Bowl will hopefully be as successful as it was in 1976. He said "I believe the future promises even more, thanks to the generosity of Americans concerned with the problem of touching the hungry poor."

Why not decide now to hold one sacrificial meal a week this Lenten season? You can donate the money saved to "Operation Rice Bowl" being sponsored by the Catholic Church in our community. If you prefer, send your tax-deductible donation to American Overseas Aid Fund, 1011 First Avenue, New York, N.Y. 10022.

Cashel

## Council roundup

The Council meeting for the Township of Tudor and Cashel was held the evening of Feb. 7, with all of the members present.

The minutes of the previous meeting were read and adopted upon a motion of Messrs. Burkitt and Phillips.

Following adoption of the minutes, the council discussed several matters relating to road construction, tax arrears and maintenance of the Township roads.

On a motion by Mr. Henley which was seconded by Mr. Cooney, it was decided that Arnold Burkitt should represent the Townships at the March 16 meeting, to be held in Madoc, with Atomic Energy of Canada regarding the proposed nuclear waste disposal site at Mt. Moriah.

The next meeting of the townships council will be on March 3, 1977 at 7:30 in the evening.

## Barrel Rolling Results

Winners of the men's division of the Barrel Rolling Contest, held on Saturday afternoon, was Nickle's Nookers. The team consisted of Gary Cooney, Danny Nickle, Max Van Dyke and Al Dempsey.

The ladies' division in the Barrel Rolling competition went to the team of Heather Kirkwood, Karen Kelley, Barb Gordon and Debbie Helps.

Winners in the arm-wrestling competition, held as part of the Madoc Winter Carnival on Saturday, were: Middleweight [left] Eric Bailey; Heavyweight [left] Daryl Kramp; Lightweight [right] Steve Bruce; Middleweight [right] Eric Bailey; Heavyweight [right] Larry.

## Ellis speaks at opening

The Honorable Jack Ellis, Liberal Member of Parliament for the Federal riding of Hastings, is shown above addressing the crowd at the Madoc Arena opening ceremonies Friday evening.

Bob Bancroft, general manager of the Madoc Winter Carnival, is shown above during the Talent Contest, held Thursday evening at the Madoc Kiwanis Centre. Mr. Bancroft introduced the Master of Ceremonies for the evening, Mr. Jim Daniels which also saw the crowning of Sonia Bertram of Madoc as Queen of the Winter Carnival.

## Chevy's defeat Canucks in hard fought game

By CAROL PARANUIK

One of the largest crowds of the season turned out at the Madoc District Centre Sunday night for the OHA Trent Valley League Intermediate "D" hockey match between the Cooper-Madoc Canucks and the Stirling Chevys. Although the Canucks took an early-game lead, they were finally outdone by the Chevys, to the tune of 11-4.

Jerry Chapman scored both of the goals in the opening period, to give the Canucks a 2-0 lead. After a scoreless 14 minutes, Jerry, assisted by Robert Nickle and Brian Rollins, shot the first one in past Stirling's goalie. Then, with three minutes left, on an assist of Brian Rollins, Jerry scored again.

Stirling opened the scoring in the second period at the 18:31 minute mark. This was answered by Terry Chapman, assisted by Glenn Graham, to hold the two-goal lead for the Canucks. The Chevys moved closer on the score board with a goal at the 6:05

mark, which was matched in three minutes by Terry Chapman assisted by Brian Rollins and Larry Rollins. The visitors brought the score to 4-3 before the end of the period, still in favour of the Canucks.

The closing stanza saw the Chevys tie the score up and take the lead, scoring eight goals before the final buzzer sounded.

The Canucks lost two players to injuries during the game. Danny Nickle suffered a shoulder injury and Jack Smith received a blow to his nose which caused profuse bleeding. Both were unable to complete the game, leaving the Canucks at a disadvantage.

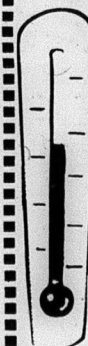

On Saturday night, Feb. 19 the Canucks travel to Stirling for a game at 8:30 p.m. and on Sunday, the 20th, they play host to the Brighton squad at 8:00 p.m. Follow the crowd - come out and watch the Madoc-Canucks.

Shown above is an interesting piece of driftwood. It was found by Mr. George Hoover of Eldorado while he was out one day looking for Butternuts.

Mr. Hoover said he was on the Old Marmora Road, looking over a bridge at some frogs in a stream when he spied the wood which reminded him of an owl.

shown above is the float of the St. Peter's Anglican Church Young People, which was

entered in the toucheligh parade on Friday evening.

## L.O.L. holds meeting

Central Hastings County Loyal Orange Lodge held its annual meeting in the Orange Hall in Madoc recently. The presiding officer was County Master Bro. Alex McCurdy, and visitors present included R.w. Bro. Ralph Langley Grand Master of the Grand Orange Lodge of Ont., East, and R.W. Bro. Nelson Davis, Deputy Grand Master of Ont. East.

In his remarks Bro. Langley informed the members that East Triangle Court, a residence for senior citizens sponsored by the Orange Association, is now under construction at Batawa.

The election of officers for 1977 was conducted by Bro. Langley and the results were: G.M. Bro. Alex McCurdy; D.G.M. Bro. Jas. Gordon; Chap. Bro. Joe Ash; Rec. Sec. Bro. Kenneth Holland; Treas. Bro. Keith Clancy; Mars. Bro. Gerald Russett. 1st Lect. Bro. Ken Gordon; 2nd. Lct. Bro. Chas. Good.

The installation of officers was conducted by Bro. Nelson Davis.

Bro. Alex McCurdy was presented with a Past County Master's jewel by Bro. Langley.

The members were advised that 12th of July celebrations will be held this year in Cobourg and Napanee.

A berry that grows in West Africa is 3,000 times sweeter than sugar.

## \$35,000 in patronage dividends

Some \$35,003 is now being returned to members of Madoc Co-operative Association Madoc in the form of patronage dividends, chairman of the Madoc Board announced recently.

While corporations pay dividends to investors each year, Madoc as a Co-operative, returns net savings to members in the form of patronage; the total amount of which is determined annually by Madoc Board of Directors. The dollar value of the patronage return allocated to individual co-op members is determined by each member's purchasing and marketing business volume with Madoc CO-OP.

Membership is open to anyone who can use the goods and services offered by the CO-OP and is obtained with the payment of \$1.00 for life membership.

Patronage returns are important, but are not the only measure of the value of the co-operative. Madoc is operated in the interest of the members who own and control it, and serves its members and patrons best by setting the pace with competitive prices, top quality supplies and improved services.

Madoc Co-operative is Madoc's largest farm supply and marketing co-operative in Madoc, with sales of over \$1,454,543.00. in 1976.

## Second shoot of season held by Madoc Hunters and Anglers

In spite of inclement weather members of the rifle division of the Madoc Hunters and Anglers turned out last Sat., Feb. 6, for the second shoot of the 1977 season.

Following are the results of the shoot: Smallest 5 shot group: Florin Donaldson - 42b; Lloyd Hicks - 601; Bill Donaldson - 616; Mike Quinn Jr. - 725; Joe Quinn - 961.

Class 1 open: Florin Donaldson - 50; Mike Quinn Jr. - 49; Bill Donaldson - 47;

Lloyd Hicks - 46; Joe Quinn - 42; Mike Quinn Sr. - 40.

Class 2 100 yds.:

Heavy Varminters: Florin Donaldson - 48; Bill Donaldson - 45; Mike Quinn Sr. - 44.

Class III 50 yds.

Light Sporters: Mike Quinn Jr. - 48; Mike Quinn Sr. - 45; Joe Quinn - 44; Dave Szumigaj - 43; Lloyd Hicks - 34; Chris Mowat - 33.

The above points are out of a possible 50.

## Fire at Whiteman home causes extensive damage

Firemen battle the fire which destroyed the garage attached to the home of Mr. and Mrs. Ron Whiteman on Friday afternoon.

A fire of undetermined origin caused extensive damage to the home of Mr. and Mrs. Ron Whiteman, about three miles west of Madoc on Highway 7. Damage which was mainly caused by water and smoke, has been unofficially estimated at ten thousand dollars.

The fire started in the garage of the one story house, and was quickly extinguished by the combined efforts of the Madoc Township Fire Department and the Madoc Village Fire Department.

The home was fully insured, will have to undergo extensive renovations as a result of the blaze, with the replacement of the ceilings, brick siding and carpeting expected to take place in the near future.

This marked the first occasion in which the Madoc Township Fire Department was called upon to use their new fire truck. The truck, a 1976 Dodge five-ton chassis with a 1500 gallon water tank, was recently purchased by the Department, and is stored at the old Township Garage in Eldorado.

## Corvette Meets 500,000 Milestone

Another automotive milestone will occur in March, 1977 when the 500,000th Corvette will roll off the assembly line at the General Motors Assembly Division plant at St. Louis, Missouri.

The initial Corvette was built nearly 24 years ago and was driven off the line at the Chevrolet assembly plant at Flint, Michigan.

The first Corvettes, all convertibles, were available only in white with a red interior. Three hundred Corvettes were virtually hand-built at a rate of three per day until December, 1953, when production moved to the permanent home of the Corvette at St. Louis. 1977 models are available in ten exterior colors and there are 20 different interior trim choices.

The original idea for the Corvette was a result of GM's advanced styling program to spotlight exciting new design concepts in a North American-built sports car. It was one of several special dream cars created by General Motors for its 1953 Motordrama. The public response to the dream car culminated in a decision to produce the Corvette to satisfy customer demand.

After extensive testing, Chevrolet decided that the physical properties of fiberglass reinforced plastic were capable of competing with steel. Thus, the entire body of Corvettes has been plastic which is extremely strong and does not rust.

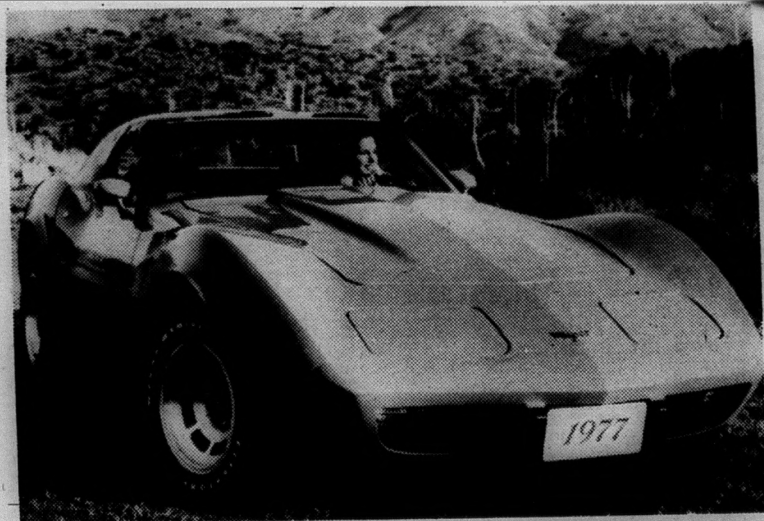

Demand for Corvettes generally has exceeded

the supply, resulting in the resale value of used Corvettes being above that of most used cars.

Corvette production has climbed from the 300 built in 1953, to about 12,500 in 1960, to almost 23,000 in 1970.

In 1976, over 45,000 Corvettes were assembled. It is anticipated that about the same number will be built in 1977 since that amount constitutes the current production capacity of 10 cars per hour, or 180 units daily on two nine-hour shifts. General Motors states that it has no present plans to increase Corvette production capacity.

Today, the Corvette reigns supreme as North America's only true production sports car and one of the most sought-after automobiles.

## Marsh World

**COOKIE CUTTER** — As an aid to improving waterfowl habitat, Ducks Unlimited uses a newly-developed machine known as the "Cookie Cutter" to make channels of open water through stands of dense cattail and other vegetation. Channels formed by the machine allow ducks to take advantage of shallow water areas that are rich in food but are normally inaccessible due to the dense tangle of vegetation.

## March of Dimes is on

With the Ontario March of Dimes campaign underway it looks very optimistic that the provincial goal of \$550,000. will be reached if the present level of support continues.

Volunteer canvassers across the province have been having one of the most severe winters in history to raise money to aid physically disabled adults.

Although it is too early to tell what the final outcome will be, some of the early returns show increases of over 30 per cent.

It is especially important to reach the goal this year because of government cutbacks in the area of social services placing a greater demand on the services on the Ontario March of Dimes.

Boston was once known as Beantown because it was famous for its baked beans.

Some of the services provided to the province's 750,000 disabled adults include, the provision of wheelchairs, artificial limbs, ramps, camping holidays, travelling medical clinics, representation to government and medical research.

Darryl Sittler, the campaign chairman of the Ontario March of Dimes, extends a special thanks to the volunteers who are putting forth such great effort.

In some areas the volunteers will be a little later because of the weather so please set aside your donation and have it ready when called on.

If you are missed donations will be accepted at Provincial Office, 90 Thorncliffe Park Drive, Toronto, Ontario. M4H 1M5.

**EDGE** — "Edge" is a term used by wildlife biologists to describe the place where two different types of habitat meet and blend. Greater numbers and varieties of living organisms are present in these areas, as the food and cover of two different environments are available to them. For example, a greater variety and number of mammals and birds are usually found where water and shoreline vegetation meet than would be found in either open water or dense vegetation alone.

# Handicapped people can be productive and self-supporting.

## This is what Ontario is doing to help.

Your Ontario Government operates a program called Vocational Rehabilitation Services, which is designed to assist physically, mentally and emotionally handicapped people to become employable and where possible self-supporting.

These services are available without charge.  
They include:

- medical and vocational assessments
- vocational guidance and counselling
- work adjustment training
- job placement
- artificial limbs, wheelchairs and braces
- training in community colleges, universities,
- trade and business institutes, and industry

Last year, 11,800 handicapped persons received one or more of these services.

The program also helps employers, by pre-interviewing job applicants, providing information about their abilities, sharing wage payments during initial on-the-job training, and offering many other supportive services.

Through the Ontario Ministry of Community and Social Services, a staff of trained counsellors and supervisors helps the handicapped person develop his or her work potential.

For more information, write for your copy of the free booklet "Help for the Vocationally Handicapped", which describes the Vocational Rehabilitation Services program in detail. Contact your local Ministry of Community and Social Services office, or write to:

Special thanks to Branch 300 for their generous donation and the IOOE members for canvassing. A total of \$775. was collected. Barbara Althouse. 5  I WISH TO THANK my family, friends and neighbours for visits, cards, treats and inquiries. Special thanks to Knox Church and visiting ministers for their prayers. Dr. Cunningham, staff and nurses of Campbellford Memorial Hospital during my recent illness. Clarence Pollock. 5  OUR RECENT bereavement leaves us with grateful hearts towards neighbours and friends. Your helpfulness and comforting expressions of sympathy will always be remembered at the time of the loss of a dear son, father and brother. Special thanks to Mr. Jim Daniels and staff of Mackenzie Funeral Home; for flowers, Masses and sympathy cards, also contributions to the Canadian Cancer Society and Ontario Heart Fund; for food brought to our home and to the CWL for serving dinner after funeral Mass. Ted, Gerry, Jim and Judy Meraw. 5  THE FAMILY OF the late Mina Fitzgerald would like to express their sincere gratitude to their relatives, neighbours and friends, for their cards, flowers and donations to their choice of charities. To Mr. and Mrs. Carl Fitzgerald for having their home open for lunch after the service provided by Remington ladies community funeral home and Director Mr. Jim Daniels, for their very efficient manner in which it was conducted. To Rev. Mr. Creaser for his kind services and comforting words. Fred Fitzgerald and family. 5

## MEMORIAMs

**CARMAN** - In loving memory of a dear husband and father, J.H. Carman, who passed away Feb. 14, 1922. Although we smile and make no fuss, No one misses him more than us, And when old times we oft recall, That's when we miss him most of all. Always remembered and sadly missed by wife Vada, sons Clare and Glen and daughter Elaine. 11

**COOKE** - Cherished memories of Les Cooke, Roy Donaldson and son Charles. Sad and sudden was the call, So dearly loved by one and all; Their memory is as sweet today As in the hour they passed away. Lovingly remembered always by Cora, George and family. 11

**OSBORNE** - In loving memory of a dear mother and father, Mr. and Mrs. Geo. Osborne. In our hearts your memory lingers, Always tender, fond and true, There's not a day, dear Father and Mother, We do not think of you. Ever remembered by Cora Osborne and family. 11

**COX** - In loving memory of a dear husband and father, Chancey Cox who passed away Feb. 22, 1966. Days of remembrance silently kept, In the hearts of those who never forget. Lovingly remembered by Bernice and family. 11

**MCADAM** - In loving memory of our dear mother and grandmother, Jean Victoria who passed away Feb. 16, 1971. Your memory is a keepsake With which we would not part. God has you in His keeping, We have you in our hearts. Lovingly remembered by son Wilbur and family. 11

**COLES** - In loving memory of a dear husband and father, Arthur William, who passed away Feb. 21, 1975. God took him home, It was His will, And in our hearts, We love him still. We see his face, We see his smile, His name we often call, There is nothing left to answer, But his picture on the wall. Ever remembered by wife Violet and family. 11

## MEMORIAMs

**OLSON, Mary Margaret**. In loving memory of our dear sister, who passed away February 17, 1975. Sadly missed, always remembered by the Robson Family. 11

**ANDREWS** - In loving memory of our dear husband and father, William, who passed away Feb. 18, 1974. Silent memories true and tender, Just to show we still remember. Remembered by his wife Betty and family. 11

**ARCHER** - In loving memory of our dear parents, Bill and Mary Archer, who passed away 3 years ago; Dad - Feb. 12, 1974 and Mom, Feb. 20, 1974. No further away than a picture, A smile or remembered phrase, Our loved ones live in memory. So close in so many ways. For how often does a sunset Bring nostalgic thoughts to mind, Of moments that our loved ones shared In days now left behind. How often has a flower Or a crystal autumn sky, Brought golden recollections, Of happy days gone by. Sadly missed by their family. 11

## Winter blues

**By BILL SMILEY**  
 AH, the little ironies of life. Had a letter from son Hugh the other day, complaining gently about the heat in Paraguay. Said it was between 90 and 100 in the shade every day and only decently livable at night.

Last night it was 30 below around this burg. And that's real temperature: Fahrenheit. Today it was about 20 below all day, and is heading for another 30-plus below as I write.

As of today, we've had 142 inches of snow. Migawd, that's just short of 12 feet, and winter just begun. Who says we aren't a hardy race? Or are we just stupid?

At the moment, I'm a little short of breath and temper. I've just come in from wrestling two cars to life, shovelling enough driveway to get them off the street, and hitting the side of the garage another belt when I slipped sideways.

My garage is one of those ancient wooden structures in which those realistic car owners of the '20's and '30's used to jack up their Fords and Essexes and McLaughlin-Buicks and leave them sensibly suspended for the winter.

A modern car, even an old battle-wagon like my 1967 Dodge, has about an inch and a half clearance on each side, if you want to put it in the garage. And I do. In the summer, the birds poop all over the windshield if I leave her out. In the winter, Winter poops all over the whole thing with ice and snow if I leave her out. So I put her in.

But that clearance is pretty skinny. The two-by-four that supports the joist or whatever that supports the roof of my garage is no longer a two-by-four. My wife and daughter have no idea whether the car is four feet wide or six. Accordingly, that two-by-four is now about the thickness of six toothpicks, and any day the whole structure will cave in.

I have, for the moment, two cars. They are located in one garage, and directly behind it; one driveway just as long as a garage. This morn-

ing, the car in the garage, the 10-year-old, started like a rocket heading for Mars. The new one, the five-year-old, groaned twice, grunted once, and died. There I am, with one perky car humming merrily in the garage, and one great lump of cold, dead metal sitting right behind it.

It's enough to make a saint swear. And I ain't no saint.

But then I think of how lucky I am, compared to our ancestors. I have an oil furnace that is practically supporting the entire province of Alberta, but at least I don't have to cut wood all summer to stay warm all winter. I have a wife who wants to drive the car that is working, the one in the garage, when the one behind it won't start, but at least I don't have to hang her washing out in this weather and have it turn into instant white boards, as I used to have to do for my mother back around ought-34.

I'm a school teacher, in my spare time. But I don't have to trudge two miles to the school, with snow to my navel, light the fire in the old box-stove, and sit there shuddering with cold until the students arrive. I just get to school as best I can, and the students don't arrive at all. Half of them come by bus and the buses can't get through the storm. Half of the remaining half look out the window, say to hell with it, tell their mothers they have the 'flu, and roll over and go back to sleep.

Oh, she was rugged, in those old days, in a winter like this, with home-made insula-

tion and red-hot stove-pipes. No wonder many of the old-timers never got out of their long johns from October to May. That's why we moderns feel the cold so much. We don't have a half-inch of personal insulation, made up of sweat and skin and dirt, under the underwear.

What really baffles me is why the very first settlers of Canada stayed here, after experiencing one winter. Things must have been pretty rotten, back in France and England and Ireland, to make them tough it out in this "few arpents of snow," as Voltaire dismissed it so casually.

And what completely stymies me is that the first white settlers found anybody alive in this country, when they first arrived. I simply cannot understand how the Indians survived a winter like this.

You think your arthritis is bad, Aunt Mabel. How would you like to live on corn and sex, in a tepee or a longhouse, for five months, with a little, smoky fire burning on the floor, and 12 feet of snow outside. And no television!

Do you realize your great-grandfather, when grub got low, probably had to walk eight or 10 miles to the nearest store, and home with a sack of flour on his shoulder and a package of tea in his pocket?

On the worst of days, I can battle my way four blocks to the supermarket and come home laden with grapes and oranges and fresh meat, and if I've had a big day on the stock market, even a pound of coffee.

Oh, we have it soft, soft,

compared with them. Tomorrow morning, I may be as surly as my grandfather was, if the car won't start. But tonight, I'm going to eat a gourmet dinner (stew, I looked in the pot), and sit in my warm house watching, in living color, a movie about the South Seas. What a rotten spoiled lot we are!

"Boy, you sure try to make my birthday exciting!"

## Short Takes

Bargain-basement suits inevitably come with free alterations.

Some men are weight-watchers — others prefer to ogle slim girls.

Never put off until tomorrow that which the boss is likely to ask for today.
